The journey starts here

Welcome to the University of South Australia. We are a globally connected and engaged university helping solve the problems of industry and the professions. Our teaching is industry-informed, our research is inventive and adventurous. We create knowledge that is central to global economic and social prosperity. Our graduates are the new professionals, global citizens at ease with the world and ready to create and respond to change.

We are Australia’s University of Enterprise.
Ranked 26th in the world's top 50 under 50

SOUTH AUSTRALIA’S LARGEST UNIVERSITY

33,813 STUDENTS

6,195 INTERNATIONAL STUDENTS

211,331 GLOBAL ALUMNI
The University of South Australia is located in Adelaide, Australia’s education city. Adelaide is a cultural destination, filled with many different nationalities, foods, festivals and sporting events. It is home to some of the country’s best beaches, wine regions and parklands, all in very close proximity to the city centre. Adelaide has been globally recognised for its education, environment, stability, healthcare, culture and infrastructure. It is the ideal study location and with free Wi-Fi, free tram and free bus services throughout the city centre, Adelaide is truly a student city.
Located just 12 kilometres away from the city, Glenelg offers classic seaside charm with a white sandy beach known for great swimming, diving, snorkeling and dolphin spotting.

RANKED AS THE WORLD’s 10th MOST LIVEABLE CITY
2019 Economist Intelligence Unit’s Global Liveability Index

RANKED IN THE WORLD’s TOP 30 BEST STUDENT CITIES
Adelaide Ranked #26, QS Best Student Cities 2019

RATED ONE OF THE WORLD’s FRIENDLIEST CITIES
2018 Condé Nast Traveller Awards
Adelaide. Designed for Life.

Adelaide is a city shaped by stories. The first of these stories were created by the Kaurna people of the Adelaide Plains, which remain alive today and are interwoven with the stories of all the people who choose to live, work, study or spend time in the city. Adelaide is a celebration of diversity and inclusion with a strong sense of community. Its unique layout makes it the world’s only true ‘city in a park’. Make Adelaide part of your story.

Accessible

Adelaide offers all the advantages of big city life but is still small enough to get around easily. It takes just 15 minutes to get from the airport to the city and 20 minutes from the city to the beach or hills.

Multicultural

Almost one in four people in South Australia were born overseas with ancestry tracing back to more than 120 countries. Australia also has a democratic system of government and is accepting of different religious beliefs.

Affordable

Adelaide has one of the highest standards of living in the world, yet is one of the least expensive places to live. This means more money to spend on food, accommodation, supplies, travel and entertainment.

Adelaide is up to 14% more affordable than other major Australian cities.

EIU Cost of Living Survey 2019

Adelaide is a global study destination and has been ranked in the top 30 best student cities worldwide by QS. Adelaide is known for education excellence, balanced lifestyle and ability to turn career ambitions into a reality through global industry connections, support of start-ups and leadership in growth areas such as health, engineering, food and wine, creative and high technology, advanced manufacturing, space, minerals and energy.

STUDY EXPERIENCE

World-class degrees
The University of South Australia offers over 200 world-class degrees across a wide range of study areas. In fact, we are the only university in South Australia to offer undergraduate programs in aviation, journalism, illustration and animation, pharmacy, property, physiotherapy, surveying and more. We are also the only university in the state to offer postgraduate programs in cybersecurity, communications, visual effects, and arts and cultural management.

Modern facilities
Study in state-of-the-art facilities fitted with the latest technologies. From simulated hospital settings and a financial trading room, to robotics laboratories and TV and sound studios, there are modern, purpose-built learning spaces across all campuses.

Practical learning
Learn in a highly practical environment, with opportunities to complete internships, placements and projects, learning from experts in real-world settings. Build your networks and graduate career-ready with the skills required of tomorrow’s professionals.

Global opportunities
Take part in international field trips, work placements, internships, study tours, short-term programs, volunteer opportunities, conferences or a student exchange during your studies. Get a global perspective and a competitive advantage before you graduate.

Top ranking teachers
Be supported by highly qualified academics and teaching professionals. Study a curriculum based on the latest industry knowledge and trends. In fact, we are ranked number two in Australia for teaching quality in the 2019 Times Higher Education Young University Rankings.

Career services
Get the support you need to achieve your career goals. Our dedicated career team offers a range of services, resources and tools to help you plan your future career, prepare for the workplace, connect to industry, find short-term employment and more.

89 EXCHANGE PARTNERS IN MORE THAN 24 COUNTRIES
Iress Trading Room / A state-of-the-art learning facility featuring live market data and financial analysis tools at City West Campus.

UniSA Cancer Research Institute / A world-leading $247 million health research and teaching facility located in the Adelaide CBD.

Horizon Hospital and Health Service (HHHS) / A fully interactive learning space simulating a real hospital setting at City East Campus.

#1

Ranked #1 in Australia for industry research income

2019 THE World University Rankings

unisa.edu.au/resdegrees

RESEARCH EXCELLENCE

Our research is innovative, inspired by challenges, and connected to both industry and community needs. We offer a range of research degrees including Masters by Research, Doctor of Philosophy (PhD) and a Professional Doctorate. Our research degrees are focused on producing new knowledge, providing solutions to global challenges and preparing candidates for competitive careers.

unisa.edu.au/resdegrees
“Our graduates are highly sought after and they leave not only with the right skills, but also with a hunger for knowing more about how their profession can better shape the built environment. Personally, this is a very rewarding job. It’s the everyday lightbulb moments and when students make large shifts in their understanding about design that really make my day.”

Andrew Wallace / Program Director: Bachelor of Interior Architecture

“As part of my studies I completed a number of placements including one at the new Royal Adelaide Hospital in both the emergency and plastic surgery departments. Placements helped me to develop my knowledge and apply it to clinical practice. The University also offered pre-clinical workshops and practice simulations to help us become familiar with the real working environment.”

Winnie Zhao / Bachelor of Nursing

Wawira Njiru wanted to make a positive impact in her community back in Kenya. She decided to study a degree in nutrition and food sciences with a vision of doing something big.

During her studies, Wawira hosted a community fundraiser and then used A$1,680 to build a make-shift kitchen in Ruiru, near Nairobi.

From here, Food 4 Education was born. Wawira started providing 25 healthy meals a day to primary school children in Kenya.

Eight years on, Wawira’s organisation is providing 10,000 meals a day, sourcing produce from local farmers.

“When I came to the University of South Australia, I had a clear goal in mind: to do something to benefit my community in the long term, she says.

“The kids inspire me the most. I am so privileged to have the opportunity to contribute to their future.”

Wawira now dreams about expanding into other areas of the continent and providing millions of meals over the next decade.

Wawira Njiru / Bachelor of Nutrition and Food Sciences
Founder, Food 4 Education
Industry connections

Our learning is influenced by industry, and the latest trends and demands. We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities.

VOLUNTEER YOUR TIME

We can help you connect with an organisation and become a volunteer during your time at university. It’s a great way to give back to the community, gain valuable life experience and add extra value to your resume.

unisa.edu.au/volunteering

JOIN OUR ALUMNI NETWORK

When you graduate you will become part of our global alumni network. We have over 200,000 alumni around the world, supported by formal networks in Hong Kong SAR and the People’s Republic of China, Singapore, Malaysia, Vietnam, Indonesia and the United Kingdom.

unisa.edu.au/alumni

- Aviation
- Education (Early Childhood, Primary and Secondary)
- Engineering
- Information Technology
- Science and Mathematics

**On campus**

- Industry-standard engineering facilities / Specialist IT facilities / Mac and CISCO networking labs / Materials and Minerals Science Learning and Research Hub / Future Industries Institute / Planetarium / Flight and airport simulators / Aviation hangar (located near campus) / Ecological precinct / Drama centre / Food vendors and outdoor dining areas / Sports centre and gym

Take a virtual campus tour at unisa.edu.au/campus-facilities

INVESTED OVER A$400 MILLION IN MODERN CAMPUS FACILITIES
GETTING TO CAMPUS

Airport pick up

Did you know we can meet you at the airport?

We offer a free on-arrival reception service. Complete the online booking form before you leave home and we’ll collect you and your bags as soon as you step off the plane.

unisa.edu.au/airport-pickup
FREE CITY TRAM
If you need to travel between City West and City East campuses, then jump on the Botanic Gardens or Adelaide Entertainment Centre tram line on North Terrace. The free tram service runs every 10 minutes and will also take you to the Adelaide Central Market, Adelaide Railway Station, Royal Adelaide Hospital, Botanic Gardens and the Adelaide Zoo.

PUBLIC TRANSPORT
You will find bus stops near each campus and train stations close to the city and Mawson Lakes campuses. Check your bus, train or tram options on the Adelaide Metro website. You will also be eligible for student discounts after enrolment, including purchases of 28-day unlimited passes.

RIDE YOUR BIKE
Adelaide is known for its bicycle culture, so we encourage students to ride their bikes to and from campus. Each campus has shower facilities and secure storage areas.
STUDENT LIFE

ORIENTATION
Start your university adventure by attending Orientation Week. Meet your lecturers, connect with new friends and gain valuable insights from current students. Enjoy a free lunch and entertainment, explore your home campus and get ready for your first day at university.

unisa.edu.au/orientation

STUDENT CLUBS
Discover the 100+ academic, cultural and social clubs available at the University of South Australia. From dance and yoga to climate change, gaming and clubs for different nationalities – there is something for everyone! It’s a great way to meet new friends, find common interests with fellow students and build a more vibrant university experience.

unisa.edu.au/clubs

EVENTS AND ACTIVITIES
All sorts of great events and activities are offered to students throughout the year across all of our campuses. From careers and volunteering events to health, sport and wellbeing activities – there is always something to discover. Students can also explore the public exhibitions and events at The Samstag Museum, Hawke Centre and MOD.

unisa.edu.au/unisasport

Graduate with a top-ranking law degree and professional honours, along with a second degree in a complementary discipline area, in just five years of study. Develop strong skills in analysis, reasoning, advocacy, negotiation and communication to resolve complex legal problems, along with specialist skills in an additional field. Study fundamental courses and concepts that underpin the Australian legal system including areas such as torts, contracts, criminal law and constitutional law. Tailor your studies through a wide range of electives including health law, sports law, family law and human rights law. Build your practical skills in a moot court and learn what it’s like to present before a judge. Engage with our student-run Legal Advice Clinic working with clients under the supervision of a managing solicitor. Become career-ready with opportunities for international study tours, as well as local and national internships. Participate in a law reform project or conduct high-level law research during your studies. Combine your law degree with Accounting, Arts, History and Global Politics, Economics, Finance and Trade, Human Resource Management, Journalism and Professional Writing, Marketing, Management, Psychological Science, Sport and Recreation Management, or Tourism and Event Management. Graduate with a law degree accredited by the Legal Practitioners Education and Admission Council (LPEAC).

Note: If you wish to seek admission to practise law, you must satisfy a number of specified course requirements within your degree, followed by the completion of Practical Legal Training. You can also pair the Bachelor of Laws (Honours) with a wide range of other UniSA disciplines, however eligibility criteria applies.

*See pages 91–92 for details*

Prepare for a career in the private, public or legal sectors. Learn about the foundations of law and the Australian legal system, and develop a strong understanding of the law in everyday business operations. Study fundamental courses covering areas such as management, economics, accounting and entrepreneurship. Combine this with courses in law, public law, torts and contracts. You will also study a range of electives to tailor your degree – four in legal studies and four in business-related courses. Gain valuable practical experience by embedding an internship into your studies and seek career mentoring from legal professionals. Take a direct pathway into the Bachelor of Laws (Honours) or Bachelor of Laws (Honours) Double Degree – academic criteria applies.

Note: This degree does not provide the educational requirements to practise law, however you may have the opportunity to transfer into the Bachelor of Laws (Honours) or Bachelor of Laws (Honours) Double Degree if you meet the eligibility requirements.

PROGRAM CODE: DMMA | CRICOS CODE: 048635B
*see pages 93–95 for details

Graduate with an internationally-recognised and highly-awarded MBA qualification designed for experienced managers and enterprising leaders. You will explore the latest industry insights and management research, and learn to create new solutions to modern business challenges, lead innovative teams and deliver exceptional business outcomes in the context of disruptive change and global uncertainty. Analyse real case studies and business challenges and draw upon your experiences and workplace-based issues for assessment tasks. Complete a major capstone project in your final year, where you will plan and execute a research project for a company board or senior management group. Engage with a cohort of experienced peers from diverse industry backgrounds in a highly interactive learning environment. Participate in an optional two-week global study tour in an optional two-week global study tour of China, Europe or Mexico.

CAREERS
This program can lead to a variety of opportunities in senior management, executive leadership, board directorship, business management and entrepreneurship.

ENTRY REQUIREMENTS

• Minimum three years full-time management experience and a recognised university undergraduate degree or equivalent professional qualifications; or
• Graduate Certificate in Business Administration (DCMA) or Graduate Diploma in Business Administration (DGMA) from the University of South Australia with an average of at least Pass Level 1 across four (or more) courses, or an equivalent qualification from the University of South Australia or another recognised university; or
• Applicants are also required to submit a detailed curriculum vitae or equivalent with at least one referee who can validate work experience.

DEGREE STRUCTURE

“I found Adelaide and the University of South Australia to be the perfect place to settle in. Through my studies I have attended several volunteering programs and career workshops, and gained really valuable experiences.”

Nur Fazdlin Mohd Mokhtar
MALAYSIA
Bachelor of Arts

“I was first attracted to the course content, the University’s location and the social work practice studio. I completed two work placements as part of my degree and was then offered a job. Volunteering helped me make new friends and learn more about the culture in Australia.”

Salina Shrestha
NEPAL
Master of Social Work
Learn to create innovative and sustainable interiors that have a positive and lasting impact. Gain a solid foundation in the theoretical aspects of interior design along with a strong understanding of industry trends in modern workplace and furniture design. Apply design processes and strategies to a range of interior architecture projects and work directly with professional clients to transform places and spaces. Tailor your studies in final year by pursuing an area of interest such as retail, hospitality or commercial design. Participate in national and international study tours, competitions and exhibitions. Study in purpose-built design and architecture studios on campus, connect with a design mentor and gain practical experience by completing an industry placement. After graduation you will also be eligible for Graduate Membership with the Design Institute of Australia (DIA).

PROGRAM CODE: DBVC | CRICOS CODE: 02381F

*see pages 91–92 for details

Learn to design visual communication that is intended to motivate, persuade and inform. Create new visual identities, messages and ideas through strategic thinking and design. Examine, shape and transform meaning using image and typographic communication. Build the skills required for information and publication design, branding and design strategy, and design for motion and interaction. Complete projects for real clients and learn from established designers and academics. Work in contemporary design studios located on campus. Choose from a wide range of elective courses focusing on areas such as printmaking, life drawing, package design, animation design, and more. After graduation, you will be eligible for Graduate Membership with the Design Institute of Australia (DIA).

- The Social World
- Sociological Perspectives
- Understanding Globalisation
- Sociology of Crime and Deviance
- Social Theory for the 21st Century
- Contemporary Culture and Social Change
- Sociology of Gender and Intimacy
- Migration, Diversity and Belonging

Bachelor of Creative Industries

unisa.edu.au/creative-industries

Prepare for a career in the growing creative industries. Study a degree designed and delivered in collaboration with leaders in the industry and explore your creativity in an area that interests you most. Design your own degree by choosing from 12 industry majors, each with a unique focus. You can then select either a second major, or two minors from across a range of creative and business disciplines. Engage with industry from day one as you develop your creative practice while gaining professional knowledge and skills. You will also study core courses in business, design and entrepreneurship, providing you with highly practical and transferable skills to give your career a competitive head-start. Take the opportunity to complete an internship or placement, go on an international exchange, work on real-world projects and build a portfolio of work.
Bachelor of Film and Television

unisa.edu.au/film-and-television

**DEGREE STRUCTURE**

**FIRST YEAR**
- Introduction to Creative Industries
- Major or Minor 1
- Elective

**SECOND YEAR**
- Freelance and Enterprise for the Creative Industries
- Major or Minor 1
- Major or Minor 2
- Creative Spaces and Places
- Major or Minor 1
- Major or Minor 2

**THIRD YEAR**
- AAD Negotiated Study 1 OR Enterprise Design and Value Creation
- Industry Major
- Industry Major
- Major or Minor 2
- Internship or Project OR Creative Ventures
- Industry Major
- Industry Major
- Major or Minor 2

Enter the world of creative media production by studying film, television and visual effects (VFX) production and theory. Explore theory and practice combining traditional and digital forms required by industry. Learn about the professional production cycle from conceptualisation and scriptwriting through to production and post-production. Analyse film and media from around the globe to gain insight into different creative contexts, forms and practices. Develop professional knowledge in screenwriting, cinematic design, VFX, and the production of documentary, experimental and narrative film and television, as well as an understanding of different media platforms and the end-user experience. Engage with industry leaders and work on real-world projects using the latest production software and technologies. Graduate career-ready with your own portfolio of work, showcasing your practical skills and creativity across a variety of media forms. If you are interested in specialising in VFX, you will have the opportunity to apply for a placement with Rising Sun Pictures, studying the third year of your degree at their studio located in the Adelaide CBD and working alongside world-class VFX artists. Package this degree with a Master of Teaching (Secondary) to become a media arts teacher.

**CAREERS**
Filmmaker / director / producer / cinematographer / VFX artist / compositor / animator / 3D modeller / film and video editor / television director / television producer / video content producer / scriptwriter / screen critic / production coordinator / production manager / video blogger / sound designer / production designer / location manager / visual storyteller / online editor / videographer / digital project manager

**EDUCATION**

Admissions information

**ENTRY REQUIREMENTS**

In accordance with national teacher education program standards, applicants must also fulfil non-academic entry requirements before their application is deemed complete. Applicants for the Bachelor of Early Childhood Education (Honours) and Bachelor of Primary Education (Honours) are required to submit a 400–600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

**PLACEMENT REQUIREMENTS**

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training, and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) – to be completed during your studies.

Students completing the Early Childhood specialisation must complete and provide evidence of Basic Emergency Life Support (via the Department for Education) or Applied First Aid training prior to undertaking placements

Bachelor of Social Science (Human Services)

unisa.edu.au/human-services

Magill Campus

3 years full-time

$A29,400 pa* indicative 2021

February and July intakes

PROGRAM CODE: MBSS | CRICOS CODE: 002497J

*see pages 91–92 for details

Prepare for a professional career in human services. Develop the skills to enhance the wellbeing of people who have experienced personal or social difficulties. Focus on key areas such as behavioural and social sciences, human service practice, human service management, and social policy. Learn how behaviour is affected by cultural, environmental, psychological and political factors. Develop the necessary communication skills to work in the field, and explore the political influences in human services and the various ethical and cultural considerations. Learn how to identify the social policies that impact people’s lives and the strategic ways to implement change. Gain practical experience through our human services studios on campus and complete supervised placements during your studies. Graduate with a degree recognised by the Australian Community Workers Association and be eligible for full membership.

CAREERS

Community development officer / social policy adviser / social researcher / community services manager / case worker / case manager / human rights advocate / child safety practitioner / outreach program manager / support worker / counsellor (with further study)

DEGREE STRUCTURE

FIRST YEAR

Human Service Provision
Communication Skills in Social Work and Human Services
The Social World
Child Development
Governance and Citizenship in Australia
Group Work
Elective
Applied Psychology

SECOND YEAR

Human Service Intervention
Australian Social Policy
Social Enquiry Methods
Interviewing Skills in Social Work and Human Services
Mental Health and Mental Wellbeing
Policy Practice
Working with Community
Human Service Workers and the Law

THIRD YEAR

Human Service Field Placement A
Social Analysis and the Human Services
Case Management
Human Service Field Placement B
Human Service Project Management
Aboriginal Australians and the Human Services

Bachelor of Social Science (Ageing and Disability)

unisa.edu.au/human-services

Magill Campus

3 years full-time

$A29,400 pa* indicative 2021

February and July intakes

PROGRAM CODE: MBSS | CRICOS CODE: 098030F

*see pages 91–92 for details

Develop the knowledge and skills to meet and understand the social and emotional needs of individuals, families and carers involved with older people and people with disabilities. Explore ethical practices at the individual, community and policy level of ageing and disability services. Learn to navigate major systems such as the Australian National Disability Insurance Scheme (NDIS) and My Aged Care policies; inform social policy development;
enhance service provisions, and promote social inclusion within the ageing and disability sectors. Gain valuable work experience and build professional networks through supervised field placements.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SAPOL National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. Some placements may require students to hold a current driver's licence; Mandatory Basic Life Support (BLS) training, vaccinations, or a recognised First Aid Certificate.

CAREERS
Policy adviser / disability services coordinator / aged care coordinator / case manager / support worker / leisure activities coordinator / community services coordinator / community development officer / counsellor (with further study)

DEGREE STRUCTURE

FIRST YEAR

Social Enquiry Methods
Interviewing Skills in Social Work and Human Services
Mental Health and Mental Wellbeing
The Social Construction of Ageing and Disability
Aboriginal Australians and the Human Services
Human Service Workers and the Law

THIRD YEAR
Small Business for Professionals
Human Service Field Placement A
Ageing and Disability: Diversity and Discrimination
Human Service Field Placement B
Organisational Entrepreneurship
Human Service Project Management

FOURTH YEAR
Child Centred Practice OR Minor
Policy Practice
Working with Human Service Organisations
Aboriginal Australians and the Human Services

Prepare for a rewarding career in social work. Learn to enhance the wellbeing of others through advocacy, social change, relationship building and the empowerment of people. Focus on four major study areas including social work theory, social work practice and skills, social policy, and social research. Develop knowledge of various social work practices and their application with individuals, families, communities, groups and organisations. Learn how to identify the social policies that impact people’s lives and the strategic ways to implement change. Interpret, evaluate and conduct relevant social research exploring current real-world challenges.

Access custom-built social work studios on campus and practise your skills through simulated scenarios. Gain valuable practical experience through work placements during your third and fourth years of study. Graduate with a degree accredited by the Association of Social Workers and be eligible for full membership.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SAPOL National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. ART, ARCHITECTURE & DESIGN

Master of Architecture
unisa.edu.au/architecture

- City West Campus
- 2 years full-time
- $37,700 pa* indicative 2021
- February and July intakes

**ENTRY REQUIREMENTS**
- Bachelor of Architectural Studies (DBAE) from the University of South Australia, or a bachelor degree in a three-year pre-professional architecture program from a recognised Australian higher education institution, or equivalent qualification.
- Applicants with a bachelor degree in a three-year pre-professional architecture program from a non-Australian higher education institution must also submit a portfolio as part of their application.
- Entry into this program is competitive, based on academic merit and subject to quota. The University may admit other applicants who provide satisfactory evidence of academic achievement, which is recognised as an equivalent qualification to a completed Bachelor of Architectural Studies (DBAE).

**DEGREE STRUCTURE**

**FIRST YEAR**
- Advanced Architectural Design Studio (Environment)
- AAD Research Methods Elective
- Advanced Architectural Design Studio (Construction)
- AAD Research Practices Elective

**SECOND YEAR**
- Architectural Design Research Studio (Context)
- Professional Architectural Practice Elective
- Architectural Design Research Studio (Integrated)
- Contemporary Architectural Practice Elective

Program Code: DMAE | CRICOS CODE: 06020BJ
*see pages 93–95 for details

Develop a deep understanding of the innovative, changing world of communication design across both print and digital platforms. Be prepared to conceptualise solutions for complex design challenges, and apply advanced principles and practices that extend beyond the visual to help communicate to different audiences. Learn the design skills required to work across a variety of disciplines including advertising, branding, merchandising, visual communications, publications and web design. Gain valuable professional experience by working on real creative projects, including writing proposals and presenting to clients.

Tailor your studies through a range of electives, including writing, brand management, e-marketing, entrepreneurial commercialisation, sustainable design and marketing management. Graduates are also eligible for Graduate Membership with the Design Institute of Australia.

**CAREERS**
- Graphic designer / creative lead / art director / design consultant / freelance designer / brand consultant / typographer / visual communications manager / studio manager / design entrepreneur / web designer

**DEGREE STRUCTURE**

**FIRST YEAR**
- Research Studio 1
- AAD Research Methods
- Nature, Culture and Sustainability

**SECOND YEAR**
- Masters Project 1
- Masters Project Report 1

Develop a deep understanding of the innovative, changing world of design. Specialise in an area that interests you most, including Communication Design, Contemporary Art, Design and Construct, Industrial Design, Interior Architecture or Sustainable Design. Access modern, purpose-built workshops on campus featuring industry-standard technologies and digital equipment. Gain practical experience by working on real design projects and challenges. You will also benefit from industry masterclasses and will learn from national and international design practitioners.
Master of Design (Contemporary Art)

PROGRAM CODE: DMSP | CRICOS CODE: 095763D

*see pages 93–95 for details

Develop your creativity and art practice through advanced studio work, coupled with valuable studies in marketing, business and financial management to help commercialise your craft. Tailor your studies by choosing a specialised field, including Photo, Digital and Graphic Media, Painting and Drawing, or Spatial Studies (including public art, sculpture, textiles, glass, metal, ceramics or jewellery). You will also learn about grant sourcing and applications, industry associations and professional recognition, communications and marketing.

Build a rewarding career in early childhood teaching, focusing on the education of children from birth to eight years of age. Explore the emotional, social, cognitive and physical development of early learners. Study core courses in child development, curriculum studies and education studies, along with key Learning Areas including English, Mathematics and Science.
Prepare for a career in primary education, focusing on children from Reception to Year 6/7. Explore the developmental, emotional and social psychological needs of primary learners. Study core courses in curriculum and education studies, along with integrated practical learning in English, Mathematics, Science, Health and Physical Education, Technologies and Arts. Benefit from highly practical learning, completing supervised placements across metropolitan and regional primary school settings, totalling 60 days.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS
Primary school teacher / primary program coordinator / education consultant / youth support officer / community education services coordinator / education policy adviser / researcher

ENTRY REQUIREMENTS
- Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA); and
- One year of full-time equivalent study, as part of the bachelor degree or equivalent qualification, relevant to one or more Learning Areas of the primary school curriculum (Arts, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, Science, Technologies), which includes a minimum half a year of equivalent study relevant to one of the Learning Areas of the primary school curriculum.
- Entry into this program is competitive and based on academic merit.

DEGREE STRUCTURE

FIRST YEAR
English Education (Junior Primary)
Mathematics and Science Education (Years R–2)
Curriculum and Pedagogy 1 (HASS and Technologies)
Curriculum and Pedagogy 2 (Arts and Health and PE)
Reflexive Practice and Professional Experience 1
Critical Perspectives of Education
Foundations of Learning and Development: A Child Centred Approach

SECOND YEAR
Mathematics and Science Education (Years 3–7)
English Education (Primary)
Curriculum and Pedagogy 3 (Arts and Technologies)
Curriculum and Pedagogy 4 (HASS and Health and PE)
Mathematical Thinking and Numeracy
Curriculum Specialisation
Reflexive Practice and Professional Experience 2

Focus on the learning and planning needs of adolescent students from Year 7 to Year 12. Tailor your studies by specialising in two Learning Areas aligned with the Australian Curriculum, including Arts, Design and Technology, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, and Science. You will also study core courses covering curriculum studies, education studies and pedagogy (the theory and practice of teaching). Choose to study Australia’s only minor specialisation in Islamic pedagogy, providing the knowledge and inclusive practice required for teaching Muslim students. Benefit from highly practical learning, completing supervised placements totalling 60 days.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS
Secondary school teacher / education director / education consultant / youth support officer / education policy adviser / researcher

ENTRY REQUIREMENTS
- Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA); and
- A major and preferably a minor in the intended specialisation Learning Area, aligning with the Australian Curriculum. Majors consist of a minimum of six courses (24 units) or equivalent with a minimum of two courses at Australian second year undergraduate level or equivalent. Minors consist of a minimum four courses (18 units) or equivalent with a minimum of two courses at Australian second year undergraduate level or equivalent.
- Entry into this program is competitive and based on academic merit.

Graduate with a qualification to teach English to speakers of other languages. Explore the educational theory and TESOL methodologies needed to teach English as an additional language across a variety of settings, from preschool to adult through to tertiary education. Study core courses covering areas such as language learning, curriculum studies, teaching and language assessment, and TESOL approaches and strategies. Tailor your studies by choosing a specialised stream, either the Education Project pathway or Education Thesis pathway, which will prepare you for further learning, including doctoral studies. Benefit from highly practical and engaged learning through intensive workshops on campus.

CAREERS
English language educator / curriculum developer / educational leader / government adviser / training and development consultant / tutor

Admissions information

NATIONAL POLICE CERTIFICATE AND DEPARTMENT OF HUMAN SERVICES WORKING WITH CHILDREN CHECK
All students who, as part of their program, undertake activities where interaction with patients/the public is required, such as in field or clinical placements/visits and in University clinics and gyms, must demonstrate that they have a current National Police Certificate (NPC) through SAPOL (or their home state police service) and a current Department of Human Services (DHS) Working with Children Check, which is valid for the duration of the program. The National Police Check will list disclosable court outcomes that may prevent clinical placement involvement. The University has a process for reviewing these outcomes to assess suitability for placement.

STUDENT REGISTRATION
All students enrolled in a program leading to professional registration must be registered with the relevant national board. The registration process is undertaken by the Australian Health Practitioner Regulation Agency (AHPRA) with the University providing notification to AHPRA following a student’s enrolment. No fees apply.

IMMUNISATION REQUIREMENTS
In order to progress to clinical placement you must be screened and provide evidence of your immunisation status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent you from progressing to a placement. Additional requirements may apply. For more information, visit unisa.edu.au/health/cpu

IMMUNISATION REQUIREMENTS

CAREERS
Registered nurses can work in a variety of healthcare settings, including:

Hospitals / clinics / primary health and community support services / aged and rehabilitative care / schools / home care services / drug and alcohol treatment centres / community health organisations / mental health services / international aid agencies

DEGREE STRUCTURE

FIRST YEAR
Being a Health Professional

Human Body 1

Global and National Health

Human Body 2

First Peoples’ Health

Mental Health

Experiential Learning Activity: Preparation for Clinical Practice Practicum 1

SECOND YEAR
Health of Older Adults

Scientific Basis of Clinical Practice

Experiential Learning Activity: Older Adults Practicum 2

Health of Adults

Health of Infants, Children and Young People

Experiential Learning Activity: Acute Care Practicum 3

THIRD YEAR
Research Methodologies

Nursing Contexts of Practice

Experiential Learning Activity: Extension to Practice Practicum 4

Becoming a Registered Nurse

Experiential Learning Activity: Transition to Practice Practicum 5

Nursing Project

Prepare for a highly rewarding career in maternity care and women’s health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience to prepare you for clinical practice. As an international profession with different birthing practices all over the world, you will learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, authentic simulated hospital and health service on campus, which incorporates a midwifery and paediatric unit, and technologies such as birthing manikins. Complete comprehensive placement hours and be actively involved in 30 births during your studies, along with the pre and post-birth care of at least 100 women, and following 15 women through continuity of care experiences. Graduate with the academic requirements needed for registration as a Midwife with the Nursing and Midwifery Board of Australia (NMBA).
CAREERS

Midwives can work in a variety of healthcare settings, including:
- Hospitals / community services / rural and remote healthcare / home care services / health agencies / private consulting

DEGREE STRUCTURE

FIRST YEAR
- Foundations of Midwifery
- Human Body 1
- Normal Pregnancy and Childbirth
- Experiential Learning Activity: Midwifery Foundation Practicum 1
- Human Body 2
- First Peoples’ Health
- Healthy Mothers and Babies

SECOND YEAR
- Complex Care across the Childbirth Continuum
- Fetal and Maternal Pathophysiology
- Experiential Learning Activity: Midwifery Development Practicum 2
- Complex Care of the Neonate
- Pharmacology and Diagnostics for Midwives
- Experiential Learning Activity: Midwifery Practice Development Practicum 3

THIRD YEAR
- Research Methodologies
- Perinatal Mental Health and Wellbeing
- Experiential Learning Activity: Midwifery Transition Practicum 4
- Becoming a Midwife
- Experiential Learning Activity: Midwifery Transition Practicum 5
- Midwifery Project

REHABILITATION, HEALTH & SPORT

Bachelor of Occupational Therapy (Honours)

unisa.edu.au/occupational-therapy

Graduate with honours and become a registered occupational therapist in just four years. Learn to help people of all ages to maintain and improve day-to-day activities.

Develop the skills to assist people in managing personal, environmental and task limitations caused by injury or illness. Focus on areas such as human anatomy, human physiology, human neurosciences, growth and lifespan development, psychology, occupational science, and sociology. Gain valuable practical experience through 1,000 dedicated placement hours in a variety of settings under the supervision of a practising occupational therapist. Choose a professional or research stream in your final years of study. Graduate with a degree that has been approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia, and accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd.

CAREERS

Occupational therapists can work in a variety of settings, including:
- Hospitals / private practice / community health services / rehabilitation centres / aged care facilities / home care services / local council services / government departments / schools

DEGREE STRUCTURE

FIRST YEAR
- Foundations of Health
- Human Anatomy 100
- Physiology Essentials 100
- Introduction to Occupational Therapy Practice
- Lifespan Growth and Motor Development
- Introduction to Evidence Based Practice and Research in Health Sciences
- Occupational Therapy Practice in Hospital Settings
- Elective

SECOND YEAR
- Principles of Occupational Therapy Practice
- Applied Psychology
- Enabling Occupation through Environmental Adaptation
- The Individual in Society 200
- Human Neuroscience
- Occupational Therapy Group Work and Counselling
- Occupational Therapy Practice Education
- Occupational Therapy Practice in Occupational Rehabilitation

THIRD YEAR (PROFESSIONAL STREAM)
- Occupational Therapy Practice and Mental Health
- Primary Health Care Approaches in Occupational Therapy
- Advanced Occupational Therapy Practice and Neurological Conditions
- Occupational Science
- Participatory Community Practice 301
- Advanced Community Occupational Therapy Practice and Chronic Conditions Management
- Advanced Evidence Based Practice

FOURTH YEAR (PROFESSIONAL STREAM)
- Participatory Community Practice 400
- Professional Portfolio 400
- Occupational Therapy Field Practice 400
- Occupational Therapy Field Practice 401
- Participatory Community Practice 401

THIRD YEAR (RESEARCH STREAM)
- Occupational Therapy Practice and Mental Health
- Primary Health Care Approaches in Occupational Therapy
- Advanced Occupational Therapy Practice and Neurological Conditions
- Occupational Science
- Participatory Community Practice 301
- Advanced Community Occupational Therapy Practice and Chronic Conditions Management
- Health Science Honours Preparation

FOURTH YEAR (RESEARCH STREAM)
- Participatory Community Practice 400
- Health Science Honours Thesis
- Occupational Therapy Field Practice 400
- Occupational Therapy Field Practice 401

Bachelor of Physiotherapy (Honours)

unisa.edu.au/physiotherapy

Graduate with honours and become a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead healthy and functional lives, as a first contact professional and valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either a research stream focusing on an independent research project, or a professional stream where you will take part in a group project addressing a real-world problem. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

CAREERS

Registered physiotherapists can work in a variety of settings, including:
- Private practice / clinics / sporting clubs / exercise services / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health / paediatric services
**Degree Structure**

**First Year**
- Human Anatomy 100
- Human Physiology 100
- Foundations of Health
- Physiotherapy Studies 100

**Second Year**
- Human Anatomy 200
- Fundamentals of Pharmacology
- Physiotherapy Studies 200
- Exercise Physiology 1
- Neurosciences in Physiotherapy
- Biopsychosocial Practice
- Physiotherapy Studies 201
- Physiotherapy Practice with Older Adults

**Third Year (Professional Stream)**
- Primary and Ambulatory Care in Physiotherapy
- Pain Sciences
- Advanced Evidence Based Practice
- Acute Care Rehabilitation

**Fourth Year (Professional Stream)**
- Physiotherapy with Children
- Advanced Rehabilitation B
- Health Promotion in Physiotherapy B
- Elective

**Third Year (Research Stream)**
- Health Science Honours Preparation
- Primary and Ambulatory Care in Physiotherapy
- Pain Sciences
- Acute Care Rehabilitation

**Fourth Year (Research Stream)**
- Physiotherapy with Children
- Ethics and Communication
- Health Science Honours Thesis
- Advanced Physiotherapy Practice B
- Advanced Rehabilitation B
- Work Health and Safety Practice

**Bachelor of Podiatry**

unisa.edu.au/podiatry

- **City East Campus**
- **4 years full-time**
- **$A39,700 pa* indicative 2021**
- **Selection Rank …… 90**
- **IELTS Total ………… 6.5**
- **IELTS Reading …….. 6.5**
- **IELTS Writing ………. 6.5**
- **IELTS Speaking ……… 6.5**
- **February intake**
- **Internship/ placement**
- **Professionally recognised**

**Program Code:** IBOP | **CRICOS Code:** 008312G

*see pages 91–92 for details

Study South Australia’s only degree in podiatry. Prepare for a career as a registered podiatrist, responsible for diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for sports injuries, orthotics, children, and foot and heel pain. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics and learn relevant aspects of medicine and surgery. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as our Manufacturing Lab where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note: High-achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

**Careers**

Registered podiatrists can work in a variety of settings, including:
- Private practice / clinics / hospitals / community health centres / aged care / sports clinics / occupational health services

**Degree Structure**

**First Year**
- Human Anatomy 100
- Human Physiology 100
- Foundations of Health
- Podiatry Clinical Studies 100
- Human Anatomy 101 (Lower Limb)
- Human Physiology 101
- Podiatry Clinical Studies 101
- Introduction to Evidence Based Practice and Research in Health Sciences

**Second Year**
- Podiatry Clinical Studies 200
- Pharmacology A
- Communication in Podiatry
- Pharmacology B
- Pharmacology C
- Podiatry Clinical Studies 201
- Podiatry Practice 201

**Third Year**
- Pain Mechanisms and Management
- Applied Podiatry Practice 300
- Podiatry Clinical Studies 300
- Advanced Evidence Based Practice
- Podiatry Clinical Studies 301
- Applied Podiatry Practice 301

**Fourth Year**
- Clinical Biomechanics 400
- Podiatry Clinical Studies 400
- Podiatry Practice 400
- Clinical Biomechanics 401
- Podiatry Practice 401
- Elective

**Bachelor of Human Movement**

unisa.edu.au/human-movement

*see pages 91–92 for details

Develop your understanding of the impact that exercise and physical activity has on people – biologically, psychologically and socially. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science with the ability to choose a secondary study stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science. Build strong foundational knowledge in core areas such as human anatomy and physiology, the sociology of health and physical activity; growth and motor development; and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, and motor learning. Graduate with the skills to complete client screenings, conduct laboratory and field testing, design and implement exercise and training programs, and interpret scientific research. Learn in state-of-the-art facilities such as the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully-equipped Health and Fitness Centre located on campus. Complete an industry placement during your studies. Package this degree with a Master of Teaching (Secondary) to become a health and physical education teacher.

**Careers**

Depending on your course selection, your career options can include:
- Sport development officer / community and allied health worker / health and wellbeing advisor / sports coach / outdoor education instructor / recreation activities coordinator / teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

unisa.edu.au/study
Bachelor of Exercise and Sport Science

unisa.edu.au/human-movement

**DEGREE STRUCTURE**

**FIRST YEAR**
- Human Anatomy 100
- Foundations in Human Movement, Exercise and Sports Science
- Physiology Essentials 100
- Foundations of Physical Activity and Health
- Introduction to Group and Team Psychology
- Lifespan Growth and Motor Development

**SECOND YEAR**
- Exercise Physiology 1
- Human Nutrition
- Motor Control and Learning
- Stream/Optional Elective 2
- Biomechanics of Human Movement
- Stream/Optional Elective 3

Study South Australia’s only fully-accredited degree in exercise and sport science. Develop a deep understanding of the impact that exercise and physical activity has on the biological, physical and social aspects of human life. Learn how to design and deliver exercise programs to improve clients’ health and wellbeing, perform client screenings, conduct laboratory and field testing, and appraise and interpret scientific research. Be guided by some of Australia’s leading exercise scientists and experts in the field. Develop a solid understanding of human anatomy and physiology, the psychology and sociology of health and physical activity, exercise prescription and delivery, nutrition, and biomechanics. Access state-of-the-art facilities including the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully-equipped Health and Fitness Centre located on campus. Gain valuable practical experience by completing industry placements across a range of settings including schools and elite sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist.

*see pages 91–92 for details

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods; promote and manage diets and lifestyles; and conduct meaningful research for enhanced wellbeing. Explore the fundamentals of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, that aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Lab, Microbiology Lab and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia’s major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of work experience.

Prepare for a career working with populations and communities to make a positive difference in the lives of others. Cultivate a range of skills aimed at improving and promoting health and wellbeing outcomes. Develop your knowledge and contribute to the research and education around preventing disease and illness. Complete 200+ hours of industry placements and projects and create a portfolio of work to present to future employers. Explore diverse areas such as health promotion, health monitoring and surveillance, epidemiology, as well as global, national and Aboriginal health issues. You will also develop skills in planning, managing and evaluating healthcare policy, projects, programs and services. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

**Careers**

Health project officer / health policy analyst / health research officer / health promotion officer / wellness and lifestyle coordinator / community development officer / women’s health adviser / clinical trials coordinator / data analyst

**Degree Structure**

**First Year**
- Introduction to Public Health Practice and Research
- Health Systems and Services
- Aboriginal Australian Culture and Colonisation
- Physiology Essentials 100
- Health Promotion Concepts
- Introduction to Evidence Based Practice and Research in Health Sciences
- Human Anatomy 100
- First Peoples’ Health

**Second Year**
- Marketing for Health and Wellbeing
- Evaluation in Public Health
- Sociological Perspectives in Public Health
- Building Healthy Public Policy
- Designing and Managing Health Projects
- Science and Politics of Preventive Health
- Aboriginal Public Health Practice and Research
- Minor Course 1 OR Elective

**Third Year**
- Epidemiological Principles and Methods
- Public Health and Wellbeing Practice
- Minor Course 2 OR Elective
- Applied Public Health Practice and Research
- Health Ethics
- Minor Course 4 OR Elective

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing.

Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You will then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmacoekinetics, drug discovery, development, and commercialisation. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the A$247 million UniSA Cancer Research Institute. Complete an industry project or placement during your degree.

Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – academic criteria applies.

**Careers**

Pharmaceutical science professionals can work in a variety of areas, including medicine manufacturing, evaluation, sales, marketing and quality control, along with clinical trials and research and development.

**Degree Structure**

**First Year**
- Chemistry 100
- Biology A
- Health and Society
- Health Professional Essentials
- Chemistry 101
- Biology B
- Pharmaceutical Industry
- Quantitative Methods in Health

**Second Year**
- Dosage Form Design 1
- Physiology
- Fundamentals of Pharmacology
- Specialist Course 1
- Dosage Form Design 2
- Drug Discovery
- Pharmacology B OR Pharmacology C
- Specialist Course 2

**Third Year**
- Dosage Form Design 3
- Drug Development
- Pharmacokinetics and Biopharmaceutics
- Specialist Course 3

**Chemistry Specialist Courses**

- Structure Determination and Analysis
- Advanced Structure Determination and Analysis
- Synthetic Chemistry
- Advanced Synthetic Chemistry

**Biociences Specialist Courses**

- Biochemistry
- Immunology
- Microbiology
- Genetics

**Chemistry/Biociences Specialist Courses**

- Biochemistry
- Immunology
- Synthetic Chemistry
- Advanced Synthetic Chemistry
Bachelor of Pharmacy (Honours)

unisa.edu.au/pharmacy

Study South Australia’s only degree in pharmacy. Become a Registered Pharmacist, equipped to prepare, supply and monitor medicines across a variety of settings. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with over 50 years’ experience in delivering pharmacy education. Focus on key study areas such as biological, chemical and pharmaceutical sciences, ethical pharmacy practice, trialling and regulation of medicines; drug information and advice; preparing, studying and monitoring medicines and their use; and pharmaceutical research methods. Access state-of-the-art learning spaces, including the pharmacy practice suite where you will learn to dispense medicines and counsel patients, along with purpose-built laboratories in the A$247 million UniSA Cancer Research Institute. Complete field placements in community and hospital-based pharmacy settings. Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science – academic criteria applies.

CAREERS

Registered pharmacists can work in a variety of settings, including:

- Hospitals / pharmacies / community services / aged care facilities / critical care services / regulatory bodies / compounding services / infectious disease services / defence / research / academia

Graduate with honours in just four years and prepare for a career as a medical laboratory scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, conducting research into causes and cures of disease, and developing improved methods for disease detection. Build fundamental knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests including cross-matching for blood transfusions, identifying the organisms that cause infections and food poisoning, screening for cancer cells, and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through field placements across public and private pathology. As part of your honours, you can tailor your studies in either a diagnostic or research setting, learning how to manage specimens, perform tests and operate equipment. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS) and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

CAREERS

Medical laboratory scientists can work in a wide range of areas, including:

- Diagnostic pathology / histopathology / forensic science / immunology / virology / transfusion science / haematology / cytology / clinical biochemistry / medical microbiology / research / product manufacturing / public health management / veterinary medicine / academia

Bachelor of Laboratory Medicine (Honours)

unisa.edu.au/laboratory-medicine

Study South Australia’s only degree in laboratory science. Become a Medical Laboratory Scientist equipped to work with human samples and handle specimens for multiple medical specialties. Gain valuable practical experience in our on-campus laboratories and through field placements across public and private pathology. As part of your honours, you can tailor your studies in either a diagnostic or research setting, learning how to manage specimens, perform tests and operate equipment. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS) and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

CAREERS

Medical laboratory scientists can work in a wide range of areas, including:

Bachelor of Laboratory Medicine (Honours)
Explore the complex world of human health and disease. Develop the knowledge and skills needed to work in biotechnology, and health and medical research. Learn about the human body and biological systems through core courses, along with key research methodologies. Tailor your studies to your career interests through a wide range of electives. Choose from areas such as pharmacology, cancer biology, reproductive and developmental physiology, infection and immunity and advanced molecular methods. Access purpose-built learning spaces on campus, including fully equipped laboratories. Collaborate on research and projects at the A$247 million UniSA Cancer Research Institute – home to more than 200 cancer, pharmacy and medical science researchers. Take the option to complete a research project in your final year, focusing on an area that interests you most.

CAREERS
Medical science professionals can work in a variety of settings, including hospitals, private practice, defence and research and development. You may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging and computed tomography.

DEGREE STRUCTURE

**FIRST YEAR**
- Chemistry 100
- Biology A
- Health and Society
- Elective 1
- Chemistry 101
- Biology B
- Quantitative Methods in Health
- Elective 2

**SECOND YEAR**
- Biochemistry
- Physiology
- Microbiology
- Medical Science Elective 1
- Immunology
- Genes to Proteins
- Genetics
- Medical Science Elective 2

**THIRD YEAR**
- Infection and Immunity
- Medical Science Elective 3
- Medical Science Elective 4
- AIND
- Medical Science Elective 5 OR Advanced Methods in Molecular Biology

**REPRODUCTION AND DEVELOPMENT**
- Cancer Biology
- Medical Science Elective 6
- AIND
- Epidemiological Principles and Methods OR Medical Science Elective 5

**MEDICAL RADIATION SCIENCE**

**Bachelor of Medical Radiation Science**

**Degrees:**
- Bachelor of Medical Radiation Science (Medical Imaging)
- Bachelor of Medical Radiation Science (Nuclear Medicine)
- Bachelor of Medical Radiation Science (Radiation Therapy)

**CAREERS**
Medical imaging professionals can work in a variety of settings, including hospitals, private practice, defence and research and development. You may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging and computed tomography.

**DEGREE STRUCTURE**

**FIRST YEAR**
- Foundations of Health
- Human Anatomy 100
- Human Physiology 100
- Physics for Medical Radiation 1
- Human Physiology 101
- Physics for Medical Radiation 2
- Medical Radiation Clinical Human Anatomy
- Pathology for Medical Radiation

**SECOND YEAR**
- Applied Psychology
- Medical Imaging Clinical Practice 1
- Human Anatomy 201 (Gross and Sectional)
- Medical Imaging Studies 1
- Medical Imaging Studies 2
- Introduction to Evidence Based Practice and Research in Health Sciences
- Physics for Medical Radiation 3
- Medical Imaging Clinical Practice 2
- Medical Imaging Clinical Practice 3

**THIRD YEAR**
- Advanced Evidence Based Practice
- CT and PET Imaging
- Medical Imaging Studies 3
- Elective
- Medical Imaging Studies 4
- Medical Imaging Clinical Practice 2
- Specialised Medical Radiation

**FOURTH YEAR**
- Medical Imaging Clinical Practice 3
- Medical Imaging Clinical Practice 4
- Medical Imaging Professional Entry Practice 1
- Medical Imaging Professional Entry Practice 2

Note: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) program in third year.
Bachelor of Medical Radiation Science (Nuclear Medicine)

PROGRAM CODE: IBRS | CRICOS CODE: 088333G

*see pages 91–92 for details

Develop a career as a nuclear medicine technologist. Learn how to prepare and administer radioactive substances to evaluate the function of an organ or body system in order to diagnose and treat disease. Access industry-standard nuclear medicine software on campus to practise image manipulation and analyse patient data.

CAREERS

Nuclear medicine professionals can work across a variety of settings, including hospitals, private practice and research and development. You may also gain employment in specialist areas such as ultrasound, magnetic resonance imaging and computed tomography.

DEGREE STRUCTURE

NUCLEAR MEDICINE SPECIALISATION

FIRST YEAR

Foundations of Health
Human Anatomy 100
Human Physiology 100
Physics for Medical Radiation 1
Pathology for Medical Radiation
Human Physiology 101
Physics for Medical Radiation 2
Medical Radiation Clinical Human Anatomy

SECOND YEAR

Applied Psychology
Physics for Medical Radiation 3
Nuclear Medicine Studies 1
Human Anatomy 201 (Gross and Sectional)
Nuclear Medicine Clinical Practice 1
Nuclear Medicine Studies 2
Physics for Medical Radiation 4
Introduction to Evidence Based Practice and Research in Health Sciences

THIRD YEAR

Advanced Evidence Based Practice
CT and PET Imaging
Nuclear Medicine Studies 3
Elective

Nuclear Medicine Studies 4
Nuclear Medicine Clinical Practice 2
Specialised Medical Radiation

FOURTH YEAR

Nuclear Medicine Clinical Practice 3
Nuclear Medicine Clinical Practice 4
Nuclear Medicine Professional Entry Practice 1
Nuclear Medicine Professional Entry Practice 2

Bachelor of Medical Radiation Science (Radiation Therapy)

PROGRAM CODE: IBRS | CRICOS CODE: 088333E

*see pages 91–92 for details

Prepare for a career as a qualified radiation therapist. Learn to work alongside radiation oncologists and medical physicists to plan and deliver individual radiation treatments to patients. Develop the skills to use dedicated radiotherapy treatment planning software, to model doses and operate radiation equipment. Gain practical experience in our purpose-built, state-of-the-art Virtual Environment Radiotherapy Training (VERT) suite on campus.

CAREERS

Qualified radiation therapists can work across a variety of settings, including hospitals, private practice, research and development and medical technology companies. You may also gain employment in specialist areas such as brachytherapy and stereotactic radiotherapy.

DEGREE STRUCTURE

RADIATION THERAPY SPECIALISATION

FIRST YEAR

PROGRAM CODE: IMOG | CRICOS CODE: 024071J

*see pages 93–95 for details

Designed for students who have completed a health-related bachelor’s degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with over 1,000 placement hours. Develop strong foundational knowledge in occupational science, occupational therapy practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand). The program is also approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia for professional registration as an Occupational Therapist in Australia.

CAREERS

Occupational therapists can work in a variety of settings, including hospitals, private practice, community health services, rehabilitation centres, aged care facilities, community services, home care, local councils, government departments and schools.

ENTRY REQUIREMENTS

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5 or international equivalent score.

- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/occupational-therapy.

unisa.edu.au/study
Master of Advanced Clinical Physiotherapy (Musculoskeletal)

PROGRAM CODE: IMAP | CRICOS CODE: 088576K

*see pages 93–95 for details

Further your expertise in musculoskeletal physiotherapy. Gain advanced knowledge in clinical reasoning, communication, physical and psychosocial examination, as well as education and procedural management. Learn through a balance of theoretical and practical classes. Take core courses in allied health evidence translation, facilitating change in cognitive behaviours and lifestyle, pain science, assessment and management, and advanced musculoskeletal examination and management. Graduate with a qualification accredited by the Australian Physiotherapy Association and Musculoskeletal Physiotherapy Australia. You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as private practice, clinics, rehabilitation centres, hospitals, home and community services, disability services, aged care facilities and research.

DEGREE STRUCTURE

FIRST YEAR

Allied Health Research Evidence Translation
Musculoskeletal Physiotherapy Theory and Practice 1
Musculoskeletal Physiotherapy Theory and Practice 2
Pain Theory and Science
Advanced Physiotherapy Practice 1
Advanced Physiotherapy Practice 2

SECOND YEAR

Occupational Science (GE)
Occupational Therapy Field Practice 1
Occupational Therapy Field Practice 2
Occupational Therapy Field Practice 3
Occupational Therapy Field Practice 4

Master of Advanced Clinical Physiotherapy (Sports)

PROGRAM CODE: IMAP | CRICOS CODE: 088577J

*see pages 93–95 for details

Study an advanced qualification in sports physiotherapy. Enhance your knowledge, clinical skills and application of evidence-based practice in the treatment of sporting and other injuries sustained in field and outpatient settings. Develop quick decision-making skills to triage injuries during events and to perform pre-season screening, as well as understanding how to develop injury prevention strategies for teams and individuals. Take core courses in musculoskeletal physiotherapy, pain theory and science, and advanced physiotherapy sports theory and management. Graduate with a qualification accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association.

You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as elite sports, amateur sports, national and international sports, clinics, hospitals, private practice, disability services, rehabilitation centres and research.

DEGREE STRUCTURE

SPORTS SPECIALISATION

FIRST YEAR

Allied Health Research Evidence Translation
Musculoskeletal Physiotherapy Theory and Practice 1
Musculoskeletal Physiotherapy Theory and Practice 2
Pain Theory and Science
Advanced Physiotherapy Sports Theory
Exercise and Conditioning
Advanced Physiotherapy Practice 1
Advanced Physiotherapy Practice 2

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as private practice, clinics, rehabilitation centres, hospitals, home and community services, disability services, aged care facilities and research.

Master of Health Services Management

unisa.edu.au/health-science

PROGRAM CODE: IHMH | CRICOS CODE: 096783C

*see pages 93–95 for details

Graduate with a postgraduate qualification that will prepare you for a wide variety of leadership and management positions across the healthcare and ageing sectors. Study a unique blend of health and business related courses with a contemporary health management focus. Develop critical skills in management, administration, leadership, communication, project management and financial management. Build your knowledge in providing overall strategic direction and management to services and organisations; develop competencies in designing rigorous research to inform healthcare knowledge, practice, and policy; prepare to work in senior levels of management influencing high-level organisation, financial and administrative decisions, and control administrative operations such as reporting and budget planning. You may also partner with industry and complete a major project targeting a real-world health management issue. Benefit from a curriculum influenced by world-class business and management research.
**CAREERS**

Clinical manager / practice manager / aged care manager / health and welfare services manager / medical administrator / hospital administrator / primary health organisation manager

**ENTRY REQUIREMENTS**

Bachelor degree from a recognised higher education institution. Some applicants may be eligible for Advanced Standing and can complete the program in 1.5 years full-time study.

**DEGREE STRUCTURE**

**FIRST YEAR**

People, Leadership and Performance
Responsible Leadership in Health
Quantitative Design for Nursing, Midwifery and Health Research
Workplace Health and Safety Management
Workspace Learning and Development
Project Management for Business
Managing Change
Financial and Economic Management for Health and Aged Care
Performance Review and Health Economics
Health Ethics
Capstone in Health Services Management

**SECOND YEAR**

Service Management
Business Analytics and the Data-driven Organisation
Business Ethics
Strategy for Health and Aged Care Managers

**MEDICAL SONOGRAPHY**

**Master of Medical Sonography**

Degrees:
- Master of Medical Sonography (General)
- Master of Medical Sonography (Cardiac)
- Master of Medical Sonography (Vascular)

unisa.edu.au/medical-radiation

Nested with: Graduate Diploma in Medical Sonography

**ENTRY REQUIREMENTS**

Bachelor degree in medical radiation science, or allied health or health science, or equivalent qualification with a minimum Grade Point Average (GPA) of 5 or international equivalent; or

Relevant graduate diploma in medical/cardiac/vascular sonography or equivalent qualification with a minimum GPA of 5 or international equivalent; or

Relevant accreditation as a medical/cardiac/vascular sonographer with five years of accredited experience; or

Relevant accreditation as a medical/cardiac/vascular sonographer with two years’ experience where accreditation was awarded following completion of a recognised bachelor degree.

**IN ADDITION, FOR THE GENERAL SPECIALISATION:**

Successful completion of prerequisite courses within the last ten years from a recognised higher education institution.

**DEGREE STRUCTURE**

**LEVEL ONE**

Ultrasound Physics and Instrumentation
Professional Issues for Sonographers
Abdominal Sonography
Superficial Parts Sonography

**LEVEL TWO**

Obstetric and Gynaecologic Sonography
Vascular Sonography
Musculoskeletal Sonography
Clinical Sonography Portfolio

**LEVEL THREE (RESEARCH PATHWAY)**

Qualitative Design for Nursing, Midwifery and Health Research OR Quantitative Design for Nursing, Midwifery and Health Research

AND

Minor Thesis 1
Health Science Minor Thesis 2

**LEVEL THREE (PROJECT PATHWAY)**

Minor Thesis 1 OR Allied Health Research Evidence Translation

Plus 13.5 Units of electives chosen from the following:
- Fetal Echocardiography
- Advanced Musculoskeletal Sonography
- Advanced Vascular Sonography
- Health Ethics
- Research for Advancing Nursing, Midwifery and Health Care
- Health Science Advanced Skill Project
- Health Science Advanced or Extended Practice Report
- Breast Sonography
- Managing Employee Performance and Rewards
- Advanced Obstetric and Gynaecologic Sonography
- Qualitative Design for Nursing, Midwifery and Health Research
- Quantitative Design for Nursing, Midwifery and Health Research

WE ALSO OFFER

Master of Physiotherapy (Graduate Entry)
Masters by Research
Doctor of Philosophy (PhD)
Master of Clinical Pharmacy^*  

*This program is not available to onshore student visa holders.

**IMSO | PROGRAM CODE: IMSO | CRICOS CODE: n/a**

**IMPORTANT NOTE**

These programs are not available to international student visa holders and are only available part-time and through online delivery. Theory examinations can be completed at external exam centres, however all students are required to attend clinical assessments on campus. Applicants are also responsible for organising their own training position in an Ultrasound department in order to complete the required scanning experience.
Be at the forefront of innovation and technology. Join a vibrant hub of forward-thinking students, academics and researchers, working to unlock new possibilities in the communication and information technology, engineering, science, defence and aerospace industries. Collaborate with industry through real-world projects and fieldwork to provide solutions that have a positive impact on end-users. Study near Technology Park in Adelaide’s northern suburbs — a nexus of more than 100 high-tech companies with opportunities for knowledge sharing, product development, research and professional networking.

“\"I’m really impressed with the balance between theoretical and practical aspects of my study. It provides a fun and enjoyable way to learn concepts that are necessary for our professional development. The teaching staff are also extremely approachable.\"”

Steve Nyanchoga  
KENYA  
Bachelor of Engineering (Honours) (Electrical and Electronic)

“I chose to study in Adelaide because it is a peaceful and organised city with a lot of cultural diversity. The University of South Australia is also well-ranked and Mawson Lakes Campus has modern learning spaces, which are great for private study and group projects.”

Ana Cruz Baltuano  
PERU  
Master of Engineering (Water Resources Management)
DEGREE STRUCTURE

FIRST YEAR
Management and Organisation
Professional and Technical Communication
Introduction to Aviation
Aviation Practice

SECOND YEAR
Aviation Law
Principles of Economics
Aviation Marketing
Human Factors 2
Airline Finance
Aviation Economics
Aviation Operations Management
University Elective

THIRD YEAR
Risk and Safety Management Systems
Airport Management
Elective 1
Communications and Research Methods
Aviation Strategic Management
Organisational Leadership
Project Management: Principles and Strategies
Aviation Project

CONSTRUCTION

Bachelor of Construction Management (Honours)
unisa.edu.au/construction

PROGRAM CODE: IHCN | CRICOS CODE: 099379B
*see pages 91–92 for details

Study South Australia’s only honours degree combining construction management, quantity surveying and building surveying. Learn about the fundamentals of construction including building technology and building structures. Develop your knowledge in contract administration, development regulation and development economics. Tailor your studies by choosing to focus on two key specialisation areas in your final year, including Quantity Surveying, Building Surveying or Construction Management. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events.

Aviation

Bachelor of Aviation (Flight)
unisa.edu.au/aviation

PROGRAM CODE: LBAF | CRICOS CODE: 095900M
*see pages 91–92 for details

Take the first steps towards becoming a pilot and build a career that will allow you to travel the world. Study at a university that teaches theory and practice at the same time, with 15-20 hours of real flight training experience provided in the first year of your degree. You will also have the option to separately study for your Commercial Pilot Licence, which you can do concurrently with your university studies (subject to specific entry requirements). Develop fundamental knowledge in aerodynamics, meteorology, navigation, flight planning, and aircraft power plants and systems. Access state-of-the-art technologies on campus, including a CASA-certified Boeing 737 Next Generation flight simulator. You will also gain real-world experience through our connection with the Civil Aviation Safety Authority (CASA) by submitting flight plans and accessing the latest aerodrome alerts.

Following additional flight training, this degree can lead to the following careers:

- Flight instructor
- Ambulance pilot / defence force pilot / firefighting pilot / medical and air operations manager
- Corporate pilot
- Degree can lead to the following careers:
- Large Aircraft Flight Operations
- Aviation Project
- Airline Operations Management
- Aviation Law
- Principles of Economics
- Aviation Marketing
- Human Factors 2
- Airline Finance
- Aviation Economics
- Aviation Operations Management
- University Elective

SECOND YEAR
Communications and Research Methods
Aviation Physics 1N
Aviation Law
University Elective
Introduction to Aviation Management
Introduction to Aviation Safety
Elective

THIRD YEAR
Airline Transport Pilot Theory 1
Risk and Safety Management Systems
Elective

Bachelor of Aviation (Management)
unisa.edu.au/aviation

PROGRAM CODE: LBAN | CRICOS CODE: 088879F
*see pages 91–92 for details

Develop a global career in aviation management. Build your knowledge in complex airport and flight operations. Focus on key areas such as aviation law, airline finance, operations management, economics and marketing, safety and human factors, and professional and technical communication. Learn about air operations dispatch, airport management, computer-controlled flight management systems, crew resource management, flight operation technologies, flight planning and traffic control. Access our state-of-the-art flight simulators to build your understanding of pilot operations and different flying conditions. Benefit from close links to industry with coursework and materials aligned directly to industry needs and international best practice. Complete an aviation project in your final year, which focuses on a real-world challenge and showcases your knowledge along with critical analytical, research and presentation skills.

CAREERS

- Airport services manager / airport operations manager / air traffic controller / commercial manager / human resources manager / logistics manager / marketing and business development manager / maintenance and safety specialist

FIRST YEAR
Flight Training Theory 1
Professional and Technical Communication
Introduction to Aviation
Aviation Practice
Commercial Pilot Theory
Flight Experience
Graduate with a degree that is accredited by the Australian Institute of Building and be eligible to apply for corporate membership. You will also be able to apply for membership with the Royal Institute of Chartered Surveyors (UK). Students who have completed the final year specialisation in Quantity Surveying will also be eligible to apply for corporate membership with the Australian Institute of Quantity Surveyors.

CAREERS
Construction manager / capital works manager / operations manager / quantity surveyor / building surveyor / project manager / site supervisor / estimator / construction planner / contract administrator / bid manager

DEGREE STRUCTURE

UNDERGRADUATE DEGREES

Bachelor of Engineering (Honours)

Degrees:
- Bachelor of Engineering (Honours) (Civil)
- Bachelor of Engineering (Honours) (Civil and Construction Management)
- Bachelor of Engineering (Honours) (Civil and Structural)

unisa.edu.au/engineering

CAREERS
Civil engineer / geotechnical engineer / water resources engineer / environmental engineer / engineering consultant / project engineer / transport engineer / structural engineer / project coordinator

DEGREE STRUCTURE

Bachelor of Engineering (Honours) (Civil)

Prepare for a career in civil engineering. Choose to specialise in Civil, Civil and Construction Management, or Civil and Structural. Access industry-standard facilities on campus including the largest strong floor in Australia, along with high-tech testing and computer-modelling equipment. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events. You will also have the opportunity to complete projects that tackle engineering challenges for real clients, from the tender phase through to feasibility, concept development and detailed design. Go on an overseas study exchange and choose from over 25 countries and more than 60 universities worldwide. Graduate with a degree accredited by Engineers Australia and be eligible to apply for membership. You will also be eligible for membership with comparable international institutions.

Bachelor of Engineering (Honours) (Civil and Construction Management)

Study South Australia’s only degree combining civil engineering and construction management. Learn to plan, implement and deliver major construction projects while meeting critical deadlines and budgets. Develop a strong foundation of engineering knowledge in your first year, with specialist project management courses such as Construction Scheduling and Advanced Construction Management starting in your third year.

CAREERS
Civil project manager / civil construction manager / civil engineer / geotechnical engineer / project engineer / engineering consultant / project coordinator / capital works manager
Bachelor of Engineering (Honours) (Civil and Structural)  

**DEGREE STRUCTURE**

**FIRST YEAR**  
- Programming Concepts  
- Engineering Materials  
- Mathematical Methods for Engineers 1  
- Sustainable Engineering Practice  
- Engineering Mechanics  
- Electrical and Electronic Systems  
- Design and Innovation  

**SECOND YEAR**  
- Engineering Modelling  
- Mechanics of Materials  
- Introduction to Surveying and Spatial Sciences  
- Engineering and Environmental Geology  
- Introduction to Water Engineering  
- Road Design and Traffic Management  
- Civil Engineering Techniques

Engineering Materials
Mathematical Methods for Engineers 1
Sustainable Engineering Practice
Mathematical Methods for Engineers 2
Engineering Mechanics
Electrical and Electronic Systems
Engineering Design and Innovation

**Second Year**

Mathematical Methods for Engineers 3
Mechanical Engineering Practice
Mechanics of Materials

**Third Year**

Control Systems
Computer Aided Engineering Practice
Energy Conversion and Management

**Fourth Year**

Industrial Experience
Engineering Capstone Experience A
Engineering Honours Project A

**Bachelor of Engineering (Honours) (Electrical and Electronic)**

**Program Code:** LHIH | CRICOS CODE: 081816M

*see pages 91–92 for details*

Prepare for Industry 4.0 using cutting-edge software for 3D design, development, control and integration of electrical energy. Learn how to design, manufacture and implement solutions that use power, advanced mechanisms and digital tools. Study the key principles of motion, energy and force. Build a career designing components, machines, or systems that meet human and environmental needs such as engines, appliances, generators and production equipment. Develop the skills to take a product to market, focusing on the full production cycle from functional design and practicality to aesthetics, manufacturing and maintenance. Tailor your studies by choosing a major study area in either Mechanical Design, Energy Systems, or Engineering Management; or a flexible minor in business innovation.

**Careers**

Mechanical engineer / industrial engineer / mechanical design engineer / maintenance engineer / hydraulics engineer / energy systems engineer / product development manager / entrepreneur / project coordinator

**Degree Structure**

**Electrical and Electronic Specialisation**

**First Year**

Programming Concepts
Engineering Materials
Mathematical Methods for Engineers 1
Sustainable Engineering Practice
Mathematical Methods for Engineers 2
Electrical and Electronic Systems
Engineering Design and Innovation

**Second Year**

Mathematical Methods for Engineers 3
Circuits and Signals
Engineering Physics
Mechanical Engineering Practice
Analogue Devices and Circuits
Digital Logic Fundamentals
Data Communication Technologies
Professional Engineering Design Practice

Build a career in electrical engineering. Choose to specialise in Electrical, Electrical and Electronic Systems, or Electrical and Electronic Systems. Prepare for Industry 4.0 using cutting-edge software platforms and collaborative digital environments. Access our state-of-the-art facilities, including the Robotics and Machine Vision, and Sustainable Energy Systems spaces. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events. Go on an overseas study exchange and choose from over 25 countries and more than 60 universities worldwide. Graduate with a degree accredited by Engineers Australia and be eligible for graduate membership. You will also be eligible for membership with comparable international institutions.

**Bachelor of Engineering (Honours) (Electrical and Electronic)**

**Program Code:** LHIH | CRICOS CODE: 081816M

*see pages 91–92 for details*
Bachelor of Engineering (Honours) (Mechanical and Advanced Manufacturing)

PROGRAM CODE: LHMR | CRICOS CODE: 081814B
*see pages 91–92 for details

Integrate mechanical engineering knowledge with high-precision machinery, and advanced manufacturing and management techniques. Combine information and communication technologies with automation and innovative manufacturing practices to improve products and processes. Explore the latest in manufacturing such as intelligent systems, additive manufacturing, digital manufacturing, and industrial automation and automation.

CAREERS
Mechanical engineer / manufacturing engineer / industrial engineer / systems engineer / CAE engineer / quality engineer / product development manager / entrepreneur / project coordinator

DEGREE STRUCTURE
MECHANICAL AND ADVANCED MANUFACTURING SPECIALISATION

FIRST YEAR
Programming Concepts
Engineering Materials
Mathematical Methods for Engineers 1
Sustainable Engineering Practice
Mathematical Methods for Engineers 2
Engineering Mechanics
Electrical and Electronic Systems
Engineering Design and Innovation

SECOND YEAR
Mathematical Methods for Engineers 3
Mechanical Engineering Practice
Mechanics of Materials
Manufacturing Processes
Engineering Dynamics
Fluid and Energy Engineering
Mechanical Design Practice
Professional Engineering Design Practice

THIRD YEAR
Control Systems
Computer Aided Engineering Practice
Energy Conversion and Management
Intelligent Manufacturing Systems
Mechanics of Machines
Advanced Thermo-Fluid Engineering
Design in Plastics and Advanced Composites
Business Management for Engineers

FOURTH YEAR
Industrial Experience
Engineering Capstone Experience A
Engineering Honours Project A
Total Quality Management
Robotics and Automation
Engineering Capstone Experience B
Engineering Honours Project B
Integrated Industrial Actuation
Design for Manufacture and Assembly

Bachelor of Engineering (Honours) (Mechanical and Mechatronic)

PROGRAM CODE: LHMR | CRICOS CODE: 081815A
*see pages 91–92 for details

Learn to combine mechanical components with computing, integrated automation, and digital control to create new products and improve technical operating systems. Explore new ways to make systems smarter and improve technologies that meet human and environmental needs. Study specialisations such as the latest developments in robotics, machine tool control and machine vision systems.

CAREERS
Mechanical engineer / systems engineer / mechatronic device designer / mechatronic development engineer / automation engineer / robotics engineer / entrepreneur / project coordinator

DEGREE STRUCTURE
MECHANICAL AND MECHATRONIC SPECIALISATION

FIRST YEAR
Programming Concepts
Engineering Materials
Mathematical Methods for Engineers 1
Sustainable Engineering Practice
Mathematical Methods for Engineers 2
Engineering Mechanics
Electrical and Electronic Systems
Engineering Design and Innovation

SECOND YEAR
Mathematical Methods for Engineers 3
Mechanical Engineering Practice
Mechanics of Materials
Circuits and Signals
Engineering Dynamics
Fluid and Energy Engineering
Mechanical Design Practice
Professional Engineering Design Practice

THIRD YEAR
Control Systems
Computer Aided Engineering Practice
Energy Conversion and Management
Electromechanics
Mechanics of Machines
Digital Logic Fundamentals
Industrial Automation Systems
Business Management for Engineers

FOURTH YEAR
Industrial Experience
Engineering Capstone Experience A
Engineering Honours Project A
Advanced Control and Signal Processing
Machine Learning and Vision Systems
Engineering Capstone Experience B
Engineering Honours Project B
Integrated Industrial Actuation
Mobile Autonomous Robotic Systems

WE ALSO OFFER
Bachelor of Engineering (Honours) (Mechanical), Bachelor of Business

Bachelor of Information Technology

Degrees:
- Bachelor of Information Technology
- Bachelor of Information Technology (Games and Entertainment Design)
- Bachelor of Information Technology (Mobile Application Development)
- Bachelor of Information Technology (Networked and Cybersecurity)
- Bachelor of Information Technology (Software Development)

unisa.edu.au/IT

INFOGRAPHIC

Build a dynamic career as an IT professional. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. Study a general IT degree or choose the specialisation that interests you most. Learn with the latest industry-standard technologies and tools in the IT Development Studio and IT Innovation Studio located on campus. Gain valuable practical experience through industry placements and internships, and collaborate with a real client on a final year ICT project. Graduate with a degree accredited by the Australian Computer Society.

Bachelor of Information Technology

PROGRAM CODE: LBCP | CRICOS CODE: Varies
*see pages 91–92 for details

unisa.edu.au/study
### Bachelor of Information Technology (Games and Entertainment Design)

**PROGRAM CODE: LBCP | CRICOS CODE: 067898K**

*see pages 91–92 for details*

Learn to develop new and exciting applications for different industries and markets. Apply technical skills and creativity to game-type productions, software and interfaces. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. You will then complete highly specialised courses focusing on computer graphics programming, multimedia design and information visualisation. Explore interface design, interaction and experience; tools for software development, game asset creation, computer game design concepts, mobile game development; and artificial intelligence.

**CAREERS**

Game designer / Android and iOS developer / mobile games developer / video game designer / video game system designer / game programmer / web developer / multimedia specialist

### DEGREE STRUCTURE

**FIRST YEAR**

- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies
- System Requirements and User Experience
- System Requirements Studio

**SECOND YEAR**

- Interface Design, Interaction and Experience
- Web Development
- Data Structures
- Agile Development with .NET
- Systems Design
- Tools for Software Development
- Game Asset Creation
- Software Development with C++

**THIRD YEAR**

- Computer Game Design Concepts
- Small Business for Professionals
- Mobile Game Development
- Artificial Intelligence
- Elective
- Game Engines and Graphics
- ICT Project

### Bachelor of Information Technology (Mobile Application Development)

**PROGRAM CODE: LBCP | CRICOS CODE: 083331E**

*see pages 91–92 for details*

Build a dynamic career as a mobile app developer. Develop the technical knowledge and specialist software skills to design your own apps for various platforms. Influence how people interact with social networks, entertainment, e-commerce and information sourcing and sharing. Study highly specialised courses that will teach you how to develop apps in languages such as C++ and .NET, which will get you career-ready. Learn from industry experts and develop the techniques to successfully pitch your app ideas to investors or start your own company.

**CAREERS**

Mobile app developer / Android and iOS app developer / application developer / software applications programmer / web developer / entrepreneur

### DEGREE STRUCTURE

**MOBILE APP SPECIALISATION**

**FIRST YEAR**

- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies
- System Requirements and User Experience
- System Requirements Studio

**SECOND YEAR**

- Interface Design, Interaction and Experience
- Web Development
- Data Structures
- Agile Development with .NET
- Systems Design
- Tools for Software Development
- Software Development with C++

**SECOND YEAR**

- Interface Design, Interaction and Experience
- Web Development
- Data Structures
- Agile Development with .NET
- Systems Design
- Tools for Software Development
- Software Development with C++

**THIRD YEAR**

- Small Business for Professionals
- Concurrent Programming
- Mobile Game Development
- Information Security Management
- Mobile Application Enterprise Development
- Mobile Enterprise Workshop
- ICT Project

**PROGRAM CODE: LBCP | CRICOS CODE: 067899J**

*see pages 91–92 for details*

Focus on the security of information in contemporary IT systems. Be at the forefront of security intelligence, finding new ways to combat escalating cyber-attacks and defending against spamming, malware, viruses and other threats. Develop the skills to support a network roll-out and infrastructure maintenance, as well as knowledge in networking topologies, routers and firewalls. Complete specialist courses including Digital Forensics, Cloud, Virtualisation and Storage, Information Security Management, and Network Security. The core networking courses will also prepare you to sit industry certification exams and will also help you build essential skills in CCNA, CISCO and CCNP.

**CAREERS**

Cybersecurity analyst / network administrator / network engineer / cybersecurity consultant / cybersecurity governance manager / policy adviser / IT service delivery manager
Enter the world of software development and programming. Become an expert in the design, implementation and testing of small and large software systems. Learn to program in variety of languages, including HTML, C++, .NET, and in cloud-based applications. Be exposed to real-world practice and cutting-edge developments in this space and discover the latest trends in user interactions and experiences.

**CAREERS**
Software developer / web developer / iOS developer / app developer / programmer / frontend developer / systems analyst

**DEGREE STRUCTURE**

**SOFTWARE DEVELOPMENT SPECIALISATION**

**FIRST YEAR**
- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies
- System Requirements and User Experience
- System Requirements Studio

**SECOND YEAR**
- Interface Design, Interaction and Experience
- Web Development
- Data Structures
- Database for the Enterprise
- Systems Design
- Tools for Software Development
- Software Development with C++
- Computer Science Foundations

**THIRD YEAR**
- Elective
- Agile Development with .NET
- Concurrent Programming
- Artificial Intelligence
- Cloud Programming
- Mobile Application Enterprise Development
- ICT Project

**Bachelor of Software Engineering (Honours)**

**unisa.edu.au/IT**

**Mawson Lakes Campus**

- 4 years full-time
- A$35,300 pa* indicative 2021
- Selection Rank ….. 75
- IELTS Total ……… 6.0
- IELTS Reading …… 6.0
- IELTS Writing …… 6.0
- February and July intakes

**PROGRAM CODE: LBCP | CRICOS CODE: 067897M**

*see pages 91–92 for details

Go beyond traditional programming and develop specialist skills in software engineering. Study core courses to build your base knowledge in IT, network, database and programming fundamentals, and systems analysis. You will then explore advanced concepts and research methods in computer science including systems development, database and knowledge management, health informatics, networking and security. Learn to develop large, complex systems and focus on key areas such as tools for software development, software development with C++, agile development with .NET, concurrent programming, artificial intelligence, and cloud programming. You will also develop the cognitive skills needed for critical thinking, and the ability to understand and analyse the technical and design elements of software engineering. Complete a major specialist project focusing on a real-world IT issue, along with three software engineering minors in your final honours year. Learn with the latest industry-standard technologies and tools in the IT Development Studio and IT Innovation Studio located on campus. Graduate with a degree accredited by the Australian Computer Society.

**CAREERS**
Software engineer / test manager / software developer / Android and iOS developer / programmer / information systems manager / computer scientist

**SECOND YEAR**
- Agile Development with .NET
- Concurrent Programming
- Artificial Intelligence
- Elective
- Cloud Programming
- Computer Science Foundations
- Mobile Application Enterprise Development
- Systems Architecture

**THIRD YEAR**
- Software Engineering Minor 1
- Research Methods
- ICT Specialist Major Project 1 (Honours)
- Software Engineering Minor 2
- Software Engineering Minor 3
- ICT Specialist Major Project 2 (Honours)

**Bachelor of Science**

**unisa.edu.au/science**

**Mawson Lakes Campus**

- 3 years full-time
- A$35,300 pa* indicative 2021
- Selection Rank ….. 70
- IELTS Total ……… 6.0
- IELTS Reading …… 6.0
- IELTS Writing …… 6.0
- February and July intakes

**PROGRAM CODE: LBSC | CRICOS CODE: 024220A**

*see pages 91–92 for details

Unravel the mysteries of the natural and physical world. Build your career as a scientist, making predictions and informed decisions through the systematic study of the nature and behaviour of the physical universe. Study the fundamentals of science through observation, experiment and measurement. Tailor your degree by choosing two majors that align with your interests and career goals, including Applied Physics, Biology, Chemistry, Ecosystem Sciences, or Mathematics. Gain practical experience through laboratory and field work. Access state-of-the-art facilities and engage with researchers at the multi-million dollar Future Industries Institute on campus. Continue your studies with the Master of Teaching (Secondary) to become a science teacher.

**Note:** Students interested in taking a major in another area of science can discuss their options with the University after enrolment.
CAREERS
This degree can lead to careers in a variety of areas, including:
Research laboratories / medical and pharmaceutical industries / manufacturing / environmental management / food development / mining and energy / information technology / defence science / meteorology / teaching (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

DEGREE STRUCTURE

FIRST YEAR
Professional and Technical Communication
Science Major A – course 1
Science Major B – course 1
Elective 1
Statistics for Laboratory Sciences
Science Major A – course 2
Science Major B – course 2
Elective 2

SECOND YEAR
Science Major A – course 3
Science Major A – course 4
Science Major B – course 3
Elective 3
Science Major B – course 4
Science Major B – course 5
Science Major A – course 5
Elective 4

THIRD YEAR
Science Major A – course 6
Science Major A – course 7
Science Major B – course 6
Elective 5
Science Major A – course 8
Science Major B – course 8
Elective 6

APPLIED PHYSICS MAJOR
Applied Physics 1
Applied Physics 2
Physics of Materials and Technology
Computational Science 1
Applied Physics 4
Modern Physics OR Computational Science 2
Optical Communications OR Lasers and Optics
Applied Science Project

BIOLOGY MAJOR
Biology A
Biology B
Life on Earth A
Life on Earth B
Human Ecology and Global Change
Global Change and Human Health
Research Elective Project

CHEMISTRY MAJOR
Chemistry 100
Chemistry 101
Synthetic Chemistry
Structure Determination and Analysis
Advanced Synthetic Chemistry
Advanced Structure Determination and Analysis
Molecules-to-Materials: Foundations for Nanotechnology
Research Elective Project

ECOSYSTEM SCIENCES MAJOR
Environment: A Human Perspective
Biodiversity for the Environment
Sustainable Ecosystems
Ecology
Environmental Interpretation and Community Engagement
Environmental Conflict and Public Consultation
Restoration Ecology
Park and Ecotourism Management

MATHEMATICS MAJOR
Calculus 1
Calculus 2
Linear Algebra
Fundamentals of Real Analysis
Differential Equations 1
Mathematical Sciences Project
Topics in Mathematics 1
Multivariable Calculus

Bachelor of Environmental Science
unisa.edu.au/enviro

Build a career in environmental sustainability, exploring how humans interact with the environment and how we can best manage it. Study core courses in biology, soil science, ecology, conservation, geology and social sciences. Complete in-depth examinations in biological and earth sciences. Develop essential skills working with Geospatial Information Systems (GIS) to capture, analyze and manage spatial and geographic data. Choose a major study area to tailor your degree, including Ecology and Conservation, or Earth Science and Environmental Chemistry. Learn in a state-of-the-art immersive virtual environment on campus using Project LIVE visualisation technology, which transforms traditional classroom activities into interactive learning. Access cutting-edge digital imagery of local environments and the tools to process data and evaluate its meaning. Through this technology you will become familiar with the latest digital imaging, mapping and spatial analysis techniques. Gain additional practical experience through hands-on field work and real-world projects. Continue your studies through the Master of Teaching (Secondary) to teach science up to Year 10 and Environmental Science to Year 12.

CAREERS
Environmental adviser / land management officer / sustainability officer / environmental consultant / ecologist / environmental scientist / environmental project officer / environmental strategy manager / environmental researcher / teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

DEGREE STRUCTURE

FIRST YEAR
Biology
Soil Science
Ecology
Sustainable Ecosystems
Earth Systems
Introduction to Surveying and Spatial Sciences
Environmental Analytical Methods
Spatial Data Acquisition and Analysis
Environmental Chemistry
Sustainable Ecosystems

SECOND YEAR
Environmental Remote Sensing
Environmental Interpretation and Community Engagement
Engineering and Environmental Geology

ECOLOGY AND CONSERVATION MAJOR
SECOND YEAR (SECOND SEMESTER)
Web Cartography
Environmental Policy and Regulations
Sustainable Development: A Global Perspective
Conservation Biology

THIRD YEAR
Environmental Conflict and Public Consultation
Ecosystem Management
Restoration Ecology
Park and Ecotourism Management

EARTH SCIENCE AND ENVIRONMENTAL CHEMISTRY MAJOR
SECOND YEAR (SECOND SEMESTER)
Web Cartography
Environmental Policy and Regulations
Soils in the Australian Landscape
Environmental Microbiology

THIRD YEAR
Environmental Conflict and Public Consultation
Ecosystem Management
Earth and Landscape Evolution
Environmental Pollution and Monitoring

Program Code: LBVT | CRICOS Code: 070414J

Prepare for a career in the growing field of data science where skilled professionals are in high demand. Discover ways to analyse and interpret vast amounts of data to provide intelligent business insights. Learn to solve complex problems through quantifying and understanding data. Study a balanced mix of courses in mathematics, information technology and data science. In first year, you will focus on building your mathematical and programming skills with courses in calculus, statistical methods, fundamentals of programming, and databases. You will then move into applied data science studies through cross-disciplinary areas such as web development, data structures, mathematical communication and mathematical modelling. In final year, you will develop skills in programming and networking, project management and analytics. Gain hands-on experience through a major ICT project working on a real-world challenge and strengthen your abilities in research, analysis and interpretation of data. Continue your studies with the Master of Teaching (Secondary) to become a mathematics teacher.

Apply mathematical methods and models to find solutions to practical problems. Explore the relationship and application of mathematics to other disciplines such as physics, engineering, information technology and biology. Develop your problem-solving and analytical skills by studying key courses in simulation theory, algebra, differential equations and stochastic calculus. Broaden your knowledge and skills through additional courses in IT and programming focusing on statistical methods, fundamentals of programming, and understanding databases. Participate in the Maths Clinic program in your final year, working closely with an industry partner on a real-world project. Gain international experience through a study exchange. Continue your studies with the Master of Teaching (Secondary) to become a mathematics teacher.

You also have the option of transferring into the Bachelor of Mathematics (Data Science) and receiving study credit for successfully completed courses.

*see pages 93–95 for details

Discover the latest trends and developments in information technology coupled with contemporary business management practices. Designed for professionals with an IT or non-IT background, you will learn about strategic
stakeholder engagement, business intelligence and the management of complex information systems in a business setting. Study a range of theoretical courses covering universal IT practices, including areas like Information Systems, Organisational Transformation and Business Modelling, Information Governance, and Project Management. Tailor your studies through elective courses covering topics such as data and web mining, security operations, network infrastructure, commercial law, global business, marketing, accounting and people management. Complete a major project where you will work on a real-world issue or challenge within a structured team, applying modern IT and management techniques. Graduate with a qualification accredited by the Australian Computer Society.

CAREERS
Business and systems analyst / ICT manager / software programmer / applications programmer / ICT network and support manager / solutions architect / ICT project manager / ICT portfolio manager / ICT test manager

ENTRY REQUIREMENTS
• Bachelor degree in any discipline from a recognised higher education institution, or
• Graduate certificate in information technology or a graduate certificate in information systems from a recognised higher education institution, or
• Graduate diploma in information technology or a graduate diploma in information systems from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
IT Concepts
Business Practices for IT Professionals
Project Management for IT Professionals
Professional Communication
Business Intelligence and Analytics
Enterprise Systems using SAP
Business Systems Analysis
Elective 1

SECOND YEAR
Security Principles
Business Process Modelling
IT Stakeholder Engagement
Elective 2
Enterprise Architecture
Information Governance
Capstone Professional Project

---

Master of Cybersecurity

unisa.edu.au/IT

Join a rapidly growing industry tasked with protecting critical IT infrastructure and information. Study technical topics such as network infrastructure, security operations, web and cloud security, and cybersecurity planning and compliance. Develop the leadership and negotiation skills needed for a cybersecurity expert, and to manage cybersecurity projects and personnel. Explore cybersecurity defence strategies for complex environments, including penetration testing and presentation methods for communicating technical topics to broader audiences. Learn how to apply technical skills to organisational contexts with a focus on risk management and incident response. Gain valuable practical experience by completing a final-year cybersecurity exercise where you will devise and implement a defence strategy for a complex enterprise environment. Collaborate with our Innovation and Collaboration Centre, and access industry expertise in technology, design, business growth, management, marketing and commercialisation.

CAREERS
Security analyst / cryptanalyst / security software developer / cybersecurity specialist / system security engineer / cyber solutions architect / cybersecurity adviser / cybersecurity manager / test lead

ENTRY REQUIREMENTS
• Entry to this program is competitive and will be assessed by the Program Director. Applicants will have typically completed a bachelor degree in information technology with a UniSA equivalent Grade Point Average (GPA) of at least 5.0.
• Applicants who have completed a bachelor degree or higher in a discipline may also be considered for entry based upon their IT expertise gained through formal tertiary studies and/or relevant work experience. These applicants are required to submit a detailed curriculum vitae.
• Applicants may be required to attend an interview, either in-person or online.

DEGREE STRUCTURE

FIRST YEAR
IT Concepts
Network Infrastructure
Security Principles
Security Governance
Security Consultancy
Network Security
Operating Systems and Application Security
Web and Cloud Security

SECOND YEAR
Digital Forensics Essentials
Industrial Internet Security
Enterprise Security
Cybersecurity Risk and Compliance
Security Architecture
Capstone Professional Project

---

Master of Data Science

unisa.edu.au/IT

Enter the revolutionary field of big data where there is a growing demand for qualified data scientists. Learn how to find patterns, make meaning and draw value from large data sets, which can be applied across a wide range of industries and business environments. Build strong foundational skills in data and statistics such as data analytics, big data basics, statistical programming, and relational databases and warehouses. Learn to analyse and visualise rich data sources, spot data trends and generate data management strategies. Benefit from coursework designed in consultation with industry, including the Institute of Analytics Professionals of Australia and the leader in business analytics and software – SAS. Complete a professional project in your final year, gaining practical experience in modern data techniques and practices.

CAREERS
Data scientist / big data visualiser / business intelligence analyst / information security analyst / social media analyst / customer insights analyst / data analyst / data engineer / research analyst

ENTRY REQUIREMENTS
• Bachelor degree in information technology, mathematics from a recognised higher education institution, or
• Graduate diploma or graduate certificate in data science from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
Big Data Basics
Statistical Programming for Data Science
Two of the following four courses:
• Statistics for Data Science
• Probabilities and Data
• Relational Databases and Warehouses
• Business Intelligence and Analytics
Predictive Analytics
Unsupervised Methods in Analytics
Research Methods
Data Visualisation

SECOND YEAR
Social Media Data Analytics
Customer Analytics in Large Organisations
Data Science Professional Development
Advanced Analytic Techniques 1
Advanced Analytic Techniques 2
Capstone Professional Project
Master of Engineering (Civil and Infrastructure)

ENTRY REQUIREMENTS
- Bachelor degree in engineering, science or technology from a recognised higher education institution.
- Graduate certificate or graduate diploma in engineering from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
- Professional Engineering Practice E
- 3 x Electives
- Engineering Research Practice
- 3 x Electives

SECOND YEAR
- Engineering Economic Analysis
- Enterprise Resource Planning
- Minor Thesis 1 (Eng)
- Supply Chain Management G
- Operations Management Systems
- Minor Thesis 2 (Eng)

Master of Engineering (Water Resources Management)

ENTRY REQUIREMENTS
- Bachelor degree or equivalent qualification in civil engineering, or a related discipline, from a recognised higher education institution.
- Depending on the specialisation chosen, a related discipline may be other four-year engineering or higher education institution.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.

DEGREE STRUCTURE

CIVIL AND INFRASTRUCTURE SPECIALISATION

FIRST YEAR
- Soil Mechanics
- Steel and Timber Design
- Research Data Analysis
- Elective 1

SECOND YEAR
- Engineering Masters Industrial Experience
- Engineering and Environmental Masters Design Project
- Masters Research Theory and Practice
- Elective 3
- NBE Masters Research Project
- Elective 4
- Elective 5

Master of Engineering (Water Resources Management)

ENTRY REQUIREMENTS
- Bachelor degree in engineering, science or technology from a recognised higher education institution.
- Depending on the specialisation chosen, a related discipline may be other four-year engineering or higher education institution.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.

DEGREE STRUCTURE

CIVIL AND INFRASTRUCTURE SPECIALISATION

FIRST YEAR
- Soil Mechanics
- Steel and Timber Design
- Research Data Analysis
- Elective 1

SECOND YEAR
- Engineering Masters Industrial Experience
- Engineering and Environmental Masters Design Project
- Masters Research Theory and Practice
- Elective 3
- NBE Masters Research Project
- Elective 4
- Elective 5

Develop advanced knowledge in engineering theory and practice, and tailor your studies by choosing the specialisation that interests you most in either Civil and Infrastructure, or Water Resources Management. Study core courses in steel and timber design, reinforced concrete design and advanced soil mechanics. Access industry-standard facilities on campus including high-tech testing and computer-modelling equipment. Complete a master design project and major research project focusing on real-world projects and challenges. You can also choose to study project management and leadership in your degree through elective courses.
Master of Engineering

Degrees:

• Master of Engineering (Electrical Power)
• Master of Engineering (Telecommunications)

unisa.edu.au/engineering

Real-world projects

IELTS Total ............. 6.5
IELTS Reading .......... 6.0
IELTS Writing .......... 6.0

PROGRAM CODE: LMEI | CRICOS CODE: VARIES

*see pages 93–95 for details

Develop advanced knowledge in engineering theory and practice, and tailor your studies by choosing a specialisation that interests you most in either Electrical Power or Telecommunications. Complete a major research project and a minor engineering thesis during your studies, focusing on real-world engineering challenges. Benefit from links to our internationally-recognised Institute for Telecommunications Research and the multi-million dollar Future Industries Institute located on campus.

ENTRY REQUIREMENTS
Bachelor degree in electrical engineering, or a related discipline, from a recognised higher education institution.

Master of Engineering (Electrical Power)

PROGRAM CODE: LMEI | CRICOS CODE: 079908C

*see pages 93–95 for details

Further your knowledge in electrical engineering with a particular focus on electrical power. Studying modern power systems, renewable and distributed energy generation, and advanced machine modelling. Tailor your studies through a range of elective courses focusing on areas such as advanced control, digital signal processing, industrial autonomous systems and linear electronic circuits. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge (such as renewable energy storage or the optimisation of electrical power systems), or an industry-related project.

CAREERS
Electrical engineer / project engineer / operations manager / project development manager / renewable energy projects manager / asset management manager / sustainable energy engineer / researcher

Master of Engineering (Telecommunications)

PROGRAM CODE: LMEI | CRICOS CODE: 079909B

*see pages 93–95 for details

Further your knowledge in electrical engineering, coupled with information and communication technologies. Focus on wireless and mobile communication systems, theory and coding, and complex telecommunication networks. Tailor your studies through a range of elective courses covering topics such as modern communication systems, optical communications, advanced control and network infrastructure. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge, or industry-related project.

CAREERS
Telecommunications engineer / network engineer / communications engineer / network planning manager / telecommunications development manager / researcher

DEGREE STRUCTURE

TELECOMMUNICATIONS SPECIALISATION

FIRST YEAR

CORE COURSES
Digital Communications
Digital Signal Processing
Engineering Research Practice

SPECIALISATION COURSES
Select a total of 22.5 units from the following:
• Modern Communication Systems
• Optical Communications
• Network Infrastructure
• Learning in the Workplace Project

SECOND YEAR

CORE COURSES
Telecommunications Networks
Mobile Communications and Wireless Access
Information Theory and Coding
Engineering Minor Thesis 1
Engineering Minor Thesis 2

Select one of:
• Engineering Economic Analysis
• Total Quality Management
• Lean Six Sigma
• Project Planning and Control G
• Enterprise Resource Planning
• Operations Management Systems

WE ALSO OFFER
Graduate Diploma in Engineering (Engineering Management)
Science (LGES)

Master of Environmental Science

unisa.edu.au/enviro

Nested with: Graduate Diploma in Environmental Science (LGES)

ENTRY REQUIREMENTS

- Bachelor degree from a recognised higher education institution, or
- Graduate certificate or graduate diploma in project management from a recognised higher education institution

CAREERS

- Natural resource manager / environmental manager / environmental management consultant / environmental planner / sustainability adviser / environmental policy adviser / environmental scientist / project manager / researcher

DEGREE STRUCTURE

FIRST YEAR

<table>
<thead>
<tr>
<th>Arid Land Environments</th>
<th>Valuing the Environment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elective 1</td>
<td>Elective 2</td>
</tr>
</tbody>
</table>

SECOND YEAR

| Masters Research Theory and Practice |
| Engineering and Environmental Masters Design Project |
| Elective 4                          |

NBE Masters Research Project

Elective 5

Elective 6

PROJECT MANAGEMENT

Master of Project Management

unisa.edu.au/projectmanagement

Nested with: Graduate Diploma in Project Management (IGP)

ENTRY REQUIREMENTS

- Bachelor degree from a recognised higher education institution, or
- Graduate certificate or graduate diploma in project management from a recognised higher education institution

CAREERS

Qualified project managers can work across a wide range of industries, including:

- Information technology / construction / engineering / health / defence / finance / mining and resources / biopharmaceuticals / the arts / communications and media / education / government / not-for-profit

DEGREE STRUCTURE

FIRST YEAR

| Principles of Project Management |
| Project Risk Management |
| Procurement and Contract Management |
| Project Governance and Ethics |

SECOND YEAR

| NBE Masters Research Project Portfolio and Program Management |
| Strategy in Project Organisations |
| Managing Complexity in Projects |
| Professional Practice Project |
| Business Continuity Management Systems |

WE ALSO OFFER

- Graduate Certificate in Environmental Science
- Graduate Diploma in Environmental Science
- Graduate Diploma in Project Management (Contract Management)
- Master of Applied Project Management
- Master of Applied Project Management (Contract Management)
- Masters by Research
- Doctor of Philosophy (PhD)

Graduate with a qualification endorsed by the Australian Institute of Project Management and apply key learnings across a wide range of industries, businesses and government departments. Study the fundamentals of project management and gain an advanced understanding of risk management, leadership, strategy and international best practice. Develop the skills to apply practical project management methodologies, work in interdisciplinary project teams and manage projects from inception to delivery. Learn how to establish a project, prepare project plans to meet objectives and requirements, select appropriate management tools for monitoring and controls, and communicate effectively to various stakeholders. Complete a major integrated research project, which can focus on a real issue within your workplace. Benefit from a program that explores the latest international best practice guidelines from PMI (PMBOK) and PRINCE2. This qualification is also endorsed by the Australian Institute of Program Management, a member of the International Project Management Association (IPMA).
**English language requirements**

The table on the next page sets out the minimum English language requirements for entry into our degrees (but should be used as a guide only). Many degrees require higher English language proficiency scores, so you will need to check the specific score for your preferred program.

Applicants from countries where English is an official language, or who have recent study experience in an English setting, may be eligible to use this to meet the English language proficiency requirement. Certified documentation is required. We will consider all applications on a case-by-case basis.

**Certified English Language Tests**

<table>
<thead>
<tr>

<tbody>
<tr>
<td>IELTS</td>
<td>6.0</td>
</tr>
<tr>
<td>TOEFL</td>
<td>80</td>
</tr>
<tr>
<td>Pearson</td>
<td>55</td>
</tr>
</tbody>
</table>

**TOEFL and PTE**

At least one year of study in an English speaking countries.

**IELTS**

At least one year of study in an English speaking countries.

**Person Report of English Language Test**

At least one year of study in an English speaking countries.

**CELUSA**

At least one year of study in an English speaking countries.

**To apply, visit unisa.edu.au/international/apply**

**AUSTRALIAN TERTIARY ADMISSION RANK (ATAR)**

If you are an international student studying the Australian Year 12 curriculum in Australia or offshore, entry to our undergraduate degrees is determined by a Selection Rank score, which is provided for every program. The Selection Rank is your Australian Tertiary Admissions Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points). Applications for entry are completed through the South Australian Tertiary Admissions Centre (SATAC).

For more information, and to apply, visit satac.edu.au

**STUDY CREDIT**

If you have completed previous studies at university, in a diploma program or an equivalent post-secondary qualification, you may be eligible to receive study credit, exemptions or advanced standing towards your degree. You may also be considered for credit if you have work experience in an area relevant to your studies.

To check your eligibility, visit creditassessor.unisa.edu.au

**Postgraduate admissions**

You will need to have completed one of the following for entry:

- An undergraduate degree, to the required standard, from a recognised higher education institution in Australia or the international equivalent; and/or
- The equivalent professional work experience.

The University offers both coursework and research degrees.

**STREAMLINED VISA APPLICATION**

Apply to study with one of our education partners and receive a packaged offer that allows you to apply for one student visa for the entire duration of your study under the Simplified Student Visa Framework (SSVF). For more information, see pages 86-87.

</tbody>
</table>

**Note 1:** Students require an additional year of study following their high school studies. This can include the successful completion of a recognised pre-tertiary program; Foundation Studies; or one year of study at a recognised tertiary or higher education institution.

**Note 2:** Students must have a minimum of six points for entry (some programs require a higher score) and have completed 3x A levels. The score is calculated using the best 3 subjects and can include local languages and 1 Advanced Subsidiary (AS) grade. AS grades cannot be used for any pre-requisite subject/5. The scoring system is A*=6, A=5, B=4, C=3, D=2, E=1.

**Note 3:** Selection Rank is your Australian Tertiary Admission Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points).

For other countries, please contact our International Office (e) unisa.edu.au/enquire • (p) +61 8 8302 0114
Undergraduate pathway options

There are many alternative pathways to help you gain entry into the University of South Australia. This includes on-campus programs delivered at City West and City East, as well as other off-campus options.

To learn more, visit unisa.edu.au/international-pathways

ON CAMPUS

THE SOUTH AUSTRALIAN INSTITUTE OF BUSINESS AND TECHNOLOGY (SAIBT)

SAIBT offer an early transition program and a range of diploma programs that provide entry into over 90 undergraduate degrees at the University of South Australia (please note some programs require a competitive Grade Point Average). The SAIBT programs are an ideal alternative if you are ineligible for direct entry into your preferred degree. Successful completion of your SAIBT program will provide direct entry into either first or second year (with credit granted) of your chosen program.

Diplomas include:
- Diploma of Arts
- Diploma of Business
- Diploma of Engineering
- Diploma of Information Technology
- Diploma of Health Science

CRICOS provider code: SAIBT 02193C

CENTRE FOR ENGLISH LANGUAGE (CELUSA)

The Centre for English Language at the University of South Australia (CELUSA) delivers high quality Academic English programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited for applicants who do not meet the University’s English language entry requirements and offers Academic English (AE) language preparation programs. Students who are eligible for and successfully complete an AE program (at an appropriate level) will be able to commence their studies at the University of South Australia or a pathway program through SAIBT. CELUSA is also an IELTS and OET test centre.

STREAMLINED VISA APPLICATION

Apply to study with one of our education partners and receive a packaged offer that allows you to apply for one student visa for the entire duration of your study under the Simplified Student Visa Framework (SSVF).

CONTACT US

Contact our international office to find out if you are eligible for entry into a pathway program. Submit an online form at unisa.edu.au/enquire or phone +61 8 8302 0114.
Eynesbury College offers a range of programs that can lead into the first or second year of an undergraduate degree at the University of South Australia.

**Eynesbury College programs include:**
- English Language programs (for undergraduate and postgraduate entry)
- Senior High School (Years 10, 11 and 12)
- Foundation Studies Program
- Diploma Studies: Business or Computing & IT
- Diploma: Business, Engineering or Computing and IT

Located in the city centre, Eynesbury College is close to our City East and City West campuses, and offers excellent teaching quality and support for students. The college is also a Pearson PTE Academic test centre.

---

TAFE SA packaged programs offer you a practical way of achieving your end goal of an undergraduate degree from the University of South Australia.

Successfully completing a TAFE SA Diploma, Advanced Diploma or Associate Degree provides entry into a range of undergraduate degrees at the University of South Australia, and credit for previous study can lead you directly into year 1, 2 or 3, reducing the overall study time through credit transfers.

TAFE SA English for Academic Purposes 20 (064266M) and English for Academic Purposes Advanced (086001K) can provide direct entry into some degrees.

HEP code: PRV14002
How to apply: undergraduate and postgraduate

1. Find your degree
   Explore your study options in this guide or go online for more information.
   unisa.edu.au/study

2. Check admission requirements
   Make sure you are aware of entry requirements for the University as well as individual program requirements:
   ✓ English language requirements
   ✓ Guidelines on genuine temporary entry
   ✓ Guidelines on living costs and evidence of funds
   unisa.edu.au/international/apply

3. Apply
   Once you have found the program you wish to study, you can apply online either directly or via an Education Agent. Apply at least two months before you intend to start studying. Some students may require more time to ensure they receive their visa.

   Apply directly — You can apply directly via our secure online service. Save your application and return later to continue the process and track your progress.

   Education Agents — Depending on your country of citizenship, you may be required to apply through one of our registered Education Agents. A full list is available online at unisa.edu.au/find-an-agent

   unisa.edu.au/international/apply

Supporting documentation

Attach the following documents to your online application to avoid delays.

- Certified* copies of academic transcripts and graduation certificates, including information on your institution’s grading system as required;
- English language test results (e.g. IELTS or TOEFL) where applicable;
- Detailed syllabi/course outlines of previous studies if you are applying for credit or advanced standing;
- Additional academic and employer references if required; and
- A certified* copy of the personal details page and signature page of your passport.

*Certified copy is a copy of the original document that has been certified by an official such as a University of South Australia Education Agent or staff member, justice of the peace, notary public, police officer or examining authority.
Application outcomes will be advised within one to two weeks from the date received (including all supporting documentation required).

If you are eligible for your chosen program, an offer letter package will be sent to you, or your Education Agent, via email. If you are not eligible, we may suggest alternative programs or pathway studies. Your application will be assessed in accordance with the University’s Selection and Entry to Programs Policy, which includes the guidelines on genuine temporary entry and guidelines on living costs and evidence of funds.

unisa.edu.au/international/apply

Accept your offer

To accept a place in your offered program, you will need to:
• Check the offer letter package
• If all details are correct, log in and complete the following steps:
  1. View your offer.
  2. Click the Actions button and select Respond to Offer.
  3. Ensure the offer details are correct and select Accept Offer.
  4. Upload any additional documents required to meet your condition/s (if applicable).
  5. Select the box to confirm you have read, understood and agree to the terms and conditions of the offer.
  6. Enter your full name and any comments you have before clicking Accept Offer.
  7. Pay via bank transfer or credit card using the Western Union GlobalPay for Students portal.
  8. Once you have finalised your payment, we will action your acceptance.

If you have an Education Agent, they can help you accept your offer via student-unisa.studylink.com

Student visas
We will send you a Confirmation of Enrolment (CoE) document, which you can use to apply for a student visa for entry into Australia. Apply for your student visa as soon as you receive your CoE.

unisa.edu.au/student-visa

Student payments
The Western Union GlobalPay for Students service helps you make payments in your preferred currency without extra fees and delays.
• Pay your tuition fees quickly.
• Make payments online, by bank transfer or via credit card.
• Track payments and receive status updates by text and email.

unisa.edu.au/westernunion

Prepare for arrival

Enrol online
Enrol online from any location and have the same choice as local students when organising your timetable.

Travel bookings
Flights to Australia can be heavily booked during January, February and July, so check with your travel agent early for flight options. Do not confirm bookings until you receive your CoE document. Once you have confirmed your travel arrangements, you can request our airport pick-up service and on-arrival temporary accommodation if needed.

Arrive on time
Arrive before Orientation Week to receive vital information and have the best possible start to university. If you are unable to arrive by the commencement date, you may have to defer your offer. Please note, some programs have compulsory orientation.

Orientation
We will welcome you to Adelaide with orientation sessions and activities to introduce you to life in Adelaide and on campus. You will also have the opportunity to meet other new students.

### IMPORTANT INFORMATION

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice.

Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au](http://unisa.edu.au/admissions)

Please note the University calculates a Grade Point Average (GPA) on a scale from 1–7. For more information, go to: [unisa.edu.au/gpa](http://unisa.edu.au/gpa)

### Fees

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at [unisa.edu.au/admissions](http://unisa.edu.au/admissions), the approved university schedule will prevail.

All fees are listed in Australian dollars (A$).

### POSTGRADUATE KEY

**Campus codes**
- **CE** City East
- **CW** City West
- **ML** Mawson Lakes
- **M** Magill

*This program is not available to onshore student visa holders.

**2021 Academic calendar**

**SP** = Study Period

#### Semester 1
- **SPI** 11 Jan 2021 – 26 Mar 2021
- **SP2** 1 Mar 2021 – 3 Jul 2021
- **SP5** 5 Apr 2021 – 18 Sept 2021

#### Semester 2
- **SP4** 28 Jun 2021 – 10 Sep 2021
- **SP5** 26 Jul 2021 – 27 Nov 2021
- **SP6** 20 Sep 2021 – 3 Dec 2021

Business School only

### IMPORTANT INFORMATION

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice.

Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au/study](http://unisa.edu.au/study)

Please note the University calculates a Grade Point Average (GPA) for your offer letter for details. For further details and to view the most up to date program information, visit: [unisa.edu.au/gpa](http://unisa.edu.au/gpa)

For International students, IELTS English language requirements for postgraduate study can be found at [unisa.edu.au/IELTS](http://unisa.edu.au/IELTS)

Please note that some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au/IELTS](http://unisa.edu.au/IELTS)

### Fees

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at [unisa.edu.au/study](http://unisa.edu.au/), the approved university schedule will prevail.

All fees are listed in Australian dollars (A$).
Make a positive and lasting contribution to your field of interest by studying a research degree. Explore the wide-range of research areas available along with key application information and eligibility criteria.

How to apply

Find a research area

**Business and Law**
- Accounting
- Applied Economics
- Arts Management
- Finance
- Human Resource Management and Organisation Behaviour
- International Business
- Law
- Management and Corporate Social Responsibility
- Marketing
- Property
- Sports, Tourism and Leisure Management
- Sustainability Governance

For more information about research possibilities, contact PhDEnquiriesBusiness@unisa.edu.au

**Education, Arts and Social Sciences**
- Architecture
- Cognitive Neuroscience
- Communication
- Creative Industries
- Design (Industrial)
- Design (Visual Communication)
- Education
- Film Studies
- Indigenous Studies
- Interior Architecture
- Journalism
- Languages and Linguistics
- Learning Analytics
- Psychology (PhD only)
- Social Work and Social Policy
- Sociology
- Visual Arts

For more information about research possibilities, contact EASResearchStudents@unisa.edu.au

**Health and Medical Sciences**
- Allied Health
- Cancer Biology
- Exercise, Sports and Nutrition Science
- Health Sciences
- Human Movement
- Laboratory Technology (Masters only)
- Medical Radiation
- Medical Science
- Nursing and Midwifery
- Occupational Therapy
- Pharmaceutical Science (Masters only)
- Pharmacology (PhD only)
- Pharmacy
- Physiotherapy
- Podiatry
- Public Health

For more information about research possibilities, contact HSC-HealthResearch@unisa.edu.au

**Engineering, Science and Technology**
- Applied Physics and Mathematics
- ATN Industry Doctoral Training Centre
- Bioinformatics
- Biomaterials Engineering and Nanomedicine
- Civil Engineering
- Computer and Information Science
- Construction Management
- Electrical and Information Engineering
- Energy and Advanced Manufacturing
- Environmental Science
- Geographic Information Science
- Information Technology
- Mathematics
- Mechanical and Manufacturing Engineering
- Minerals and Resources
- Project Management
- Statistics
- Systems Engineering

For more information about research possibilities, contact research.itee@unisa.edu.au
Check your eligibility

Your eligibility will depend upon the type of research degree you wish to study, as well as your prior qualifications and professional experience. Students from non-English speaking countries will also need to demonstrate their capacity to undertake study in English before being accepted into a program. The eligibility criteria listed below are the minimum requirements. Eligibility is also subject to the assessment of the proposed research, availability of a supervisor, and any research-specific requirements.

### MINIMUM ELIGIBILITY REQUIREMENTS

#### Masters by Research

An honours degree, bachelor degree with honours, or a relevant bachelor degree (or equivalent) of at least three years with a minimum credit average, or an appropriate master’s degree. Qualifications will be assessed on a case-by-case basis for equivalence.

OR

No tertiary qualifications, but you can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant publications.

#### Doctor of Philosophy (PhD)

Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master’s degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.

OR

Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant publications. The outcome of this assessment will determine the program options available to you.

#### Professional Doctorate

Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master’s degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.

OR

Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant quality publications. The outcome of this assessment will determine the program options available to you. Professional Doctorate candidates must also demonstrate at least five years practice in a relevant field, and typically within the last ten years.

### MINIMUM ENGLISH LANGUAGE REQUIREMENTS

#### English language test scores

Results from IELTS, University of Cambridge C1 Advanced and TOEFL are generally valid for two years and must be valid at the time of commencement. For scholarships, test results must be valid at the scholarship closing date.

**International English Language Testing Systems (IELTS) Academic**

- 7.0 for English language-rich programs with a minimum of 6.0 in each sub-score*
- 6.5 for non-English language-rich programs with a minimum of 6.0 in each sub-score*

*To check which programs are English language-rich, go to unisa.edu.au/resdegree-english-requirements

OR

Corresponding results from an equivalent test such as Test of English as a Foreign Language (TOEFL); the University of Cambridge C1 Advanced; Examinations for the Certificate of Proficiency in English (CPE) or the Certificate in Advanced English (CAE); the Pearson Test; or the appropriate academic English language level delivered by the Centre for English Language at the University of South Australia (CELUSA).

Applicants from countries where English is an official language or who have had recent and relevant experience in an English setting may meet our minimum English entry requirements. Evidence must be provided.
