2021
INTERNATIONAL HANDBOOK
UNDERGRADUATE | POSTGRADUATE
The journey starts here

Welcome to the University of South Australia. We are a globally connected and engaged university helping solve the problems of industry and the professions. Our teaching is industry-informed, our research is inventive and adventurous. We create knowledge that is central to global economic and social prosperity. Our graduates are the new professionals, global citizens at ease with the world and ready to create and respond to change.

We are Australia’s University of Enterprise.

SOUTH AUSTRALIA’S LARGEST UNIVERSITY

33,813 STUDENTS

6,195 INTERNATIONAL STUDENTS

211,331 GLOBAL ALUMNI
The University of South Australia is located in Adelaide, Australia's education city. Adelaide is a cultural destination, filled with many different nationalities, foods, festivals and sporting events. It is home to some of the country’s best beaches, wine regions and parklands, all in very close proximity to the city centre. Adelaide has been globally recognised for its education, environment, stability, healthcare, culture and infrastructure. It is the ideal study location and with free Wi-Fi, free tram and free bus services throughout the city centre, Adelaide is truly a student city.
Glenelg Beach / Located just 12 kilometres away from the city, Glenelg offers classic seaside charm with a white sandy beach known for great swimming, diving, snorkelling and dolphin spotting.

RANKED AS THE WORLD’s 10th MOST LIVEABLE CITY
2019 Economist Intelligence Unit’s Global Liveability Index.

RANKED IN THE WORLD’s TOP 30 BEST STUDENT CITIES
Adelaide Ranked #26, QS Best Student Cities 2019.

RATED ONE OF THE WORLD’s FRIENDLIEST CITIES
2018 Condé Nast Traveller Awards.
Adelaide. Designed for Life.

Adelaide is a city shaped by stories. The first of these stories were created by the Kaurna people of the Adelaide Plains, which remain alive today and are interwoven with the stories of all the people who choose to live, work, study or spend time in the city. Adelaide is a celebration of diversity and inclusion with a strong sense of community. Its unique layout makes it the world’s only true ‘city in a park’. Make Adelaide part of your story.

Accessible

Adelaide offers all the advantages of big city life but is still small enough to get around easily. It takes just 15 minutes to get from the airport to the city and 20 minutes from the city to the beach or hills.

Multicultural

Almost one in four people in South Australia were born overseas with ancestry tracing back to more than 120 countries. Australia also has a democratic system of government and is accepting of different religious beliefs.

Affordable

Adelaide has one of the highest standards of living in the world, yet is one of the least expensive places to live. This means more money to spend on food, accommodation, supplies, travel and entertainment.

Adelaide is up to 14% more affordable than other major Australian cities.

EIU Cost of Living Survey 2019

Adelaide is a global study destination and has been ranked in the top 30 best student cities worldwide by QS. Adelaide is known for education excellence, balanced lifestyle and ability to turn career ambitions into a reality through global industry connections, support of start-ups and leadership in growth areas such as health, engineering, food and wine, creative and high technology, advanced manufacturing, space, minerals and energy.

STUDY EXPERIENCE

**World-class degrees**
The University of South Australia offers over 200 world-class degrees across a wide range of study areas. In fact, we are the only university in South Australia to offer undergraduate programs in aviation, journalism, illustration and animation, pharmacy, property, physiotherapy, surveying and more. We are also the only university in the state to offer postgraduate programs in cybersecurity, communications, visual effects, and arts and cultural management.

**Modern facilities**
Study in state-of-the-art facilities fitted with the latest technologies. From simulated hospital settings and a financial trading room, to robotics laboratories and TV and sound studios, there are modern, purpose-built learning spaces across all campuses.

**Global opportunities**
Take part in international field trips, work placements, internships, study tours, short-term programs, volunteer opportunities, conferences or a student exchange during your studies. Get a global perspective and a competitive advantage before you graduate.

**Practical learning**
Learn in a highly practical environment, with opportunities to complete internships, placements and projects, learning from experts in real-world settings. Build your networks and graduate career-ready with the skills required of tomorrow’s professionals.

**Top ranking teachers**
Be supported by highly qualified academics and teaching professionals. Study a curriculum based on the latest industry knowledge and trends. In fact, we are ranked number two in Australia for teaching quality in the 2019 Times Higher Education Young University Rankings.

**Career services**
Get the support you need to achieve your career goals. Our dedicated career team offers a range of services, resources and tools to help you plan your future career, prepare for the workplace, connect to industry, find short-term employment and more.

89 EXCHANGE PARTNERS IN MORE THAN 24 COUNTRIES
Iress Trading Room / A state-of-the-art learning facility featuring live market data and financial analysis tools at City West Campus.

UniSA Cancer Research Institute / A world-leading $247 million health research and teaching facility located in the Adelaide CBD.

RESEARCH EXCELLENCE
Our research is innovative, inspired by challenges, and connected to both industry and community needs. We offer a range of research degrees including Masters by Research, Doctor of Philosophy (PhD) and a Professional Doctorate. Our research degrees are focused on producing new knowledge, providing solutions to global challenges and preparing candidates for competitive careers.

unisa.edu.au/resdegrees

#1 Ranked #1 in Australia for industry research income 2019 THE World University Rankings

Horizon Hospital and Health Service (HHHS) / A fully interactive learning space simulating a real hospital setting at City East Campus.
"Our graduates are highly sought after and they leave not only with the right skills, but also with a hunger for knowing more about how their profession can better shape the built environment. Personally, this is a very rewarding job. It’s the everyday lightbulb moments and when students make large shifts in their understanding about design that really make my day."

Andrew Wallace / Program Director: Bachelor of Interior Architecture

"As part of my studies I completed a number of placements including one at the new Royal Adelaide Hospital in both the emergency and plastic surgery departments. Placements helped me to develop my knowledge and apply it to clinical practice. The University also offered pre-clinical workshops and practice simulations to help us become familiar with the real working environment."

Winnie Zhao / Bachelor of Nursing

Wawira Njiru wanted to make a positive impact in her community back in Kenya. She decided to study a degree in nutrition and food sciences with a vision of doing something big.

During her studies, Wawira hosted a community fundraiser and then used A$1,680 to build a make-shift kitchen in Ruiru, near Nairobi.

From here, Food 4 Education was born. Wawira started providing 25 healthy meals a day to primary school children in Kenya.

Eight years on, Wawira’s organisation is providing 10,000 meals a day, sourcing produce from local farmers.

“When I came to the University of South Australia, I had a clear goal in mind: to do something to benefit my community in the long term, she says.

“The kids inspire me the most. I am so privileged to have the opportunity to contribute to their future.”

Wawira now dreams about expanding into other areas of the continent and providing millions of meals over the next decade.

Wawira Njiru / Bachelor of Nutrition and Food Sciences
Founder, Food 4 Education
Industry connections

Our learning is influenced by industry, and the latest trends and demands. We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities.

Volunteer your time

We can help you connect with an organisation and become a volunteer during your time at university. It’s a great way to give back to the community, gain valuable life experience and add extra value to your resume.

unisa.edu.au/volunteering

Join our alumni network

When you graduate you will become part of our global alumni network. We have over 200,000 alumni around the world, supported by formal networks in Hong Kong SAR and the People’s Republic of China, Singapore, Malaysia, Vietnam, Indonesia and the United Kingdom.

unisa.edu.au/alumni
**City West**

TV studio / Sound studio / Radio studio / Journalism newroom / Editing suites / Theatre / Language lab / Social Work Studio / Cognitive and Systems Neuroscience lab / Sleep and Chronobiology lab / Psychology Clinic / Samsung SMARTSchool / Allied Health Clinic / Gym and indoor sports centre / Outdoor sports field / Swimming pool / Food vendors / Parklands and lawn areas

Mawson Lakes

Mawson Lakes Campus is located near more than 100 high-technology companies that make up Technology Park – an innovation hub in Adelaide’s growing northern suburbs.

What you’ll study

Aviation
Education (Early Childhood, Primary and Secondary)
Engineering
Information Technology
Science and Mathematics

On campus

Industry-standard engineering facilities / Specialist IT facilities / Mac and CISCO networking labs / Materials and Minerals Science Learning and Research Hub / Future Industries Institute / Planetarium / Flight and airport simulators / Aviation hangar (located near campus) / Ecological precinct / Drama centre / Food vendors and outdoor dining areas / Sports centre and gym
GETTING TO CAMPUS

Airport pick up

Did you know we can meet you at the airport?

We offer a free on-arrival reception service. Complete the online booking form before you leave home and we’ll collect you and your bags as soon as you step off the plane.

unisa.edu.au/airport-pickup
JUMP ON A FREE CITY TRAM
If you need to travel between City West and City East campuses, then jump on the Botanic Gardens or Adelaide Entertainment Centre tram line on North Terrace. The free tram service runs every 10 minutes and will also take you to the Adelaide Central Market, Adelaide Railway Station, Royal Adelaide Hospital, Botanic Gardens and the Adelaide Zoo.

RIDE YOUR BIKE
Adelaide is known for its bicycle culture, so we encourage students to ride their bikes to and from campus. Each campus has shower facilities and secure storage areas.

PUBLIC TRANSPORT
You will find bus stops near each campus and train stations close to the city and Mawson Lakes campuses. Check your bus, train or tram options on the Adelaide Metro website. You will also be eligible for student discounts after enrolment, including purchases of 28-day unlimited passes.

CAMPUS CONNECTOR
We run a free bus service between the Magill and Mawson Lakes campuses to make travelling easier for students who need to make the journey or live in the surrounding suburbs.

FREE Wi-Fi AVAILABLE ON THE UniSA CAMPUS CONNECTOR
UniSA Cancer Research Institute located on North Terrace.
STUDENT LIFE

ORIENTATION
Start your university adventure by attending Orientation Week. Meet your lecturers, connect with new friends and gain valuable insights from current students. Enjoy a free lunch and entertainment, explore your home campus and get ready for your first day at university.

unisa.edu.au/orientation

STUDENT CLUBS
Discover the 100+ academic, cultural and social clubs available at the University of South Australia. From dance and yoga to climate change, gaming and clubs for different nationalities – there is something for everyone! It’s a great way to meet new friends, find common interests with fellow students and build a more vibrant university experience.

unisa.edu.au/clubs

EVENTS AND ACTIVITIES
All sorts of great events and activities are offered to students throughout the year across all of our campuses. From careers and volunteering events to health, sport and wellbeing activities – there is always something to discover. Students can also explore the public exhibitions and events at The Samstag Museum, Hawke Centre and MOD.

unisa.edu.au/unisasport

USASA is your student association. USASA coordinates student advocacy, clubs, social events, production of the student magazine, campus counters, and free goodies and giveaways.

i.unisa.edu.au/international-student-services

Library services
Each campus has a library that provides easy access to learning resources including books, electronic journals, databases and more. There are also library workshops designed to help improve your research skills. Quiet study spaces are available and you can connect to our free Wi-Fi. The Ask the Library/IT service is also available via phone, email, video and chat.
Scholarships

Each year more than 2,500 students benefit from our scholarships and grants, totalling millions of dollars. We have a range of categories including support for high achievers and students in need, along with scholarships specifically for international students.

unisa.edu.au/international-scholarships

AUSTRALIA AWARDS

Australia Awards give the next generation of global leaders an opportunity to complete study, research and professional development in Australia. The University is proud to have hosted hundreds of recipients from all over the world through this prestigious initiative developed by the Australian Government.

australiaawards.gov.au

SPONSORED STUDENTS

A sponsored student is someone who has all or part of their education costs paid by a third party, such as a foreign government, the Australian Government, a partner university or employer. We currently host over 200 sponsored students and have the support services in place to ensure they achieve their best.

unisa.edu.au/sponsored-students

Getting started

We are here to help you transition into university. We offer the following services to all new students:

- On arrival transport to your accommodation
- Advice on living in Adelaide
- Orientation to university
- Understanding your working rights in Australia
- Finding community and government services
- Accessing academic policies and procedures

Online learning and support

Our multi-million dollar fully interactive learning environment allows students to submit their assignments online, receive their marked assignments, access learning resources, participate in virtual classrooms and download lecture recordings. It’s available 24 hours a day, seven days a week.

Student app

Our mobile app allows all students to view their timetable, check emails, get important notifications, track assessments and see course enrolments and details. You can also find available PCs on campus, book a study room, check your print quota and library loans, and view announcements.

SafeZone app

Students can download this free app, providing additional security and support when studying on campus. The app allows you to get help quickly in a personal emergency. You can check-in when working alone or after hours and the app will share your status with an on-site response team.

Study the only bachelor degree of its kind in South Australia, which prepares you to practise as a professional real estate agent or property manager across residential, commercial and industrial portfolios. Develop your knowledge in business fundamentals such as economics, accounting and entrepreneurship, along with specialised knowledge in real estate management, property law, economics, real estate investment and property asset management. Complete a minor in marketing to complement your studies and gain expertise in consumer behaviour, advertising, digital marketing and marketing analytics. Engage with industry professionals through networking events. Following graduation, you can apply for registration as a land agent, sales representative or property manager with the South Australian Government’s Consumer and Business Services.
Bachelor of Business (Management)

unisa.edu.au/business

**PROGRAM CODE:** DHLR | **CRICOS CODE:** varies*

*see pages 91–92 for details

Graduate with a top-ranking law degree and professional honours, along with a second degree in a complementary discipline area, in just five years of study. Develop strong skills in analysis, reasoning, advocacy, negotiation and communication to resolve complex legal problems, along with specialist skills in an additional field. Study fundamental courses and concepts that underpin the Australian legal system including areas such as torts, contracts, criminal law and constitutional law. Tailor your studies through a wide range of electives including health law, sports law, family law and human rights law. Build your practical skills in a moot court and learn what it’s like to present before a judge. Engage with our student-run Legal Advice Clinic working with clients under the supervision of a managing solicitor. Become career-ready with opportunities for international study tours, as well as local and national internships. Participate in a law reform project or conduct high-level law research during your studies. Combine your law degree with Accounting, Arts, History and Global Politics, Economics, Finance and Trade, Human Resource Management, Journalism and Professional Writing, Marketing, Management, Psychology, Sport and Recreation Management, or Tourism and Event Management. Graduate with a law degree accredited by the Legal Practitioners Education and Admission Council (LPEAC).

**Note:** If you wish to seek admission to practise law, you must satisfy a number of specified course requirements within your degree, followed by the completion of Practical Legal Training.

You can also pair the Bachelor of Laws (Honours) with a wide range of other UniSA disciplines, however eligibility criteria applies.

### CAREERS

### Bachelor of Business (Legal Studies)

**unisa.edu.au/law**

City West Campus

- 3 years full-time
- $34,300 pa* indicative 2021
- February and August intakes

**PROGRAM CODE:** DBLS | **CRICOS CODE:** 082890D

*see pages 91–92 for details

Prepare for a career in the private, public or legal sectors. Learn about the foundations of law and the Australian legal system, and develop a strong understanding of the law in everyday business operations. Study fundamental courses covering areas such as management, economics, accounting and entrepreneurship. Combine this with courses in law, public law, torts and contracts. You will also study a range of electives to tailor your degree – four in legal studies and four in business-related courses. Gain valuable practical experience by embedding an internship into your studies and seek career mentoring from legal professionals. Take a direct pathway into the Bachelor of Laws (Honours) or Bachelor of Laws (Honours) Double Degree – academic criteria applies.

**Note:** This degree does not provide the educational requirements to practise law, however you may have the opportunity to transfer into the Bachelor of Laws (Honours) or Bachelor of Laws (Honours) Double Degree if you meet the eligibility requirements.

Graduate with an internationally-recognised and highly-awarded MBA qualification designed for experienced managers and enterprising leaders. You will explore the latest industry insights and management research, and learn to create new solutions to modern business challenges, lead innovative teams and deliver exceptional business outcomes in the context of disruptive change and global uncertainty. Analyse real case studies and business challenges and draw upon your experiences and workplace-based issues for assessment tasks. Complete a major capstone project in your final year, where you will plan and execute a research project for a company board or senior management group. Engage with a cohort of experienced peers from diverse industry backgrounds in a highly interactive learning environment. Participate in an optional two-week global study tour experience to China, Europe or Mexico.

You can also complete the Company Directors Course as part of this degree through our unique partnership with the Australian Institute of Company Directors. Recognised and respected globally for excellence and outcomes, our MBA has been ranked No.1 Online MBA in Australia and No.6 Online MBA in the world.* It is also ranked in the Top 5 MBAs in Australia and has received 5 Stars from the Graduate Management Association of Australia (GMAA) for more than ten consecutive years.

---

**ENTRY REQUIREMENTS**

- Minimum three years full-time management experience and a recognised university undergraduate degree or equivalent professional qualifications; or
- Graduate Certificate in Business Administration (DCMA) or Graduate Diploma in Business Administration (DGMA) from the University of South Australia with an average of at least Pass Level 1 across four (or more) courses, or an equivalent qualification from the University of South Australia or another recognised university; or
- Applicants are also required to submit a detailed curriculum vitae or equivalent with at least one referee who can validate work experience.

**DEGREE STRUCTURE**

ART, ARCHITECTURE & DESIGN

Bachelor of Interior Architecture
unisa.edu.au/architecture

City West Campus 4 years full-time $AS$3,900 pa* indicative 2021 February and July intakes

Program Code: DBIR | CRICOS Code: 024202C

*See pages 91–92 for details

Learn to create innovative and sustainable interiors that have a positive and lasting impact. Gain a solid foundation in the theoretical aspects of interior design alongside a strong understanding of industry trends in modern workplace and furniture design. Apply design processes and strategies to a range of interior architecture projects and work directly with professional clients to transform places and spaces. Tailor your studies in final year by pursuing an area of interest such as retail, hospitality or commercial design. Participate in national and international study tours, competitions and exhibitions. Study in purpose-built design and architectural studios on campus, connect with a design mentor and gain practical experience by completing an industry placement. After graduation you will also be eligible for Graduate Membership with the Design Institute of Australia (DIA).

CAREERS

Interior designer / event designer / exhibition coordinator / lighting designer / design consultant / visual merchandiser / stylist / furniture designer / project manager / studio manager / property stylist / freelance designer

Note: This degree does not lead to registration as an architect, nor to use the title 'architect'.

Bachelor of Architectural Studies
unisa.edu.au/architecture

City West Campus 3 years full-time $AS$3,300 pa* indicative 2021

Program Code: DBAE | CRICOS Code: 060207K

*See pages 91–92 for details

Build a rewarding career in architecture, helping to shape and transform the environment around you. Learn about the theoretical, behavioural, environmental and ethical issues within architectural practice, social and political context in design, traditional drawing methods, computer-based representation, and contemporary design culture. Study in modern, purpose-built facilities including design studios and workshops on campus. Engage in real-life projects through our award-winning Design Construct learning experience, the longest running and largest practice-based teaching program of its type in Australia. Continue your studies through the Master of Architecture to become a registered architect.

CAREERS

Architect (with further study) / exhibition designer / urban designer / production designer / drafter / studio manager / planning and development officer (with further study) / project manager / heritage consultant

Note: This degree provides the requirements for entry into the Master of Architecture (DMAE). The master’s program is accredited by the Architectural Practice Board of South Australia and is listed as an accredited degree by the Architects Accreditation Council of Australia. Graduates must complete a minimum period of work in the industry and the Architectural Practice Examination to be eligible to apply for registration as an architect.

Bachelor of Design (Product Design)
unisa.edu.au/design

City West Campus 3 years full-time $AS$3,900 pa* indicative 2021

Program Code: DBPR | CRICOS Code: 07953G

*See pages 91–92 for details

Enter the creative and innovative world of product design. Build a career designing products that people use every day including electronic devices, tools, sports equipment, fashion accessories, domestic appliances, toys and furniture. Learn about the fundamentals of design through design history, theory and thinking, human centred design, and creativity. Broaden your
knowledge through studies in ergonomics, computer aided design and manufacturing, sustainable design, materials and processes, and design for usability. Develop practical skills through design studio classes, model making and prototyping. Learn from practising design professionals in modern, custom-built workshops on campus. Work with the latest digital fabrication equipment such as laser cutters, CNC routers, 3D printers, and industry-standard motion capture and virtual reality systems. Gain practical experience through professional placements. After graduation, you will be eligible for Graduate Membership with the Design Institute of Australia (DIA).

Explore your creativity and develop your chosen art form at one of Australia’s oldest and most established art schools. Develop your theoretical, technical and conceptual skills in contemporary art, and learn from artists who are national and international leaders in their field. Channel your creative talents, research skills and innovation through intensive studio practice in custom-built workshops. Create innovative and inspiring artworks for contemporary contexts by using the latest hybrid digital design practices and principles. Tailor your studies through a broad range of elective courses in areas such as experimental design practices and principles. Tailor your studies with the Master of Teaching (Secondary) to become an art teacher.

**CAREERS**
Depending on your course selection, your career options can include:
- Artist / ceramicist / sculptor / photographer / jewellery designer / glass designer / printmaker / textile designer / art director / exhibitions manager / arts administrator / art critic / entrepreneur / art teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

Study a flexible degree that you can tailor to your specific interests. Take a double major (see pages 41–43) combining two distinct but complementary fields, with over 150 degree combinations to choose from. Develop your writing, communication, presentation, digital and research skills through practical learning and project-based work. Enrich your learning experience through community and industry engagement opportunities and connect with international NGOs through the prestigious Hawke Ambassador Volunteer Experience Program. Access different learning spaces depending on your chosen majors, including an on-campus Multimedia Languages Lab, the Hartley Playhouse Theatre, TV Studio, Sound Studio, Digital Radio Studio and industry-standard Media Suite. Apply your knowledge to real-world situations across a variety of industry sectors through the Professional Directions Program in second year.

**CAREERS**
Depending on your degree combination, your career options can include:
- Community aid worker / community relations officer / human resources adviser / performer / musician / policy adviser / arts administrator / copywriter / editorial assistant / publisher / writer / media adviser / researcher / social media officer / teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

Develop a sophisticated understanding of language and how it shapes every aspect of human life. Learn how to analyse language and its role in the contemporary world. Explore the ways in which language is fundamental to human understanding, experience, communication and society. Discover the complexities of language as you develop strong analytical, problem solving and research skills that can be applied to a range of professional settings.

**APPLIED LINGUISTICS MAJOR**
- Language and Communication in Applied Linguistics
- Language in Society
- Language and Identity
- Communication, Work and Organisations
- Language, Meaning and Discourse
- Language Ideology and Policy
- Multilingualism: Contact, Change and Mobility
- Language Learning and Assessment

*see pages 91–92 for details
Bachelor of Arts (Creative Writing and Literature)

PROGRAM CODE: MBAA | CRICOS CODE: 097508C
*see pages 91–92 for details

Explore historical and contemporary fiction, non-fiction, poetry, autobiographies, essays and plays. Complete courses involving a combination of creative writing and literary studies. Develop a comprehensive understanding of the contexts and cultural influences of different literature types. Explore how different oral and written texts impact the cultures of the world. Graduate with a defined set of writing, editing and analytical skills that can be applied to a broad range of professional contexts.

DEGREE STRUCTURE

World Literatures and English
Creative Writing Theory and Practice
The Power of Story

Bachelor of Arts (English Language)

PROGRAM CODE: MBAA | CRICOS CODE: 097507D
*see pages 91–92 for details

Designed for bilingual and multilingual students who want to develop high level English proficiency for professional life. Develop advanced English speaking, writing and reading skills and the intercultural expertise for future work in local and global contexts, including careers in translation.

DEGREE STRUCTURE

ENGLISH LANGUAGE MAJOR

English for Academic Use in Australia
English for Academic and International Communication
English and the Art of Speaking and Writing
English in the Professions
World Literatures and English
Language Ideology and Policy
Multilingualism: Contact, Change and Mobility
Language Learning and Assessment

Bachelor of Arts (History and Global Politics)

PROGRAM CODE: MBAA | CRICOS CODE: 097504G
*see pages 91–92 for details

Examine the patterns and processes that have shaped our societies over time and develop the skills to analyse and predict events in our contemporary world. Study key areas such as framing global politics through film and television, global aid and development, world history trends, Australia in the Asian Century, and marginalisation in world affairs. Explore the context of politics and history including Australia's role domestically and within broader currents of regional and global politics.

DEGREE STRUCTURE

HISTORY AND GLOBAL POLITICS MAJOR

Global Politics and Development
World History Trends and Transformations
Australia in the Asian Century
Framing the International: Representations of Global Politics
The Politics of Environmental Change in Australia and Asia
Power and Resistance: 1900–Present
United States History and Cultural Identities
Villains, Victims and Outsiders: Marginalisation in World Affairs

Bachelor of Arts (Languages)

PROGRAM CODE: MBAA | CRICOS CODE: 081802F
*see pages 91–92 for details

Please note this program only has a February intake.

Immerse yourself in another language. Learn French, Italian or Japanese and enhance your skills by experiencing the language and culture firsthand through international exchange opportunities. Access the Multimedia Languages Lab at Magill campus, where you can connect with native speakers from around the world in real-time. Graduate with a competitive advantage and take your career around the globe.

DEGREE STRUCTURE

LANGUAGES MAJOR

Language 1A
Language 1B
Language 2A
Language 2B
Language 3A
Language 3B
European Languages In-Country OR Asian Languages In-Country OR Advanced Languages Studies: Translation and Research

Bachelor of Arts (Law, Policy and Politics)

PROGRAM CODE: MBAA | CRICOS CODE: 098294D
*see pages 91–92 for details

Develop a strong understanding of legal systems, international and domestic law, the politics of environmental change, and marginalisation in world affairs. Study courses that explore public international law, indigenous legal systems, global aid and development, environmental politics and human rights. Explore the law from a global perspective and analyse the impact of policy across different political environments.

DEGREE STRUCTURE

LAW, POLICY AND POLITICS MAJOR

Global Politics and Development
Foundations of Law
The Politics of Environmental Change in Australia and Asia

PROGRAM CODE: MBAA | CRICOS CODE: 081805C
*see pages 91–92 for details

Understand the forces that shape the social world. Learn how to critically analyse contemporary social issues and problems, such as crime, deviance, gender and the family structure. Develop an in-depth theoretical and empirical understanding of how societies are transforming, through the study of globalisation, culture, social identity and migration.

DEGREE STRUCTURE

SOCIOLOGY MAJOR
The Social World
Sociological Perspectives
Understanding Globalisation
Sociology of Crime and Deviance
Sociology of the Family
Sociology of Gender and Intimacy
Migration, Diversity and Belonging

Bachelor of Creative Industries

unisa.edu.au/creative-industries

Prepare for a career in the growing creative industries. Study a degree designed and delivered in collaboration with leaders in the industry and explore your creativity in an area that interests you most. Design your own degree by choosing from 12 industry-majors, each with a unique focus. You can then select either a second major, or two minors from across a range of creative and business disciplines. Engage with industry from day one as you develop your creative practice while gaining professional knowledge and skills. You will also study core courses in business, design and entrepreneurship, providing you with highly practical and transferable skills to give your career a competitive head-start. Take the opportunity to complete an internship or placement, go on an international exchange, work on real-world projects and build a portfolio of work.
Enter the world of creative media production by studying film, television and visual effects (VFX) production and theory. Explore theory and practice combining traditional and digital forms required by industry. Learn about the professional production cycle from conceptualisation and scriptwriting through to production and post-production. Analyse film and media from around the globe to gain insight into different creative contexts, forms and practices. Develop professional knowledge in screenwriting, cinematic design, VFX, and the production of documentary, experimental and narrative film and television, as well as an understanding of different media platforms and the end-user experience. Engage with industry leaders and work on real-world projects using the latest production software and technologies. Graduate career-ready with your own portfolio of work, showcasing your practical skills and creativity across a variety of media forms. If you are interested in specialising in VFX, you will have the opportunity to apply for a placement with Rising Sun Pictures, studying the third year of your degree at their studio located in the Adelaide CBD and working alongside world-class VFX artists. Package this degree with a Master of Teaching (Secondary) to become a media arts teacher.

Note: Entry to specialise in visual effects and study your final year at Rising Sun Pictures is competitive.

**CAREERS**

EDUCATION

Admissions information

ENTRY REQUIREMENTS

In accordance with national teacher education program standards, applicants must also fulfil non-academic entry requirements before their application is deemed complete. Applicants for the Bachelor of Early Childhood Education (Honours) and Bachelor of Primary Education (Honours) are required to submit a 400–600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

PLACEMENT REQUIREMENTS

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

• A Department of Human Services Working with Children Check;
• Mandatory Child-Safe Environments Training; and
• Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) – to be completed during your studies.

For more information, visit unisa.edu.au/eds-requirements

Graduate with honours in just four years and build a rewarding career as an early childhood teacher. Focus on the learning and development of children from birth to eight years of age. Build foundational knowledge in education studies, curriculum planning, professional experience and leadership. Complete three courses in one primary specialism (Learning Area) of your choice to meet the national registration requirements (for birth to eight years of age). Learning Areas include Arts, English and Mathematics/Science. Benefit from highly practical learning, with 105 days of field-based placements starting in your first six months of study and the opportunity to complete a placement overseas. Access the Samsung SMARTSchool – a high-tech, state-of-the-art learning space at Magill Campus.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

Master of Architecture

Apply advanced knowledge to contemporary architecture and design practice. Develop an in-depth understanding of construction systems, digital design and communication, sustainable strategies, architectural practice, and the historical and theoretical contexts that shape our built environment. Gain valuable practical experience through intensive studio classes where you will design for complex projects, and participate in industry placements and international field trips. Learn from highly experienced teachers who are also practising architects and leaders in their field. Tailor your studies by choosing elective courses in areas such as design and construct, sustainable design, urban planning and city design or digital media. Engage in real projects through the Design Construct stream, where you design and build community buildings in remote locations both in Australia and overseas. This program is accredited by the Architectural Practice Board of South Australia and graduates satisfy the academic requirements to apply for registration as an architect following a period of prescribed work experience. Graduates are also eligible for membership with the Australian Institute of Architects.

CAREERS
Architect / spatial designer / urban designer / design consultant / heritage consultant / project manager

ENTRY REQUIREMENTS
- Bachelor of Architectural Studies (DBAE) from the University of South Australia, or a bachelor degree in a three-year pre-professional architecture program from a recognised Australian higher education institution, or equivalent qualification.
- Applicants with a bachelor degree in a three-year pre-professional architecture program from a non-Australian higher education institution must also submit a portfolio as part of their application.
- Entry into this program is competitive, based on academic merit and subject to places. The University may admit other applicants who provide satisfactory evidence of academic achievement, which is recognised as an equivalent qualification to a completed Bachelor of Architectural Studies (DBAE).

DEGREE STRUCTURE
FIRST YEAR
- Advanced Architectural Design Studio (Environment)
- AAD Research Methods
- Elective
- Advanced Architectural Design Studio (Construction)
- AAD Research Practices
- Elective

SECOND YEAR
- Architectural Design Research Studio (Context)
- Professional Architectural Practice
- Elective
- Architectural Design Research Studio (Integrated)
- Contemporary Architectural Practice
- Elective

Master of Design

Develop a deep understanding of the innovative, changing world of communication design across both print and digital platforms. Be prepared to conceptualise solutions for complex design challenges, and apply advanced principles and practices that extend beyond the visual to help communicate to different audiences. Learn the design skills required to work across a variety of disciplines including advertising, branding, merchandising, visual communications, publications and web design. Gain valuable professional experience by working on real creative projects, including writing proposals and presenting to clients. Tailor your studies through a range of electives including writing proposals and presenting to clients. Tailor your studies through a range of electives including writing proposals and presenting to clients.

Master the theory and techniques needed to produce industry-standard 3D visual effects through a 12-week intensive qualification. This program complements the Graduate Certificate in Compositing and Tracking (ICVE). Learn how to create explosions, water effects and clouds, as well as generated environments such as cities, beaches and forests; and how to use computer generated lighting applications. Learn alongside highly experienced VFX artists through a unique partnership with Rising Sun Pictures – one of the world’s best visual effects companies, who have worked on motion pictures such as Thor: Ragnarok and Tomb Raider. Access their state-of-the-art studio located in Adelaide’s CBD and work with the latest industry tools such as Shotgun. Gain an in-depth understanding of current industry trends, technologies and professional practices. Build your networks by joining company meetings and events at Rising Sun Pictures, and graduate having produced an industry standard showreel and a professional curriculum vitae.
Master of Communication

unisa.edu.au/communication

**ENTRY REQUIREMENTS**

In accordance with national teacher education program standards, applicants must also fulfil non-academic entry requirements before their application is deemed complete. Applicants for the Master of Teaching programs are required to submit a 400-600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

**PLACEMENT REQUIREMENTS**

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training, and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) — to be completed during your studies.

For more information, visit unisa.edu.au/eds-requirements

**Master of Teaching (Early Childhood)**

unisa.edu.au/education

**ENTRY REQUIREMENTS**

Bachelor degree, graduate certificate or graduate diploma from a recognised higher education institution.

**PLACEMENT REQUIREMENTS**

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training, and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) — to be completed during your studies.

For more information, visit unisa.edu.au/eds-requirements

**Careers**

Kindergarten teacher / preschool teacher / junior primary teacher / childcare teacher / childcare centre director / early childhood educator / early childhood coordinator / early learning consultant / policy adviser / researcher

**Entry Requirements**

- Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA), and
- One year of full-time equivalent study, as part of the bachelor degree or equivalent qualification, relevant to one or more Learning Areas of the primary school curriculum (Arts, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, Science and Technologies), which includes a minimum half a year of equivalent study relevant to one of the Learning Areas of the primary school curriculum.
- Some applicants may be eligible for Advanced Standing and can complete the program in one-year of full-time study.
- Entry into this program is competitive and based on academic merit.

**Degree Structure**

**First Year**

- English Education (Junior Primary)
- Mathematics and Science Education (Years R–2)
- Curriculum and Pedagogy 1 (HASS and Technologies)
- Curriculum and Pedagogy 2 (Arts and Health and PE)
- Critical Perspectives of Education Foundations of Learning and Development: A Child Centred Approach
- Early Childhood Professional Experience and Reflection (Junior Primary)

**Second Year**

- English Education (Birth to 5)
- Mathematics and Science Education (Birth to 5)
- Play, Learning and Development
- Early Childhood Professional Experience and Reflection (Infant and Toddler)
- Mathematical Thinking and Numeracy Curriculum Specialisation
- Early Childhood Professional Experience and Reflection (Preschool)

**Program Code**: MMET | CRICOS Code: 07724E

*see pages 93–95 for details

Build a rewarding career in early childhood teaching, focusing on the education of children from birth to eight years of age. Explore the emotional, social, cognitive and physical development of early learners. Study core courses in child development, curriculum studies and education studies, along with key Learning Areas including English, Mathematics and Science. Benefit from highly practical learning, completing supervised placements in child care, preschool/kindergarten and junior primary school settings, totalling 80 days.
Master of Teaching (Primary)
unisa.edu.au/education

Prepared for a career in primary education, focusing on children from Reception to Year 6/7. Explore the developmental, emotional and social psychological needs of primary learners. Study core courses in curriculum and education studies, along with integrated practical learning in English, Mathematics, Science, Health and Physical Education, Technologies and Arts. Benefit from highly practical learning, completing supervised placements across metropolitan and regional primary school settings, totaling 60 days.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS
Primary school teacher / primary program coordinator / education consultant / youth support officer / community education services coordinator / education policy adviser / researcher

ENTRY REQUIREMENTS
- Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA); and
- One year of full-time equivalent study, as part of the bachelor degree or equivalent qualification, relevant to one or more Learning Areas of the primary school curriculum (Arts, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, Science, Technologies), which includes a minimum half a year of equivalent study relevant to one of the Learning Areas of the primary school curriculum.
- Entry into this program is competitive and based on academic merit.

DEGREE STRUCTURE
FIRST YEAR
English Education (Junior Primary)
Mathematics and Science Education (Years R–2)
Curriculum and Pedagogy 1 (HASS and Technologies)
Curriculum and Pedagogy 2 (Arts and Health and PE)
Reflexive Practice and Professional Experience 1
Critical Perspectives of Education
Foundations of Learning and Development: A Child Centred Approach

CAREERS

Become a Registered Nurse and make a positive contribution to the healthcare sector. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian and international healthcare priorities and trends. Focus on four key areas of nursing practice during your studies, including collaborative and therapeutic practice, critical thinking and analysis, professional practice, and provision and coordination of care. Learn about cultural competence, evidence-based practice, mental health, primary health, professional communication, and safety and quality. Complete more than 900 placement hours starting in your first year of study. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp

Prepare for a highly rewarding career in maternity care and women’s health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience to prepare you for clinical practice. As an international profession with different birthing practices all over the world, you will learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, authentic simulated hospital and health service on campus, which incorporates a midwifery and paediatric unit, and technologies such as birthing manikins. Complete comprehensive placement hours and be actively involved in 30 births during your studies, along with the pre and post-birth care of at least 100 women, and following 15 women through continuity of care experiences. Graduate with the academic requirements needed for registration as a Midwife with the Nursing and Midwifery Board of Australia (NMBA).

Undergraduate Degrees
CAREERS
Midwives can work in a variety of healthcare settings, including:
- Hospitals / community services / rural and remote healthcare / home care services / health agencies / private consulting

DEGREE STRUCTURE
FIRST YEAR
- Foundations of Midwifery
- Human Body 1
- Normal Pregnancy and Childbirth
- Experiential Learning Activity: Midwifery Foundation Practicum 1
- Human Body 2
- First Peoples’ Health
- Healthy Mothers and Babies

SECOND YEAR
- Complex Care across the Childbirth Continuum
- Fetal and Maternal Pathophysiology
- Experiential Learning Activity: Midwifery Development Practicum 2
- Complex Care of the Neonate
- Pharmacology and Diagnostics for Midwives
- Experiential Learning Activity: Midwifery Practice Development Practicum 3

THIRD YEAR
- Research Methodologies
- Perinatal Mental Health and Wellbeing
- Experiential Learning Activity: Midwifery Transition Practicum 4
- Becoming a Midwife
- Experiential Learning Activity: Midwifery Transition Practicum 5
- Midwifery Project

FOURTH YEAR
- Participatory Community Practice 400
- Health Science Honours Thesis
- Occupational Therapy Field Practice 400
- Occupational Therapy Field Practice 401

HEALTH & MEDICAL SCIENCES
Bachelor of Occupational Therapy (Honours)
unisa.edu.au/occupational-therapy

CAREERS
Occupational therapists can work in a variety of settings, including:
- Hospitals / private practice / community health services / rehabilitation centres / aged care facilities / home care services / local council services / government departments / schools

DEGREE STRUCTURE
FIRST YEAR
- Foundations of Health
- Human Anatomy 100
- Physiology Essentials 100
- Introduction to Occupational Therapy Practice
- Lifespan Growth and Motor Development
- Introduction to Evidence Based Practice and Research in Health Sciences
- Occupational Therapy Practice in Hospital Settings
- Elective

SECOND YEAR
- Principles of Occupational Therapy Practice
- Applied Psychology
- Enabling Occupation through Environmental Adaptation
- The Individual in Society 200
- Human Neuroscience
- Occupational Therapy Group Work and Counselling
- Occupational Therapy Practice Education
- Occupational Therapy Practice in Occupational Rehabilitation

THIRD YEAR (PROFESSIONAL STREAM)
- Occupational Therapy Practice and Mental Health
- Primary Health Care Approaches in Occupational Therapy
- Advanced Occupational Therapy Practice and Neurological Conditions
- Occupational Science
- Participatory Community Practice 301
- Advanced Community Occupational Therapy Practice and Chronic Conditions Management
- Advanced Evidence Based Practice

FOURTH YEAR (PROFESSIONAL STREAM)
- Participatory Community Practice 400
- Professional Portfolio 400
- Occupational Therapy Field Practice 400
- Occupational Therapy Field Practice 401
- Professional Portfolio 401

THIRD YEAR (RESEARCH STREAM)
- Occupational Therapy Practice and Mental Health
- Primary Health Care Approaches in Occupational Therapy
- Advanced Occupational Therapy Practice and Neurological Conditions
- Occupational Science
- Participatory Community Practice 301
- Advanced Community Occupational Therapy Practice and Chronic Conditions Management
- Health Science Honours Preparation

Graduate with honours and become a registered occupational therapist in just four years. Learn to help people of all ages to maintain and improve day-to-day activities.

Develop the skills to assist people in managing personal, environmental and task limitations caused by injury or illness. Focus on areas such as human anatomy, human physiology, human neurosciences, growth and lifespan development, psychology, occupational science, and sociology. Gain valuable practical experience through 1,000 dedicated placement hours in a variety of settings under the supervision of a practising occupational therapist. Choose a professional or research stream in your final years of study. Graduate with a degree that has been approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia, and accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd.

REHABILITATION, HEALTH & SPORT
Graduate with honours and become a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead healthy and functional lives, as a first contact professional and valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiopulmonary and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either a research stream focusing on an independent research project, or a professional stream where you will take part in a group project addressing a real-world problem. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

CAREERS
Registered physiotherapists can work in a variety of settings, including:
- Private practice / clinics / sporting clubs / exercise services / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health / paediatric services

Bachelor of Physiotherapy (Honours)
unisa.edu.au/physiotherapy

HEALTH & MEDICAL SCIENCES

Note: Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp
diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for sports injuries, orthotics, children, foot and heel pain. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics and learn relevant aspects of medicine and surgery. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as our Manufacturing Lab where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note: High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

CAREERS
Registered podiatrists can work in a variety of settings, including:
- Private practice / clinics / hospitals / community health centres / aged care / sports clinics / occupational health services

Bachelor of Podiatry
unisa.edu.au/podiatry

- City East Campus
- 4 years full-time
- professionally recognised
- $39,700 pa* indicative 2021
- February intake

Study South Australia’s only degree in podiatry. Prepare for a career as a registered podiatrist, responsible for...
Study South Australia’s only fully-accredited degree in exercise and sport science. Develop a deep understanding of the impact that exercise and physical activity has on the biological, physical and social aspects of human life. Learn how to design and deliver exercise programs to improve clients’ health and wellbeing, perform client screenings, conduct laboratory and field testing, and appraise and interpret scientific research. Be guided by some of Australia’s leading exercise scientists and experts in the field. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Lab, Microbiology Lab and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia’s major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of work experience.

CAREERS
Community nutritionist / health promotion officer / food scientist / food technician / flavour technologist / product development manager / microbiology specialist / food policy adviser / food safety adviser / quality assurance officer / research scientist

DEGREE STRUCTURE
FIRST YEAR
Human Anatomy 100
Foundations in Human Movement, Exercise and Sports Science
Physiology Essentials 100
Foundations of Physical Activity and Health
Introduction to Group and Team Psychology
Lifespan Growth and Motor Development
Stream/Optional Elective 1
Elective
SECOND YEAR
Exercise Physiology 1
Human Nutrition
Motor Control and Learning
Stream/Optional Elective 2
Biomechanics of Human Movement
Stream/Optional Elective 3
Stream/Optional Elective 4
Stream/Optional Elective 5 OR Elective
THIRD YEAR
Stream/Optional Elective 6
Stream/Optional Elective 7
Stream/Optional Elective 8
Stream/Optional Elective 9
Sociology of Health, Physical Activity and Sport
Stream/Optional Elective 10
Stream/Optional Elective 11
Stream/Optional Elective 12

Program Code: IBXS | CRICOS Code: 09693SG

Bachelor of Nutrition and Food Sciences
unisa.edu.au/nutrition-food-sciences

Study your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Lab, Microbiology Lab and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia’s major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of work experience.

CAREERS
Community nutritionist / health promotion officer / food scientist / food technician / flavour technologist / product development manager / microbiology specialist / food policy adviser / food safety adviser / quality assurance officer / research scientist

DEGREE STRUCTURE
FIRST YEAR
Chemistry 100
Introduction to Nutrition and Food Sciences 1
Health and Society
Biology A
Chemistry 101
Statistics for Laboratory Sciences
Biology B
Introduction to Nutrition and Food Sciences 2

SECOND YEAR
Microbiology
Biochemistry
Physiology
Human Nutrition
The Chemistry of Food
Food Safety and Regulation
Lifespan Physiology
Sensory and Consumer Evaluation of Foods

THIRD YEAR (FOOD SCIENCE STREAM)
Food Microbiology and Quality Assurance
Food Processing and Manufacturing
Product Development and Food Analysis
Elective 1
Molecular Food Microbiology
Functional Foods, Nutraceuticals and Medicines
Elective 2
PLUS one course (4.5 units) chosen from the following:
• Capstone in Nutrition, Food Sciences
• Medical Biochemistry

THIRD YEAR (NUTRITION STREAM)
Community Nutrition Promotion
Nutrition Communication and Food Studies
Nutrition, Exercise and Weight Management
Elective 1
Functional Foods, Nutraceuticals and Medicines
Elective 2
PLUS two courses (9 units) chosen from the following:
• Capstone in Nutrition, Food Sciences
• Sports Nutrition
• Designing and Managing Health Projects
• Medical Biochemistry
Bachelor of Health Science (Public Health)

unisa.edu.au/health-science

City East Campus
3 years full-time
A$32,600 pa* indicative 2021
February intake

Program Code: IBHP | CRICOS Code: 010007E

Prepare for a career working with populations and communities to make a positive difference in the lives of others. Cultivate a range of skills aimed at improving and promoting health and wellbeing outcomes. Develop your knowledge and contribute to the research and education around preventing disease and illness. Complete 200+ hours of industry placements and projects and create a portfolio of work to present to future employers. Explore diverse areas such as health promotion, health monitoring and surveillance, epidemiology, as well as global, national and Aboriginal health issues. You will also develop skills in planning, managing and evaluating healthcare policy, projects, programs and services. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

Careers
Health project officer / health policy analyst / health research officer / health promotion officer / wellness and lifestyle coordinator / community development officer / women’s health adviser / clinical trials coordinator / data analyst

Degree Structure

First Year
Introduction to Public Health Practice and Research
Health Systems and Services
Aboriginal Australians: Culture and Colonisation
Physiology Essentials 100

Health Promotion Concepts
Introduction to Evidence Based Practice and Research in Health Sciences
Human Anatomy 100
First Peoples’ Health

Second Year
Marketing for Health and Wellbeing
Evaluation in Public Health
Sociological Perspectives in Public Health
Building Healthy Public Policy
Designing and Managing Health Projects
Science and Politics of Preventive Health
Aboriginal Public Health Practice and Research
Minor Course 1 OR Elective

Third Year
Epidemiological Principles and Methods
Public Health and Wellbeing Practice
Minor Course 2 OR Elective
Minor Course 3 OR Elective
Applied Public Health Practice and Research
Health Ethics
Minor Course 4 OR Elective

To explore all major and minor areas, visit unisa.edu.au/msm

We Also Offer

Bachelor of Clinical Exercise Physiology (Honours)
Bachelor of Human Movement, Bachelor of Nutrition and Food Sciences
Bachelor of Exercise and Sport Science, Bachelor of Nutrition and Food Sciences
Bachelor of Exercise and Sport Science, Bachelor of Psychology (Counselling and Interpersonal Skills)
Bachelor of Biomedical Research (Honours)

Pharmacy & Medical Sciences

Bachelor of Pharmaceutical Science

unisa.edu.au/pharmacy

City East Campus

*see pages 91–92 for details

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing. Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You will then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmacokinetics, drug discovery, development, and commercialisation. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the A$247 million UniSA Cancer Research Institute. Complete an industry project or placement during your degree. Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – academic criteria applies.

Careers
Pharmaceutical science professionals can work in a variety of areas, including medicine manufacturing, evaluation, sales, marketing and quality control, along with clinical trials and research and development.

Degree Structure

First Year
Chemistry 100
Biology A
Health and Society
Health Professional Essentials

Chemistry 101

Study South Australia’s only degree in pharmacy. Become a Registered Pharmacist, equipped to prepare, supply and monitor medicines across a variety of settings. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with over 50 years’ experience in delivering pharmacy education. Focus on key study areas such as biological, chemical and pharmaceutical sciences; ethical pharmacy practice; trailling and regulation of medicines; drug information and advice; preparing, studying and monitoring medicines and their use; and pharmaceutical research methods. Access state-of-the-art learning spaces, including the pharmacy practice suite where you will learn to dispense medicines and counsel patients, along with purpose-built laboratories in the A$247 million UniSA Cancer Research Institute. Complete field placements in community and hospital-based pharmacy settings. Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science — academic criteria applies.

CAREERS
Registered pharmacists can work in a variety of settings, including:

- Evidence Based Practice GE
- Enabling Occupation 5
- Occupational Therapy Field Practice 3B
- Occupational Therapy Field Practice 4

Master of Advanced Clinical Physiotherapy (Musculoskeletal)

PROGRAM CODE: IMAP | CRICOS CODE: 088576K

*see pages 93–95 for details

Further your expertise in musculoskeletal physiotherapy. Gain advanced knowledge in clinical reasoning, communication, physical and psychosocial examination, as well as education and procedural management. Learn through a balance of theoretical and practical classes. Take core courses in allied health evidence translation, facilitating change in cognitive behaviours and lifestyle, pain science, assessment and management, and advanced musculoskeletal examination and management. Graduate with a qualification accredited by the Australian Physiotherapy Association and Musculoskeletal Physiotherapy Australia. You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as private practice, clinics, rehabilitation centres, hospitals, home and community services, disability services, aged care facilities and research.

DEGREE STRUCTURE

MUSCULOSKELETAL SPECIALISATION

FIRST YEAR
- Allied Health Research Evidence Translation
- Musculoskeletal Physiotherapy Theory and Practice 1
- Musculoskeletal Physiotherapy Theory and Practice 2
- Pain Theory and Science
- Pain Assessment, Rehabilitation and Management
- Advanced Physiotherapy Practice 1

Master of Advanced Clinical Physiotherapy (Sports)

PROGRAM CODE: IMAP | CRICOS CODE: 088577J

*see pages 93–95 for details

Study an advanced qualification in sports physiotherapy. Enhance your knowledge, clinical skills and application of evidence-based practice in the treatment of sporting and other injuries sustained in field and outpatient settings. Develop quick decision-making skills to triage injuries during events and to perform pre-season screening, as well as understanding how to develop injury prevention strategies for teams and individuals. Take core courses in musculoskeletal physiotherapy, pain theory and science, and advanced physiotherapy sports theory and management. Graduate with a qualification accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association.

You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as elite sports, amateur sports, national and international sports, clinics, hospitals, private practice, disability services, rehabilitation centres and research.
**LOCAL DELIVERY**

Bachelor degree from a recognised higher education institution. Some applicants may be eligible for Advanced Standing and can complete the program in 1.5 years full-time study.

**ENTRY REQUIREMENTS**

- Successful completion of prerequisite courses within an internationally recognised bachelor degree.
- Relevant accreditation as a medical/cardiac/vascular sonographer with two years' experience where sonography was awarded following completion of a recognised bachelor degree, or relevant accreditation as a medical/cardiac/vascular sonographer with five years of accredited experience; or
- A bachelor degree in medical radiation science or allied health or health science, or equivalent qualification with a minimum Grade Point Average (GPA) of 5 or international equivalent; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with five years of accredited experience; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with two years' experience where sonography was awarded following completion of a recognised bachelor degree.

**ALL SPECIALISATIONS**

- A relevant graduate diploma in medical/cardiac/vascular sonography or equivalent qualification with a minimum CPA of 5 or international equivalent; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with five years of accredited experience; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with two years' experience where sonography was awarded following completion of a recognised bachelor degree.

**IN ADDITION, FOR THE GENERAL SPECIALISATION:**

- Successful completion of prerequisite courses within the last ten years from a recognised higher education institution.

**DEGREE STRUCTURE**

**LEVEL ONE**

- Ultrasound Physics and Instrumentation
- Professional Issues for Sonographers
- Abdominal Sonography
- Superficial Parts Sonography

**LEVEL TWO**

- Obstetric and Gynaecologic Sonography
- Vascular Sonography
- Musculoskeletal Sonography
- Clinical Sonography Portfolio

**LEVEL THREE (RESEARCH PATHWAY)**

- Qualitative Design for Nursing, Midwifery and Health Research OR Quantitative Design for Nursing, Midwifery and Health Research
- Minor Thesis 1
- Health Science Minor Thesis 2

**WE ALSO OFFER**

- Master of Physiotherapy (Graduate Entry)
- Masters by Research
- Doctor of Philosophy (PhD)
- Master of Clinical Pharmacy

*This program is not available to onshore student visa holders.

**IMPORTANT NOTE**

These programs are not available to international student visa holders and are only available part-time and through online delivery. Theory examinations can be completed at external exam centres, however all students are required to attend clinical assessments on campus. Applicants are also responsible for organising their own training position in an ultrasound department in order to complete the required scanning experience.
Be at the forefront of innovation and technology. Join a vibrant hub of forward-thinking students, academics and researchers, working to unlock new possibilities in the communication and information technology, engineering, science, defence and aerospace industries. Collaborate with industry through real-world projects and fieldwork to provide solutions that have a positive impact on end-users. Study near Technology Park in Adelaide’s northern suburbs – a nexus of more than 100 high-tech companies with opportunities for knowledge sharing, product development, research and professional networking.

"I’m really impressed with the balance between theoretical and practical aspects of my study. It provides a fun and enjoyable way to learn concepts that are necessary for our professional development. The teaching staff are also extremely approachable."

Steve Nyanchoga
KENYA
Bachelor of Engineering (Honours) (Electrical and Electronic)

"I chose to study in Adelaide because it is a peaceful and organised city with a lot of cultural diversity. The University of South Australia is also well-ranked and Mawson Lakes Campus has modern learning spaces, which are great for private study and group projects."

Ana Cruz Baltuano
PERU
Master of Engineering (Water Resources Management)
Take the first steps towards becoming a pilot and build a career that will allow you to travel the world. Study at a university that teaches theory and practice at the same time, with 15-20 hours of real flight training experience provided in the first year of your degree. You will also have the option to separately study for your Commercial Pilot Licence, which you can do concurrently with your university studies (subject to specific entry requirements). Develop fundamental knowledge in aerodynamics, meteorology, navigation, flight planning, and aircraft power plants and systems. Access state-of-the-art technologies on campus, including a CASA-certified Boeing 737 Next Generation flight simulator. You will also gain real-world experience through our connection with the Civil Aviation Safety Authority (CASA) by submitting flight plans and accessing the latest aerodrome alerts.

Following additional flight training, this degree can lead to the following careers:

- Commercial pilot / corporate pilot / firefighting pilot / medical and air ambulance pilot / defence force pilot / flight instructor

**DEGREE STRUCTURE**

**FIRST YEAR**
- Flight Training Theory 1
- Professional and Technical Communication
- Introduction to Aviation
- Aviation Practice
- Commercial Pilot Theory
- Flight Experience

**SECOND YEAR**
- Communications and Research Methods
- Aviation Physics 1N
- Aviation Law
- University Elective
- Introduction to Aviation Management
- Introduction to Aviation Safety
- Elective

**THIRD YEAR**
- Airline Transport Pilot Theory 1
- Risk and Safety Management Systems
- Elective
- Airline Transport Pilot Theory 2
- Large Aircraft Flight Operations
- Aviation Project
- Airline Operations Management

**DEGREE STRUCTURE**

**FIRST YEAR**
- Management and Organisation
- Professional and Technical Communication
- Introduction to Aviation
- Aviation Practice
- Quantitative Methods for Business
- Introduction to Aviation Management
- Introduction to Aviation Safety
- Human Factors 1

**SECOND YEAR**
- Aviation Law
- Principles of Economics
- Aviation Marketing
- Human Factors 2
- Airline Finance
- Aviation Economics
- Airline Operations Management
- University Elective

**THIRD YEAR**
- Risk and Safety Management Systems
- Airport Management
- Elective 1
- Communications and Research Methods
- Aviation Strategic Management
- Organisational Leadership
- Project Management: Principles and Strategies
- Aviation Project

**CONSTRUCTION**

**Bachelor of Construction Management (Honours)**

*Develop a global career in aviation management. Build your knowledge in complex airport and flight operations. Focus on key areas such as aviation law, airline finance, operations management, economics and marketing, safety and human factors, and professional and technical communication. Learn about air operations dispatch, airport management, computer-controlled flight management systems, crew resource management, flight operation technologies, flight planning and traffic control. Access our state-of-the-art flight simulators to build your understanding of pilot operations and different flying conditions. Benefit from close links to industry with coursework and materials aligned directly to industry needs and international best practice. Complete an aviation project in your final year, which focuses on a real-world challenge and showcases your knowledge along with critical analytical, research and presentation skills.*

**DEGREE STRUCTURE**

**FIRST YEAR**
- Professional Practice Program
- Selection Rank …… 80
- IELTS Total ……….. 6.0
- IELTS Reading ……….. 6.0
- IELTS Writing ……….. 6.0

**SECOND YEAR**
- Human Factors 1
- Introduction to Aviation Management
- Aviation Practice
- University Elective
- Introduction to Aviation Law
- Aviation Science
- Human Factors 2
- Airline Finance
- Aviation Economics
- Airline Operations Management
- University Elective

**THIRD YEAR**
- Risk and Safety Management Systems
- Airport Management
- Elective 1
- Communications and Research Methods
- Aviation Strategic Management
- Organisational Leadership
- Project Management: Principles and Strategies
- Aviation Project

**CONSTRUCTION**

**Bachelor of Construction Management (Honours)**

*Develop a global career in aviation management. Build your knowledge in complex airport and flight operations. Graduate with a degree that is accredited by the Australian Institute of Building and be eligible to apply for corporate membership. You will also be able to apply for membership with the Royal Institute of Chartered Surveyors (UK). Students who have completed the final year specialisation in Quantity Surveying will also be eligible to apply for corporate membership with the Australian Institute of Quantity Surveyors.

CAREERS
Construction manager / capital works manager / operations manager / quantity surveyor / building surveyor / project manager / site supervisor / estimator / construction planner / contract administrator / bid manager

DEGREE STRUCTURE

FIRST YEAR
- Introduction to Contract Administration
- Construction 1
- Introduction to Construction Management
- Construction Communication
- Construction Materials
- Introduction to Construction Business Management
- Structures 1
- University Elective

SECOND YEAR
- Quantity Surveying Practice 1
- Contract Administration
- Construction 2
- Structures 2
- Building Estimating
- Construction Cost Planning
- Construction Scheduling
- Building Services N

THIRD YEAR
- Development Regulation
- Project Appraisal
- Construction Environmental Science
- Building Surveying
- Construction Operations and Safety
- Advanced Contract Administration
- Fire Engineering N
- Sustainable Construction

FOURTH YEAR
- Research Theory and Practice
- Integrated Project
- and two of the following three specialisation courses:
  - Quantity Surveying Specialisation: Quantity Surveying Practice 2
  - Building Surveying Specialisation: Asset Management and Building Pathology
  - Construction Management Specialisation: Construction Business Management

NBE Honours Research Project
- and two of the following three specialisation courses:
  - Quantity Surveying Specialisation: Advanced Quantity Surveying
  - Building Surveying Specialisation: Advanced Building Surveying
  - Construction Management Specialisation: Advanced Construction Management

WE ALSO OFFER
- Bachelor of Construction Management
- Bachelor of Engineering (Honours) (Surveying)
- Bachelor of Engineering (Honours) (Civil), Bachelor of Business

CIVIL ENGINEERING

Bachelor of Engineering (Honours) (Civil)

Degrees:
- Bachelor of Engineering (Honours) (Civil)
- Bachelor of Engineering (Honours) (Civil and Construction Management)
- Bachelor of Engineering (Honours) (Civil and Structural)

unisa.edu.au/engineering

Mawson Lakes Campus
- 4 years full-time
- $A37,700 pa* indicative 2021
- February and July intakes

PROGRAM CODE: LHMI | CRICOS CODE: VARIIES

Prepare for a career in civil engineering. Choose to specialise in Civil and Construction Management, or Civil and Structural. Access industry-standard facilities on campus including the largest strong floor in Australia, along with high-tech testing and computer-modelling equipment. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events. You will also have the opportunity to complete projects that tackle engineering challenges for real clients, from the tender phase through to feasibility, concept development and detailed design. Go on an overseas study exchange and choose from over 25 countries and more than 60 universities worldwide. Graduate with a degree accredited by Engineers Australia and be eligible to apply for membership. You will also be eligible for membership with comparable international institutions.

Bachelor of Engineering (Honours) (Civil)

PROGRAM CODE: LHMI | CRICOS CODE: 081808M

Learn to design and maintain critical infrastructure such as bridges, buildings, airports, roads, railways and water systems. Focus on core courses in road design, geospatial science, soil mechanics, hydraulics and hydrology, geotechnical engineering, and reinforced concrete design. Tailor your studies by choosing a major study area in either Surveying, Business Innovation, Structural Engineering, Construction Management, or Civil Engineering.

CAREERS
Civil engineer / geotechnical engineer / water resources engineer / environmental engineer / engineering consultant / project engineer / transport engineer / structural engineer / project coordinator

DEGREE STRUCTURE

CIVIL SPECIALISATION

FIRST YEAR
- Programming Concepts
- Engineering Materials
- Mathematical Methods for Engineers 1
- Sustainable Engineering Practice
- Mathematical Methods for Engineers 2
- Engineering Mechanics
- Electrical and Electronic Systems
- Engineering Design and Innovation

SECOND YEAR
- Engineering Modelling
- Mechanics of Materials
- 2 x Major

THIRD YEAR
- Business Management for Engineers
- Soil Mechanics
- Steel and Timber Design
- Hydraulics and Hydrology
- Water Resources Systems Design
- Geotechnical Engineering
- Reinforced Concrete Design

FOURTH YEAR
- Industrial Experience N
- Engineering Capstone Experience A
- Engineering Honours Project A
- 2 x Major
- Engineering Capstone Experience B
- Engineering Honours Project B
- 2 x Major

Bachelor of Engineering (Honours) (Civil and Construction Management)

PROGRAM CODE: LHMI | CRICOS CODE: 099377D

Study South Australia’s only degree combining civil engineering and construction management. Learn to plan, implement and deliver major construction projects while meeting critical deadlines and budgets. Develop a strong foundation of engineering knowledge in your first year, with specialist project management courses such as Construction Scheduling and Advanced Construction Management starting in your third year.

CAREERS
Civil project manager / civil construction manager / civil engineer / geotechnical engineer / project engineer / engineering consultant / project coordinator / capital works manager
Bachelor of Engineering (Honours) (Civil and Structural)

PROGRAM CODE: LHMI | CRICOS CODE: 081807A

*see pages 91–92 for details

Build a career constructing, managing and maintaining the civil infrastructure that supports modern living. Develop the skills to design the formation of structures like bridges, buildings, airports, tunnels, ports and water systems. Study specialist structural engineering courses covering structural analysis, earthquake and masonry engineering, and advanced steel and concrete structures. Learn how to manage the social, environmental and financial components of large-scale construction projects to ensure they are delivered with a minimal footprint, on time and on budget.

CAREERS

Structural engineer / civil engineer / structural design engineer / civil designer / construction manager / environmental engineer / transport engineer / geotechnical engineer / project coordinator

DEGREE STRUCTURE

CIVIL AND CONSTRUCTION SPECIALISATION

FIRST YEAR

Programming Concepts
Engineering Materials
Mathematical Methods for Engineers 1
Sustainable Engineering Practice

Mathematical Methods for Engineers 2
Engineering Mechanics
Electrical and Electronic Systems
Engineering Design and Innovation

SECOND YEAR

Engineering Modelling
Mechanics of Materials
Introduction to Surveying and Spatial Sciences
Engineering and Environmental Geology

Introduction to Water Engineering
Road Design and Traffic Management
Civil Engineering Techniques
Professional Engineering Design Practice

THIRD YEAR

Business Management for Engineers
Soil Mechanics
Steel and Timber Design
Hydraulics and Hydrology

Water Resources Systems Design
Geotechnical Engineering
Reinforced Concrete Design
Construction Scheduling

FOURTH YEAR

Industrial Experience N
Engineering Capstone Experience A
Engineering Honours Project A
Contract Administration
Principles of Project Management

Engineering Capstone Experience B
Engineering Honours Project B
Advanced Construction Management
Building Estimating

*see pages 91–92 for details*  

Study a general degree that will provide you with the fundamentals needed for a modern IT professional. Tailor your studies by choosing from a wide range of minors. You can select two IT minors from areas such as 3D Animation, Business Systems, Data Analytics, Games, Mobile Applications, Multimedia, Networking, Security, Software Development, or Visual Effects. You also have the choice of selecting one minor from a different discipline, such as Accounting, Digital
Media, Innovation and Entrepreneurship, International Business, Marketing, or Management. Enjoy the flexibility of having the option to transfer into a specialised IT degree and receive study credit for successfully completed courses.

CAREERS
Software developer / networking analyst / web developer / IT consultant / database developer / IT manager / systems analyst / computer programmer / user interface developer

### DEGREE STRUCTURE

#### FIRST YEAR
- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies
- System Requirements and User Experience
- System Requirements Studio

#### SECOND YEAR
- Interface Design, Interaction and Experience
- Web Development
- Data Structures
- Agile Development with .NET

#### THIRD YEAR
- Computer Game Design Concepts
- Small Business for Professionals
- Mobile Game Development
- Artificial Intelligence
- Elective
- Game Engines and Graphics
- ICT Project

---

### Bachelor of Information Technology (Games and Entertainment Design)

**PROGRAM CODE:** LBCP | **CRICOS CODE:** 083331E

*see pages 91–92 for details*

Learn to develop new and exciting applications for different industries and markets. Apply technical skills and creativity to game-type productions, software and interfaces. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. You will then complete highly specialised courses focusing on computer graphics programming, multimedia design and information visualisation. Explore interface design, interaction and experience; tools for software development, game asset creation, computer game design concepts, mobile game development, and artificial intelligence.

**CAREERS**
Game designer / Android and iOS developer / mobile games developer / video game designer / video game system designer / game programmer / web developer / multimedia specialist

---

### Bachelor of Information Technology (Networking and Cybersecurity)

**PROGRAM CODE:** LBCP | **CRICOS CODE:** 067898K

*see pages 91–92 for details*

Focus on the security of information in contemporary IT systems. Be at the forefront of security intelligence, finding new ways to combat escalating cyber-attacks and defending against spamming, malware, viruses and other threats. Develop the skills to support a network roll-out and infrastructure maintenance, as well as knowledge in networking topologies, routers and firewalls. Complete specialist courses including Digital Forensics, Cloud Virtualisation and Storage, Information Security Management, and Network Security. The core networking courses will also prepare you to sit industry certification exams and will also help you build essential skills in CCNA, CISCO and CCNP.

**CAREERS**
Cybersecurity analyst / network administrator / network engineer / cybersecurity consultant / cybersecurity governance manager / policy adviser / IT service delivery manager

---

### DEGREE STRUCTURE

#### FIRST YEAR
- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies

### Bachelor of Information Technology (Mobile Application Development)

**PROGRAM CODE:** LBCP | **CRICOS CODE:** 083331E

*see pages 91–92 for details*

Build a dynamic career as a mobile app developer. Develop the technical knowledge and specialist software skills to design your own apps for various platforms. Influence how people interact with social networks, entertainment, e-commerce and information sourcing and sharing. Study highly specialised courses that will teach you how to develop apps in languages such as C++ and .NET, which will get you career-ready. Learn from industry experts and develop the techniques to successfully pitch your app ideas to investors or start your own company.

**CAREERS**
Mobile app developer / Android and iOS app developer / application developer / software applications programmer / web developer / entrepreneur

---

### DEGREE STRUCTURE

#### MOBILE APP SPECIALISATION

#### FIRST YEAR
- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies
- System Requirements and User Experience
- System Requirements Studio

#### SECOND YEAR
- Interface Design, Interaction and Experience
- Web Development
- Systems Administration
- Network Architecture
- Systems Design
- Elective
- Network Security
- CCNP Route
Enter the world of software development and programming. Become an expert in the design, implementation and testing of small and large software systems. Learn to program in a variety of languages, including HTML, C++, NET, and in cloud-based applications. Be exposed to real-world practice and cutting-edge developments in this space and discover the latest trends in user interactions and experiences.

**CAREERS**
Software developer / web developer / iOS developer / app developer / programmer / frontend developer / systems analyst

**DEGREE STRUCTURE**

**SOFTWARE DEVELOPMENT SPECIALISATION**

**FIRST YEAR**
- Information Technology Fundamentals
- Problem Solving and Programming
- Network Fundamentals
- Design Thinking Studio
- Object Oriented Programming
- Data Driven Web Technologies
- System Requirements and User Experience
- System Requirements Studio

**SECOND YEAR**
- Interface Design, Interaction and Experience
- Web Development

*see pages 91–92 for details

Go beyond traditional programming and develop specialist skills in software engineering. Study core courses to build your base knowledge in IT, network, database and programming fundamentals, and systems analysis. You will then explore advanced concepts and research methods in computer science including systems development, database and knowledge management, health informatics, networking and security. Learn to develop large, complex systems and focus on key areas such as tools for software development, software development with C++, agile development with .NET, concurrent programming, artificial intelligence, and cloud programming. You will also develop the cognitive skills needed for critical thinking, and the ability to understand and analyse the technical and design elements of software engineering. Complete a major specialist project focusing on a real-world IT issue, along with three software engineering minors across the multi-million dollar Future Industries Institute on campus. Graduate with a degree accredited by the Australian Computer Society.

**CAREERS**
Software engineer / test manager / software developer / Android and iOS developer / programmer / information systems manager / computer scientist

*see pages 91–92 for details

Unravel the mysteries of the natural and physical world. Build your career as a scientist, making predictions and informed decisions through the systematic study of the nature and behaviour of the physical universe. Study the fundamentals of science through observation, experiment and measurement. Tailor your degree by choosing two majors that align with your interests and career goals, including Applied Physics, Biology, Chemistry, Ecosystem Sciences, or Mathematics. Gain practical experience through laboratory and field work. Access state-of-the-art facilities and engage with researchers at the multi-million dollar Future Industries Institute on campus. Continue your studies with the Master of Teaching (Secondary) to become a science teacher.

Note: Students interested in taking a major in another area of science can discuss their options with the University after enrolment.
两句

**CAREERS**
This degree can lead to careers in a variety of areas, including:
Research laboratories / medical and pharmaceutical industries / manufacturing / environmental management / food development / mining and energy / information technology / defence science / meteorology / teaching (with further study)
To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

**DEGREE STRUCTURE**

**FIRST YEAR**
Professional and Technical Communication
Science Major A – course 1
Science Major B – course 1
Elective 1

Statistics for Laboratory Sciences
Science Major A – course 2
Science Major B – course 2
Elective 2

**SECOND YEAR**
Science Major A – course 3
Science Major A – course 4
Science Major B – course 3
Elective 3

Science Major B – course 4
Science Major B – course 5
Science Major A – course 5
Elective 4

**THIRD YEAR**
Science Major A – course 6
Science Major A – course 7
Science Major B – course 6
Elective 5

Science Major B – course 8
Science Major B – course 8
Elective 6

**APPLIED PHYSICS MAJOR**
Applied Physics 1
Applied Physics 2
Physics of Materials and Technology
Computational Science 1
Applied Physics 4
Modern Physics OR Computational Science 2
Optical Communications OR Lasers and Optics
Applied Science Project

**BIOLOGY MAJOR**
Biology A
Biology B
Life on Earth A
Life on Earth B
Human Ecology and Global Change
Global Change and Human Health
Research Elective Project
Biological Course

**CHEMISTRY MAJOR**
Chemistry 100
Chemistry 101
Synthetic Chemistry
Structure Determination and Analysis
Advanced Synthetic Chemistry
Advanced Structure Determination and Analysis
Molecules-to-Materials: Foundations for Nanotechnology
Research Elective Project

**ECOLOGICAL SCIENCES MAJOR**
Environment: A Human Perspective
Biodiversity for the Environment
Sustainable Ecosystems
Ecology
Environmental Interpretation and Community Engagement
Environmental Conflict and Public Consultation
Restoration Ecology
Park and Ecotourism Management

**MATHEMATICS MAJOR**
Calculus 1
Calculus 2
Linear Algebra
Fundamentals of Real Analysis
Differential Equations 1
Mathematical Sciences Project
Topics in Mathematics 1
Multivariable Calculus

**BACHELOR OF ENVIRONMENTAL SCIENCE**
unisa.edu.au/enviro

- **3 years full-time**
- **$A35,300 pa* indicative 2021**
- **February and July intakes**

**PROGRAM CODE**: LBVT | CRICOS CODE: 070414J

*see pages 91–92 for details

Build a career in environmental sustainability, exploring how humans interact with the environment and how we can best manage it. Study core courses in biology, soil science, ecology, conservation, geology and social sciences. Complete in-depth examinations in biological and earth sciences. Develop essential skills working with Geospatial Information Systems (GIS) to capture, analyse and manage spatial and geographic data. Choose a major study area to tailor your degree, including Ecology and Conservation, Earth Science and Environmental Chemistry. Learn in a state-of-the-art immersive virtual environment on campus using Project Live visualisation technology, which transforms traditional classroom activities into interactive learning. Access cutting-edge digital imagery of local environments and the tools to process data and evaluate its meaning. Through this technology, you will become familiar with the latest digital imaging, mapping and spatial analysis techniques. Gain additional practical experience through hands-on field work and real-world projects. Continue your studies through the Master of Teaching (Secondary) to teach science up to Year 10 and Environmental Science to Year 12.

**CAREERS**
Environmental adviser / land management officer / sustainability officer / environmental consultant / ecologist / environmental scientist / environmental project officer / environmental strategy manager / environmental researcher / teacher (with further study)

stakeholder engagement, business intelligence and the management of complex information systems in a business setting. Study a range of theoretical courses covering universal IT practices, including areas like Information Systems, Organisational Transformation and Business Modelling, Information Governance, and Project Management. Tailor your studies through elective courses covering topics such as data and web mining, security operations, network infrastructure, commercial law, global business, marketing, accounting and people management. Complete a major project where you will work on a real-world issue or challenge within a structured team, applying modern IT and management techniques. Graduate with a qualification accredited by the Australian Computer Society.

CAREERS
Business and systems analyst / ICT manager / software programmer / applications programmer / ICT network and support manager / solutions architect / ICT project manager / ICT portfolio manager / ICT test manager

ENTRY REQUIREMENTS
• Bachelor degree in any discipline from a recognised higher education institution; or
• Graduate certificate in information technology or a graduate certificate in information systems from a recognised higher education institution; or
• Graduate diploma in information technology or a graduate diploma in information systems from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
IT Concepts
Project Management for IT Professionals
Professional Communication
Business Intelligence and Analytics
Enterprise Systems using SAP
Business Systems Analysis
Elective 1

SECOND YEAR
Security Principles
Business Process Modelling
IT Stakeholder Engagement
Elective 2
Enterprise Architecture
Information Governance
Capstone Professional Project

Master of Cybersecurity

unisa.edu.au/IT

Join a rapidly growing industry tasked with protecting critical IT infrastructure and information. Study technical topics such as network infrastructure, security operations, web and cloud security, and cybersecurity planning and compliance. Develop the leadership and negotiation skills needed for a cybersecurity expert, and to manage cybersecurity projects and personnel. Explore cybersecurity defence strategies for complex environments, including penetration testing and presentation methods for communicating technical topics to broader audiences. Learn how to apply technical skills to organisational contexts with a focus on risk management and incident response. Gain valuable practical experience by completing a final-year cybersecurity exercise where you will devise and implement a defence strategy for a complex enterprise environment. Collaborate with our Innovation and Collaboration Centre, and access industry expertise in technology, design, business growth, management, marketing and commercialisation.

CAREERS
Security analyst / cryptanalyst / security software developer / cybersecurity specialist / system security engineer / cyber solutions architect / cybersecurity adviser / cybersecurity manager / test lead

ENTRY REQUIREMENTS
• Entry to this program is competitive and will be assessed by the Program Director. Applicants will have typically completed a bachelor degree in information technology with a UNISA equivalent Grade Point Average (GPA) of at least 5.0.
• Applicants who have completed a bachelor degree or higher in a different discipline may also be considered for entry based upon their IT expertise gained through formal tertiary studies and/or relevant work experience. These applicants are required to submit a detailed curriculum vitae.
• Applicants may be required to attend an interview, either in-person or online.

DEGREE STRUCTURE

FIRST YEAR
IT Concepts
Network Infrastructure
Security Principles
Security Governance
Security Consultancy
Network Security
Operating Systems and Application Security
Web and Cloud Security

SECOND YEAR
Digital Forensics Essentials
Industrial Internet Security
Enterprise Security
Cybersecurity Risk and Compliance
Security Architecture
Capstone Professional Project

Master of Data Science

unisa.edu.au/IT

Nested with: Graduate Certificate in Data Science (LCDS), Graduate Diploma in Data Science (LGDS)

Join a rapidly growing industry tasked with protecting critical IT infrastructure and information. Study technical topics such as network infrastructure, security operations, web and cloud security, and cybersecurity planning and compliance. Develop the leadership and negotiation skills needed for a cybersecurity expert, and to manage cybersecurity projects and personnel. Explore cybersecurity defence strategies for complex environments, including penetration testing and presentation methods for communicating technical topics to broader audiences. Learn how to apply technical skills to organisational contexts with a focus on risk management and incident response. CAREERS
Data scientist / big data visualiser / business intelligence analyst / information security analyst / social media analyst / customer insights analyst / data analyst / data engineer / research analyst

ENTRY REQUIREMENTS
• Bachelor degree in information technology or mathematics from a recognised higher education institution; or
• Graduate diploma or graduate certificate in data science from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
Big Data Basics
Statistical Programming for Data Science
Two of the following four courses:
• Statistics for Data Science
• Probabilities and Data
• Relational Databases and Warehouses
• Business Intelligence and Analytics

Predictive Analytics
Unsupervised Methods in Analytics
Research Methods
Data Visualisation

SECOND YEAR
Social Media Data Analytics
Customer Analytics in Large Organisations
Data Science Professional Development
Advanced Analytic Techniques 1
Advanced Analytic Techniques 2
Capstone Professional Project
Master of Engineering (Civil and Infrastructure)

**ENTRY REQUIREMENTS**
- Bachelor degree in engineering, science or technology, from a recognised higher education institution, or
- Graduate certificate or graduate diploma in engineering from a recognised higher education institution.

**DEGREE STRUCTURE**

**FIRST YEAR**
- Professional Engineering Practice E
- 3 x Electives
- Engineering Research Practice
- 3 x Electives

**SECOND YEAR**
- Engineering Economic Analysis
- Enterprise Resource Planning
- Minor Thesis 1 (Eng)
- Supply Chain Management G
- Operations Management Systems
- Minor Thesis 2 (Eng)

Study advanced structural and geotechnical engineering. Apply and synthesise civil engineering theories to help solve practical infrastructure problems. Create and design models that can be used in critical infrastructure design and analysis. Choose to focus extensively on project management and leadership through dedicated elective courses. Develop your communication skills to effectively engage other engineering professionals and broader stakeholders. Alternatively, you can choose electives that cover a broad range of topics, including transportation engineering, green infrastructure, structural analysis, climate change adaptation, and earthquake and masonry engineering.

**CAREERS**
Civil engineer / structural engineer / geotechnical engineer / civil construction manager / civil project manager / operations manager / civil division manager

**Master of Engineering (Water Resources Management)**

**ENTRY REQUIREMENTS**
- Bachelor degree in engineering, science or technology, from a recognised higher education institution; or
- Graduate certificate or graduate diploma in engineering from a recognised higher education institution.

**DEGREE STRUCTURE**

**FIRST YEAR**
- Research Data Analysis
- Steel and Timber Design
- Soil Mechanics
- Elective 1

**SECOND YEAR**
- Reinforced Concrete Design
- Geotechnical Engineering
- Advanced Soil Mechanics
- Elective 2

**Master of Engineering (Water Resources Management)**

**ENTRY REQUIREMENTS**
- Bachelor degree in engineering, science or technology, from a recognised higher education institution; or
- Graduate certificate or graduate diploma in engineering from a recognised higher education institution.

**DEGREE STRUCTURE**

**FIRST YEAR**
- Research Data Analysis
- Steel and Timber Design
- Soil Mechanics
- Elective 1

**SECOND YEAR**
- Reinforced Concrete Design
- Geotechnical Engineering
- Advanced Soil Mechanics
- Elective 2

Study advanced water and environmental engineering theories to support essential waterways, resources and infrastructure. Create and design systems that can be used in developing water resources and supporting water quality management. Learn to integrate modelling technology and GIS applications to form comprehensive water systems. Choose to focus extensively on project management and leadership through dedicated elective courses. Develop your communication skills to effectively engage other engineering professionals, along with water and environmental experts. Alternatively,

Master of Engineering

Degrees:
- Master of Engineering (Electrical Power)
- Master of Engineering (Telecommunications)

unisa.edu.au/engineering

Mawson Lakes Campus

2 years full-time

$38,800 pa*

February and July intakes

PROGRAM CODE: LME | CRICOS CODE: Varies

*see pages 93–95 for details

Develop advanced knowledge in engineering theory and practice, and tailor your studies by choosing a specialisation that interests you most in either Electrical Power or Telecommunications. Complete a major research project and a minor engineering thesis during your studies, focusing on real-world engineering challenges. Benefit from links to our internationally-recognised Institute for Telecommunications Research and the multi-million dollar Future Industries Institute located on campus.

ENTRY REQUIREMENTS
Bachelor degree in electrical engineering, or a related discipline, from a recognised higher education institution.

Master of Engineering (Electrical Power)

PROGRAM CODE: LME | CRICOS CODE: 079908C

*see pages 93–95 for details

Further your knowledge in electrical engineering with a particular focus on electrical power. Studying modern power systems, renewable and distributed energy generation, and advanced machine modelling. Tailor your studies through a range of elective courses focusing on areas such as advanced control, digital signal processing, industrial autonomous systems and linear electronic circuits. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge (such as renewable energy storage or the optimisation of electrical power systems), or an industry-related project.

CAREERS
Electrical engineer / project engineer / operations manager / project development manager / renewable energy projects manager / asset management manager / sustainable energy engineer / researcher

DEGREE STRUCTURE

ELECTRICAL POWER SPECIALISATION

FIRST YEAR

CORE COURSES
- Renewable Energy Systems UG
- Power System Analysis
- Engineering Research Practice

SPECIALISATION COURSES
- Select a total of 22.5 units from the following:
  - Design and Integration of Renewable Energy Systems
  - Operation and Control of Modern Power Systems
  - Power Electronics
  - Learning in the Workplace Project

Advanced Control and Signal Processing
- Electronic Filters and Amplifiers
- VLSI Design
- Digital Signal Processing
- Industrial Automation Systems
- Energy and Society

SECOND YEAR

CORE COURSES
- Renewable and Distributed Power Generation
- Advanced Electrical Machines
- Advanced Power System Modelling and Analysis
- Engineering Minor Thesis 1
- Engineering Minor Thesis 2

Select one of:
- Engineering Economic Analysis
- Total Quality Management
- Lean Six Sigma
- Project Planning and Control G
- Enterprise Resource Planning
- Operations Management Systems

Master of Engineering (Telecommunications)

PROGRAM CODE: LME | CRICOS CODE: 079909B

*see pages 93–95 for details

Further your knowledge in electrical engineering, coupled with information and communication technologies. Focus on wireless and mobile communication systems, theory and coding, and complex telecommunication networks. Tailor your studies through a range of elective courses covering topics such as modern communication systems, optical communications, advanced control and network infrastructure. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge, or industry-related project.

CAREERS
Telecommunications engineer / network engineer / communications engineer / network planning manager / telecommunications development manager / researcher

DEGREE STRUCTURE

TELECOMMUNICATIONS SPECIALISATION

FIRST YEAR

CORE COURSES
- Digital Communications
- Digital Signal Processing
- Engineering Research Practice

SPECIALISATION COURSES
- Select a total of 22.5 units from the following:
  - Modern Communication Systems
  - Optical Communications
  - Network Infrastructure
  - Learning in the Workplace Project

Electronic Filters and Amplifiers
- VLSI Design
- Advanced Control and Signal Processing
- Renewable Energy Systems
- Power Electronics
- Energy and Society

SECOND YEAR

CORE COURSES
- Telecommunications Networks
- Mobile Communications and Wireless Access
- Information Theory and Coding
- Engineering Minor Thesis 1
- Engineering Minor Thesis 2

Select one of:
- Engineering Economic Analysis
- Total Quality Management
- Lean Six Sigma
- Project Planning and Control G
- Enterprise Resource Planning
- Operations Management Systems

Elective 1

Elective 3
REAL-WORLD PROJECTS

Graduate with a qualification endorsed by the Australian Institute of Project Management and apply key learnings across a wide range of industries, businesses and government departments. Study the fundamentals of project management and gain an advanced understanding of risk management, leadership, strategy and international best practice. Develop the skills to apply practical project management methodologies, work in interdisciplinary project teams and manage projects from inception to delivery. Learn how to establish a project, prepare project plans to meet objectives and requirements, select appropriate management tools for monitoring and controls, and communicate effectively to various stakeholders. Complete a major integrated research project, which can focus on a real issue within your workplace. Benefit from a program that explores the latest international best practice guidelines from PMI (PMBOK) and PRINCE2. This qualification is also endorsed by the Australian Institute of Program Management, a member of the International Project Management Association (IPMA).
English language requirements

The table on the next page sets out the minimum English language requirements for entry into our degrees (but should be used as a guide only). Many degrees require higher English language proficiency scores, so you will need to check the specific score for your preferred program.

Applicants from countries where English is an official language, or who have recent study experience in an English setting, may be eligible to use this to meet the English language proficiency requirement. Certified documentation is required. We will consider all applications on a case-by-case basis.

The Centre for English Language at the University of South Australia (CELUSA) provides programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited to both undergraduate and postgraduate applicants that do not meet the University’s English language entry requirements and offers Academic English (AE) language preparation programs.

For more information, visit unisa.edu.au/english-language-requirements

Undergraduate admissions

You will need to have completed one of the following for entry:

» An Australian Year 12 or equivalent international program; or
» A recognised Foundation Studies program; or
» A SAIBT, Eynesbury, TAFE or other recognised tertiary pathway program.

To apply, visit unisa.edu.au/international/apply

AUSTRALIAN TERTIARY ADMISSION RANK (ATAR)

If you are an international student studying the Australian Year 12 curriculum in Australia or offshore, entry to our undergraduate degrees is determined by a Selection Rank score, which is provided for every program. The Selection Rank is your Australian Tertiary Admissions Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points). Applications for entry are completed through the South Australian Tertiary Admissions Centre (SATAC).

For more information, and to apply, visit satac.edu.au

STUDY CREDIT

If you have completed previous studies at university, in a diploma program or an equivalent post-secondary qualification, you may be eligible to receive study credit, exemptions or advanced standing towards your degree. You may also be considered for credit if you have work experience in an area relevant to your studies.

To check your eligibility, visit creditassessor.unisa.edu.au

Postgraduate admissions

You will need to have completed one of the following for entry:

» An undergraduate degree, to the required standard, from a recognised higher education institution in Australia or the international equivalent; and/or
» The equivalent professional work experience.

The University offers both coursework and research degrees.
### English language test scores

**Undergraduate**

> English language test results are generally valid for two years prior to your date of commencement at the University of South Australia.

</tbody>
</table>

**Note 1:** Students require an additional year of study following their high school studies. This can include the successful completion of a recognised pre-tertiary program; Foundation Studies; or one year of study at a recognised tertiary or higher education institution.

**Note 2:** Students must have a minimum of six points for entry (some programs require a higher score) and have completed 3x A levels. The score is calculated using the best 3 subjects and can include local languages and 1 Advanced Subsidiary (AS) grade. AS grades cannot be used for any pre-requisite subject/s. The scoring system is A*=6, A=5, B=4, C=3, D=2, E=1.

**Note 3:** Selection Rank is your Australian Tertiary Admission Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points).

For other countries, please contact our International Office *(e) unisa.edu.au/enquire • (p) +61 8 8302 0114*
Undergraduate pathway options

There are many alternative pathways to help you gain entry into the University of South Australia. This includes on-campus programs delivered at City West and City East, as well as other off-campus options.

To learn more, visit unisa.edu.au/international-pathways

ON CAMPUS

THE SOUTH AUSTRALIAN INSTITUTE OF BUSINESS AND TECHNOLOGY (SAIBT)

SAIBT offer an early transition program and a range of diploma programs that provide entry into over 90 undergraduate degrees at the University of South Australia (please note some programs require a competitive Grade Point Average). The SAIBT programs are an ideal alternative if you are ineligible for direct entry into your preferred degree. Successful completion of your SAIBT program will provide direct entry into either first or second year (with credit granted) of your chosen program.

Diplomas include:
- Diploma of Arts
- Diploma of Business
- Diploma of Engineering
- Diploma of Information Technology
- Diploma of Health Science

Centres for English Language (CELUSA)

The Centre for English Language at the University of South Australia (CELUSA) delivers high quality Academic English programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited for applicants who do not meet the University’s English language entry requirements and offers Academic English (AE) language preparation programs. Students who are eligible for and successfully complete an AE program (at an appropriate level) will be able to commence their studies at the University of South Australia or a pathway program through SAIBT. CELUSA is also an IELTS and OET test centre.

unisa.edu.au/study
Eynesbury College offers a range of programs that can lead into the first or second year of an undergraduate degree at the University of South Australia.

**Eynesbury College programs include:**
- English Language programs (for undergraduate and postgraduate entry)
- Senior High School (Years 10, 11 and 12)
- Foundation Studies Program
- Diploma Studies: Business or Computing & IT
- Diploma: Business, Engineering or Computing and IT

Located in the city centre, Eynesbury College is close to our City East and City West campuses, and offers excellent teaching quality and support for students. The college is also a Pearson PTE Academic test centre.

TAFE SA packaged programs offer you a practical way of achieving your end goal of an undergraduate degree from the University of South Australia.

Successfully completing a TAFE SA Diploma, Advanced Diploma or Associate Degree provides entry into a range of undergraduate degrees at the University of South Australia, and credit for previous study can lead you directly into year 1, 2 or 3, reducing the overall study time through credit transfers.

TAFE SA English for Academic Purposes 20 (064266M) and English for Academic Purposes Advanced (086001K) can provide direct entry into some degrees.

- RTO code: 41026
- HEP code: PRV14002
How to apply: undergraduate and postgraduate

1. Find your degree
   Explore your study options in this guide or go online for more information.
   unisa.edu.au/study

2. Check admission requirements
   Make sure you are aware of entry requirements for the University as well as individual program requirements:
   - English language requirements
   - Guidelines on genuine temporary entry
   - Guidelines on living costs and evidence of funds
   unisa.edu.au/international/apply

3. Apply
   Once you have found the program you wish to study, you can apply online either directly or via an Education Agent. Apply at least two months before you intend to start studying. Some students may require more time to ensure they receive their visa.
   - **Apply directly** — You can apply directly via our secure online service. Save your application and return later to continue the process and track your progress.
   - **Education Agents** — Depending on your country of citizenship, you may be required to apply through one of our registered Education Agents. A full list is available online at unisa.edu.au/find-an-agent

**Supporting documentation**
Attach the following documents to your online application to avoid delays.
- Certified* copies of academic transcripts and graduation certificates, including information on your institution’s grading system as required;
- English language test results (e.g. IELTS or TOEFL) where applicable;
- Detailed syllabi/course outlines of previous studies if you are applying for credit or advanced standing;
- Additional academic and employer references if required; and
- A certified* copy of the personal details page and signature page of your passport.

*A certified copy is a copy of the original document that has been certified by an official such as a University of South Australia Education Agent or staff member, justice of the peace, notary public, police officer or examining authority.
Application assessment

Application outcomes will be advised within one to two weeks from the date received (including all supporting documentation required).

If you are eligible for your chosen program, an offer letter package will be sent to you, or your Education Agent, via email. If you are not eligible, we may suggest alternative programs or pathway studies. Your application will be assessed in accordance with the University’s Selection and Entry to Programs Policy, which includes the guidelines on genuine temporary entry and guidelines on living costs and evidence of funds.

unisa.edu.au/international/apply

Accept your offer

To accept a place in your offered program, you will need to:

- Check the offer letter package
- If all details are correct, log in and complete the following steps:
  1. View your offer.
  2. Click the Actions button and select Respond to Offer.
  3. Ensure the offer details are correct and select Accept Offer.
  4. Upload any additional documents required to meet your condition/s (if applicable).
  5. Select the box to confirm you have read, understood and agree to the terms and conditions of the offer.
  6. Enter your full name and any comments you have before clicking Accept Offer.
  7. Pay via bank transfer or credit card using the Western Union GlobalPay for Students portal.
  8. Once you have finalised your payment, we will action your acceptance.

If you have an Education Agent, they can help you accept your offer via student-unisa.studylink.com

Student visas

We will send you a Confirmation of Enrolment (CoE) document, which you can use to apply for a student visa for entry into Australia. Apply for your student visa as soon as you receive your CoE.

unisa.edu.au/student-visa

Student payments

The Western Union GlobalPay for Students service helps you make payments in your preferred currency without extra fees and delays.

- Pay your tuition fees quickly.
- Make payments online, by bank transfer or via credit card.
- Track payments and receive status updates by text and email.

unisa.edu.au/westernunion

Prepare for arrival

Enrol online

Enrol online from any location and have the same choice as local students when organising your timetable.

Travel bookings

Flights to Australia can be heavily booked during January, February and July, so check with your travel agent early for flight options. Do not confirm bookings until you receive your CoE document. Once you have confirmed your travel arrangements, you can request our airport pick-up service and on-arrival temporary accommodation if needed.

Arrive on time

Arrive before Orientation Week to receive vital information and have the best possible start to university. If you are unable to arrive by the commencement date, you may have to defer your offer. Please note, some programs have compulsory orientation.

Orientation

We will welcome you to Adelaide with orientation sessions and activities to introduce you to life in Adelaide and on campus. You will also have the opportunity to meet other new students.

Undergraduate degrees offered in 2021

For more information, visit: unisa.edu.au/study

**Undergraduate Key**

- **Campus codes**: CE City East
  CW City West
  HL Hamersley Lakes
  M Mount Gambier
- **CRICOS PROVIDER NUMBER**: 00121B

**2021 Academic calendar**

- **Semester 1**
  - SP1: 1 Jan 2021 – 26 Mar 2021
  - SP2: 1 Mar 2021 – 3 Jul 2021
  - SP3: 5 Apr 2021 – 18 Sep 2021

- **Semester 2**
  - SP4: 28 Jan 2021 – 10 Sep 2021
  - SP5: 26 Jul 2021 – 27 Nov 2021
  - SP6: 10 Sep 2021 – 3 Dec 2021

**Business School only**

- **SP4**: 7 May 2021 – 1 June 2021
- **SP5**: 4 June 2021 – 2 Aug 2021
- **SP6**: 2 Aug 2021 – 20 Nov 2021

**Summer Term**

- **SP7**: 1 Nov 2021 – 5 Feb 2022

**IMPORTANT INFORMATION**

- The University of South Australia reserves the right to alter, amend or discontinue any program, fee, course, admission requirement, or mode of delivery without prior notice.

- Some programs may have additional entry requirements. For further details and to view the minimum entry program information, visit unisa.edu.au/study

- For more information, go to: unisa.edu.au/international-pathways

**NOT ELIGIBLE FOR DIRECT ENTRY**

- It may be possible to commence your preferred bachelor degree through one of our pathway providers that offer programs equivalent to the first year of many of our bachelor programs.

- This means you may be able to transfer to second year programs and achieve the required Grade Point Average (GPA) for your pathway.

- For more information, go to: unisa.edu.au/10-at-last

## IMPORTANT INFORMATION

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice. Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au/study](http://unisa.edu.au/study)

Please note that the University calculates a Grade Point Average (GPA) on a scale from 1–7. For more information, go to: [unisa.edu.au/gpa](http://unisa.edu.au/gpa)

**Fees**

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at [unisa.edu.au/study](http://unisa.edu.au/study), the approved university schedule will prevail.

All fees are listed in Australian dollars (A$).

**POSTGRADUATE KEY**

**Campus codes**

- **CE**: City East
- **CW**: City West
- **ML**: Mawson Lakes
- **M**: Magill

*This program is not available to onshore student visa holders.*

**2021 Academic calendar**

**SP = Study Period**

**Semester 1**

- **SPI**: 11 Jan 2021 – 26 Mar 2021
- **SP2**: 3 Mar 2021 – 5 July 2021
- **SP5**: 5 Apr 2021 – 18 Sept 2021

**Semester 2**

- **SP4**: 28 June 2021 – 10 Sept 2021
- **SP5**: 26 July 2021 – 27 Nov 2021
- **SP6**: 20 Sep 2021 – 3 Dec 2021

*Business School only*

---

**IMPORTANT INFORMATION**

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice.

Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au/study](https://unisa.edu.au/study)

Please note the University calculates a Grade Point Average (GPA) on a scale from 1–7. For more information, go to: [unisa.edu.au/gpa](https://unisa.edu.au/gpa)

**Fees**

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at [unisa.edu.au/study](https://unisa.edu.au/study), the approved university schedule will prevail.

All fees are listed in Australian dollars (A$).

---

**For International students**

**IELTS English language requirements**

Please refer to page 83 for minimum English language requirements for postgraduate study.
How to apply

Find a research area

**Business and Law**
- Accounting
- Applied Economics
- Arts Management
- Finance
- Human Resource Management and Organisation Behaviour
- International Business
- Law
- Management and Corporate Social Responsibility
- Marketing
- Property
- Sports, Tourism and Leisure Management
- Sustainability Governance

For more information about research possibilities, contact PhDEnquiriesBusiness@unisa.edu.au

**Education, Arts and Social Sciences**
- Architecture
- Cognitive Neuroscience
- Communication
- Creative Industries
- Design (Industrial)
- Design (Visual Communication)
- Education
- Film Studies
- Indigenous Studies
- Interior Architecture
- Journalism
- Languages and Linguistics
- Learning Analytics
- Psychology (PhD only)
- Social Work and Social Policy
- Sociology
- Visual Arts

MINIMUM ELIGIBILITY REQUIREMENTS

Masters by Research

An honours degree, bachelor degree with honours, or a relevant bachelor degree (or equivalent) of at least three years with a minimum credit average, or an appropriate master’s degree. Qualifications will be assessed on a case-by-case basis for equivalence.

OR

No tertiary qualifications, but you can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant publications.

Doctor of Philosophy (PhD)

Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master’s degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.

OR

Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant publications. The outcome of this assessment will determine the program options available to you.

Professional Doctorate

Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master’s degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.

OR

Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant quality publications. The outcome of this assessment will determine the program options available to you. Professional Doctorate candidates must also demonstrate at least five years practice in a relevant field, and typically within the last ten years.

MINIMUM ENGLISH LANGUAGE REQUIREMENTS

English language test scores

Results from IELTS, University of Cambridge C1 Advanced and TOEFL are generally valid for two years and must be valid at the time of commencement. For scholarships, test results must be valid at the scholarship closing date.

International English Language Testing Systems (IELTS) Academic

7.0 for English language-rich programs with a minimum of 6.0 in each sub-score*

6.5 for non-English language-rich programs with a minimum of 6.0 in each sub-score*

*To check which programs are English language-rich, go to unisa.edu.au/resdegree-english-requirements

OR

Corresponding results from an equivalent test such as Test of English as a Foreign Language (TOEFL); the University of Cambridge C1 Advanced, Examinations for the Certificate of Proficiency in English (CPE) or the Certificate in Advanced English (CAE); the Pearson Test; or the appropriate academic English language level delivered by the Centre for English Language at the University of South Australia (CELUSA).

Applicants from countries where English is an official language or who have had recent and relevant experience in an English setting may meet our minimum English entry requirements. Evidence must be provided.
