INNOVATING TOWARDS A SUCCESSFUL CAREER IN EDUCATION

Xinyu (Cindi) Du
Bachelor of Early Childhood Education (Honours)
Current student

Cindi has shown a dedication and resilience in her studies, despite significant challenges. After travelling home to China for her summer break in 2020, she was forced to switch to online study due to Australia’s border closures. Regardless of the disruption, Cindi found innovative ways to complete her practical assignments remotely, while also helping inspire and motivate fellow of shore students.

Cindi achieved high distinctions and distinctions in almost all courses and her accomplishment saw her win a special commendation at the StudyAdelaide International Student Awards. It gave her a renewed focus for her career in education.

"I believe that 'the best way to predict the future is to create it,' so I will begin with today and keep moving towards my dream."

INSPIRED BY THE TRANSFORMATIVE NATURE OF DATA

Saurabh Gautam
Master of Data Science
Manager of Strategic Accounts and Partnerships at Complexica

As an IT project manager back in India, Saurabh was working in digital transformation and analytics. It was here where he first became interested in data science and its ability to provide valuable insights.

During his studies, he applied for an internship with an artificial intelligence-based software company in Adelaide. The company was supportive throughout the internships and, after an interview, offered him a part time role which became full time once he graduated.

"Data science is rated as one of the hottest jobs of the 21st century. I have enjoyed working at Complexica - every day is new and the opportunities I come across are phenomenal. Having acquired the advanced analytical and visualisation skills from my degree, I was able to keep myself ahead of the curve."

PAVING THE WAY FOR WOMEN IN CIVIL ENGINEERING

Shahnaaz Ansari
Master of Engineering (Water Resources Management)
Nepalese Engineering Consultancy

Growing up in Nepal during a drinking water crisis had a profound impact on Shahnaaz’s future career. With stark memories of her mother up all night collecting drinking water from a dripping tap, she knew she wanted to help solve the problem.

Engineering felt like a natural pathway as her father, also an engineer, would take her to work where she would be entranced by the workshop mechanics. In just two short decades, she became one of few female engineers for the Nepalese Government.

"Now I am educated and independent, I feel empowered and confident. Neighbours who used to pass discouraging comments on my career choice now share my success story to their daughters."

The University of South Australia is located in Adelaide - Australia’s education city and the state capital of South Australia. As a welcoming and multicultural city, Adelaide is the ideal home away from home.
Adelaide is a cultural destination with many different nationalities, foods, festivals and sporting events. It is home to some of the country’s best beaches, wine regions and parklands, all in very close proximity to the city centre.

Adelaide is a city shaped by stories. The first of these stories were created by the Kaurna people of the Adelaide Plains, which remain alive today and are interwoven with the stories of all the people who choose to live, work and study in Adelaide. The city is a celebration of diversity and inclusion with a strong sense of community.

MULTICULTURAL
Almost one in four people in South Australia were born overseas with ancestry tracing back to more than 120 countries. Australia also has a democratic system of government and is accepting of different religious beliefs.

ACCESSIBLE
Adelaide offers all the advantages of big city life but is still easy enough to get around. It takes just 15 minutes to travel from the airport to the city and 20 minutes from the city to the beach or hills.

AFFORDABLE
Adelaide has one of the highest standards of living in the world yet is one of the least expensive. This means more money to spend on food, accommodation, supplies, travel and entertainment.

BONUS SAVINGS
As an international student in Adelaide, you will be eligible for the same public transport discounts as local students, saving you hundreds of dollars every year. Another benefit is that you can also work while studying.*
