Global Opportunities Course Planner

Instructions

This course planner is a tool to aid in the planning processes only and should not be taken as approval. Completion of this document does not indicate formal approval of courses to be awarded for credit. It is **your responsibility** to ensure that the courses you study on your semester exchange are credited to your UniSA degree. Prior to completing this course planner, please obtain a Study Plan or seek academic advice about your program from one of the following:

- UniSA Business students – please contact the Business Hub
- Students studying in other Academic Units – please contact Campus Central
- UniSA Online students – please contact UO Academic Services

Steps

1. Use your UniSA Study Plan to see what courses may be a good fit to use on your semester exchange
2. Research courses at your host institution and gather course information (e.g., detailed course outline)
3. List preferred courses on your course planner next to your UniSA course equivalents

   When considering your exchange courses, note the following:
   - Do you have any electives remaining?
   - Are there courses you must complete at UniSA or in Australia?
   - Can you re-order your remaining UniSA subjects to make subject matching easier?

   Remember, you don't have to use electives for your exchange program; you can use core subjects, majors, or minors. However, using electives can provide the greatest flexibility when making your subject choices.

General Credit Equivalency

Credit equivalencies vary between institutions and countries. We recommend the following as a general guideline, however, see individual partner profiles or this page for more information.

UniSA	Europe / ECTS	United Kingdom	USA
18 units (4 courses)	30 CP	60 credits	15 credits
13.5 units (3 courses)	22.5 CP	45 credits	12 credits
4.5 units (1 course)	7.5 CP	15 credits	3-4 credits
