Bachelor of **BUSINESS (FINANCE)**

Graduate career-ready with the knowledge and confidence to succeed in the fast-paced financial sector.

You will develop a solid grasp of business fundamentals with core courses in areas such as analytics, accounting and economic theory. You will then focus on the borrowing, lending and investing of money, gaining an in-depth understanding of financial markets and institutions, international currency and banking markets, portfolio and fund management, and microeconomics.

During your studies you will have opportunities to gain industry experience through internships, mentoring, overseas exchange or work-integrated learning.

REAL-WORLD CONNECTIONS

Build your network and career by participating in our Business Career Mentor Program which pairs you with an experienced business professional.

BACHELOR AND MASTERS DEGREE IN 4 YEARS

Package the Bachelor of Business (Finance) with the Master of Professional Accounting degree and graduate with two qualifications in just four years with our 3+1 Pathway to Masters program.

CAREER OUTCOMES

Business adviser / investment banker / investment fund manager / stockbroker / bond trader / equity analyst / corporate loan manager / commercial banker

"Our programs are industry-informed and designed with the employability of our graduates in mind. Therefore, students will be engaged in industry-driven issues and apply theories to real world applications in the courses, while enhancing their soft skills."

Dr Reza Bradrania
Program Director
