*ComparED (QILT) Course Experience Questionnaire 2018-19, Health Services and Support – Overall Satisfaction Indicator (Undergraduate). Public SA-founded universities only.

Bachelor of **MEDICAL SCIENCE**

Graduate career-ready with this flexible degree, which will prepare you with the knowledge, skills and expertise to work in health and medical research, and biotechnology.

Learn about the human body and biological systems through core courses, along with key research methodologies. Gain practical experience in on-campus, purpose-built laboratories and tailor your degree to your area of interest with elective courses in your second and third years.

Finish your degree with a credit or higher grade point average (GPA) and you could be eligible for a one-year Bachelor of Biomedical Research (Honours) degree.

REAL-WORLD CONNECTIONS

Benefit from our strong links with our internationally-renowned research groups, UniSA Cancer Research Institute and Centre for Cancer Biology, as you work alongside internationally recognised researchers, industry professionals and acclaimed academics.

CAREER OUTCOMES

Medical science professionals can work in a variety of areas, including:

Medical and biomedical research / biotechnology / forensic science / medical informatics / sales and marketing

"UniSA has one of the best allied health programs in Australia, and great honours and PhD projects that I can pursue in my prospective field."

Kay Khine Myo Min MYANMAR
Bachelor of Medical Science

DEGREE STRUCTURE

FIRST YEAR

Chemistry 100
Molecules to Tissues A
Health and Society
Elective 1

Chemistry 101
Molecules to Tissues B
Quantitative Methods in Health
Elective 2

SECOND YEAR

Biochemistry
Physiology
Microbiology
Medical Science Elective 1

Immunology
Genes to Proteins
Genetics
Medical Science Elective 2

THIRD YEAR

Infection and Immunity
Medical Science Elective 3
Medical Science Elective 4
AND
Medical Science Elective 5
OR
Advanced Methods in
Molecular Biology

Reproduction and Development
Cancer Biology
Medical Science Elective 6
AND
Introduction to Epidemiological
Principles and Methods
OR
Medical Science Elective 5
